

# SAFETY DATA SHEET

Creation Date 08-Feb-2010

Revision Date 26-Jul-2018

Revision Number 5

1. Identification

**Product Name** 

# Lithium acetylide ethylenediamine complex

Cat No. :

**Synonyms** 

CAS-No

6867-30-7 1,2-Ethanediamine, compound with lithium acetylide (Li(C2H)) (1:1); Lithium acetylide Laboratory chemicals.

AC181250000; AC181250100; AC181250500; AC181251000

Recommended Use Uses advised against

# Details of the supplier of the safety data sheet

<u>Company</u> Fisher Scientific One Reagent Lane Fair Lawn, NJ 07410 Tel: (201) 796-7100

Acros Organics One Reagent Lane Fair Lawn, NJ 07410

Food, drug, pesticide or biocidal product use

# **Emergency Telephone Number**

For information **US** call: 001-800-ACROS-01 / **Europe** call: +32 14 57 52 11 Emergency Number **US**:001-201-796-7100 / **Europe**: +32 14 57 52 99 **CHEMTREC** Tel. No.**US**:001-800-424-9300 / **Europe**:001-703-527-3887

# 2. Hazard(s) identification

## **Classification**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

| Substances/mixtures which, in contact with water, emit | Category 1   |
|--|--------------|
| flammable gases  |              |
| Acute oral toxicity                                    | Category 4   |
| Skin Corrosion/irritation                              | Category 1 A |
| Serious Eye Damage/Eye Irritation                      | Category 1   |
| Specific target organ toxicity (single exposure)       | Category 3   |
| Target Organs - Respiratory system.                    |              |

# Label Elements

Signal Word Danger

### **Hazard Statements**

In contact with water releases flammable gases which may ignite spontaneously Harmful if swallowed

Causes severe skin burns and eye damage May cause respiratory irritation

#### Precautionary Statements Prevention

Wash face, hands and any exposed skin thoroughly after handling

Do not eat, drink or smoke when using this product

Do not breathe dust/fume/gas/mist/vapors/spray

Wear protective gloves/protective clothing/eye protection/face protection

Use only outdoors or in a well-ventilated area

Keep away from any possible contact with water, because of violent reaction and possible flash fire

Handle under inert gas. Protect from moisture

## Response

Immediately call a POISON CENTER or doctor/physician

### Inhalation

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

Skin

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower

Wash contaminated clothing before reuse

Brush off loose particles from skin. Immerse in cool water/wrap with wet bandages

### Eyes

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Ingestion

### Rinse mouth

Do NOT induce vomiting

### Fire

In case of fire: Use CO2, dry chemical, or foam for extinction

### Storage

Store locked up

Store in a well-ventilated place. Keep container tightly closed

Store in a dry place. Store in a closed container

### Disposal

Dispose of contents/container to an approved waste disposal plant Hazards not otherwise classified (HNOC)\_\_\_\_

Reacts violently with water

# 3. Composition/Information on Ingredients

| Component                                | CAS-No    | Weight % |
|--|-----------|----------|
| 1,2-Ethanediamine, compound with lithium | 6867-30-7 | >80      |
| acetylide (Li(C2H)) (1:1)                |           |          |
|  |           |          |
| 4. First-aid measures                    |           |          |

| General Advice | Show this safety data sheet to the doctor in attendance. Immediate medical attention is required.  |
|----------------|--|
| Eye Contact    | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.<br>Immediate medical attention is required. Keep eye wide open while rinsing. |

| Skin Contact                        | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Call a physician immediately.   |  |
|-------------------------------------|---|--|
| Inhalation                          | Move to fresh air. If not breathing, give artificial respiration. Call a physician or Poison<br>Control Center immediately. Do not use mouth-to-mouth method if victim ingested or<br>inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with<br>a one-way valve or other proper respiratory medical device. |  |
| Ingestion                           | Immediate medical attention is required. Do not induce vomiting. Drink plenty of water.<br>Never give anything by mouth to an unconscious person.   |  |
| Most important symptoms and effects | Causes burns by all exposure routes. Product is a corrosive material. Use of gastric lavage or emesis is contraindicated. Possible perforation of stomach or esophagus should be investigated: Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation   |  |
| Notes to Physician                  | Treat symptomatically   |  |
|                                     | 5. Fire-fighting measures   |  |
| Suitable Extinguishing Media        | Limestone powder. Dry chemical.   |  |
| Unsuitable Extinguishing Media      | DO NOT USE WATER, FOAM OR CO2   |  |

| Flash Point | No information available |
|-------------|--------------------------|
| Method -    | No information available |

# Autoignition Temperature Explosion Limits

| xplosion Limits                  |                          |
|----------------------------------|--------------------------|
| Upper                            | No data available        |
| Lower                            | No data available        |
| Sensitivity to Mechanical Impact | No information available |
| Sensitivity to Static Discharge  | No information available |
|                                  |                          |

# **Specific Hazards Arising from the Chemical**

The product causes burns of eyes, skin and mucous membranes. Reacts violently with water.

## Hazardous Combustion Products

Carbon monoxide (CO) Carbon dioxide (CO<sub>2</sub>) Nitrogen oxides (NOx)

# Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

| NFPA_  | NFPA<br>Health Flammability<br>3 3  |   | Instability<br>2                 | Physical hazards<br>W  |

|---------------------------------------|---|
| 8. E                                  | xposure controls / personal protection  |
| Exposure Guidelines                   | This product does not contain any hazardous materials with occupational exposure limitsestablished by the region specific regulatory bodies.  |
| Engineering Measures                  | Use only under a chemical fume hood. Ensure that eyewash stations and safety showers are close to the workstation location. Use explosion-proof electrical/ventilating/lighting/equipment.  |
| Personal Protective Equipment         |   |
| Eye/face Protection                   | Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.   |
| Skin and body protection              | Long sleeved clothing.  |
| Respiratory Protection                | Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. |
| Hygiene Measures                      | Handle in accordance with good industrial hygiene and safety practice.  |

# 10. Stability and reactivity

**Reactive Hazard** 

Molecular Formula Molecular Weight

Yes

| Stability  | Reacts violently with water. heat sensitive. Moisture sensitive.   |  |
|--|--|--|
| Conditions to Avoid  | Incompatible products. Excess heat. Keep away from open flames, hot surfaces and sources of ignition. Avoid dust formation. Exposure to moist air or water. Temperatures above 40°C. Exposure to moisture. |  |
| Incompatible Materials   | Acids, Alcohols, Carbon dioxide (CO2), Oxidizing agents, Water, copper, Copper alloys  |  |
| Hazardous Decomposition Products Carbon monoxide (CO), Carbon dioxide (CO2), Nitrogen oxides (NOx) |  |  |
| Hazardous Polymerization   | Hazardous polymerization does not occur.   |  |
| Hazardous Reactions  | Reacts violently with water.   |  |

11. Toxicological information

# Acute Toxicity

| Product Information              |   |
|----------------------------------|---|
| LD50 Oral VALUE                  | 637-1850 mg/kg (rat)  |
| Oral LD50                        | Category 4. ATE = 300 - 2000 mg/kg.   |
| Dermal LD50                      | Based on ATE data, the classification criteria are not met. ATE > 2000 mg/kg. |
| Mist LC50                        | Based on ATE data, the classification criteria are not met. ATE > 5 mg/l.     |
| Component Information            |   |
| Toxicologically Synergistic      | No information available  |
| Products                         |   |
| Delayed and immediate effects as | well as chronic effects from short and long-term exposure                     |
|                                  |   |

X - Listed

E - Indicates a substance that is the subject of a Section 5(e) Consent order under TSCA.

F - Indicates a substance that is the subject of a Section 5(f) Rule under TSCA.

N - Indicates a polymeric substance containing no free-radical initiator in its inventory name but is considered to cover the designated

polymer made with any free-radical initiator regardless of the amount used.

P - Indicates a commenced PMN substance

R - Indicates a substance that is the subject of a Section 6 risk management rule under TSCA.

S - Indicates a substance that is identified in a proposed or final Significant New Use Rule

T - Indicates a substance that is the subject of a Section 4 test rule under TSCA.

XU - Indicates a substance exempt from reporting under the Inventory Update Rule, i.e. Partial Updating of the TSCA Inventory Data Base Production and Site Reports (40 CFR 710(B).

Y1 - Indicates an exempt polymer that has a number-average molecular weight of 1,000 or greater.

Y2 - Indicates an exempt polymer that is a polyester and is made only from reactants included in a specified list of low concern reactants that comprises one of the eligibility criteria for the exemption rule.
