Product name: Europium(III) nitrate hexahydrate

Identification number(s): EC number: 233-380-3

4 First-aid measures

Description of first aid measures

After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Şeek immediate medical advice.

After skin contact After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed

Information for doctor Most important symptoms and effects, both acute and delayed Causes skin irritation. Causes serious eye irritation. Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. For safety reasons unsuitable extinguishing agents Halocarbon extinguisher Special hazards arising from the substance or mixture This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition. If this product is involved in a fire, the following can be released: Wirecon oxides (NOV)

Nitrogen oxides (NOx) Europium oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation **Environmental precautions:** Do not allow product to reach sewage system or any water course. Environmental precautions: Do not allow product to reach sewage system or any water Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: Acts as an oxidizing agent on organic materials such as wood, paper and fats Keep away from combustible material. Reference to other sections See Section 7 for information on safe handling See Section 7 for information on personal protection equipment. See Section 13 for disposal information. Protective Action Criteria for Chemicals PAC-1: Substance is not listed PAC-1: Substance is not listed. PAC-2: Substance is not listed. PAC-3: Substance is not listed.

7 Handling and storage

Handling Precautions for safe handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Substance/product can reduce the ignition temperature of flammable substances. This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from flammable substances. Store away from reducing agents. Do not store with organic materials. Store away from metal powders. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data

Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

Recommended filter device for short Use a respirator with type N95 (USA) of purifying respirators are appropriate. O	working environment. spirator when high concentrations are present.	ntd. of page 2) e if air-
Protection of hands: Impervious gloves Check protective gloves prior to each u The selection of suitable gloves not on! Penetration time of glove material (in	ise for their proper condition. y depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.	
Body protection: Protective work cloth 9 Physical and chemical properties	ning.	
Information on basic physical and ch		
General Information Appearance: Form:	Crystalline or powder	
Odor: Odor threshold:	Odorless Not determined.	
pH-value:	Not applicable.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	85 °C (185 °F) Not determined Not determined	
Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Contact with combustible material may cause fire. Not determined Not determined. Not determined.	
Danger of explosion: Explosion limits:	Not determined.	
Lower: Upper:	Not determined Not determined	
Vapor pressure:	Not applicable.	
Density: Relative density	Not determined Not determined.	
Vapor density Evaporation rate	Not applicable. Not applicable.	
Solubility in / Miscibility with Water:		
Partition coefficient (n-octanol/water)	Soluble): Not determined.	
Viscosity: dynamic:	Not applicable.	
kinematic: Other information	Not applicable. No further relevant information available.	
10 Stability and reactivity		
Possibility of hazardous reactions Reacts with reducing agents Reacts with flammable substances Conditions to avoid No further relevar Incompatible materials: Flammable substances Reducing agents Organic materials Metal powders Hazardous decomposition products:	to be avoided: Decomposition will not occur if used and stored according to specifications. nt information available.	
Nitrogen oxides Europium oxide		
11 Toxicological information Information on toxicological effects		
Acute toxicity: The Registry of Toxic E LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s Eye irritation or corrosion: May cause Sensitization: No sensitizing effects kn Germ cell mutagenicity: No effects kn Carcinogenicity: No classification date	skin irritation. e irritation own. nown. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive toxicity: No effects know Specific target organ system toxicity	wn. • - repeated exposure: No effects known.	
	repeated exposure: No enects known. r single exposure: May cause respiratory irritation.	
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect Additional toxicological information:	cts known. : To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information

General notes: Do not allow undiluted product or large quantities to reach gro Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information availab.	
Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations Uncleaned packagings: Recommendation: Disposal must be made according to offic Recommended cleansing agent: Water, if necessary with cl	to ensure proper disposal. ial regulations. leansing agents.
Transport information	
UN-Number DOT, IMDG, IATA	UN1477
UN proper shipping name DOT ADR IMDG, IATA	Nitrates, inorganic, n.o.s. (Europium(III) nitrate hexahydrate) 1477 Nitrates, inorganic, n.o.s. NITRATES, INORGANIC, N.O.S. (Europium(III) nitrate hexahydrate)
Transport hazard class(es) DOT Class Label ADR	5.1 Oxidizing substances 5.1
Class Label MDG, IATA	5.1 (O2) Oxidizing substances 5.1
Class Label	5.1 Oxidizing substances 5.1
Packing group DOT, ADR, IMDG, IATA	<i>III</i>
Environmental hazards:	Not applicable.
Special precautions for user EMS Number: Stowage Category Segregation Code	Warning: Oxidizing substances F-A, S-Q A SG38 Stow "separated from" ammonium compounds. SG49 Stow "separated from" cyanides
Transport in bulk according to Annex II of MARPOL73/78	
Transport/Additional information:	
DOT Quantity limitations	On passenger aircraft/rail: 25 kg On cargo aircraft only: 100 kg
Marine Pollutant (DOT):	On cargo aircraft only: 100 kg No
MDG Limited quantities (LQ) Excepted quantities (EQ)	5 kg Code: E1 Maximum net quantity per inner packaging: 30 g Maximum net quantity per outer packaging: 1000 g
UN "Model Regulation":	UN 1477 NITRATES, INORGANIC, N.O.S., 5.1, III

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms

 Signal word Danger

 Hazard statements

 H272 May intensify fire; oxidizer.

 H315 Causes skin irritation.

 H319 Causes serious eye irritation.

 H335 May cause respiratory irritation.

 H335 May cause respiratory irritation.

 Precautionary statements

 P221

 Take any precaution to avoid mixing with combustibles.
