

Safety Data Sheet per OSHA HazCom 2012

Safety Data Sheet per OSHA HazCom 2012

Product name: Lithium sulfate monohydrate, ACS

(Contd. of page 1) After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Extinguishing media Suitable extinguishing agents Product is not flammable. Use fire-fighting measures that suit the surrounding fire. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Sulfur oxides (SOx) Lithium oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures **Personal precautions, protective equipment and emergency procedures** Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. **Prevention of secondary hazards:** No special measures required. **Reference to other sections** See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: The product is not flammable Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from water/moisture. Further information about storage conditions: Store under dry inert gas. This product is hygroscopic. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and water. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Material of gloves Nitrile rubber, NBR Dependent of relevance and the instant of selection and the material of gloves Nitrile rubber, NBR Penetration time of glove material (in minutes) >480 Glove thickness 0.11 mm Eye protection: Safety glasses Body protection: Protective work clothing.

9 Physical and chemical properties	s	
Information on basic physical and ch		
General Information Appearance:		
Form:	Crystalline or powder	
Color: Odor:	White Odorless	
Odor threshold:	Not determined.	
pH-value:	Not applicable.	
Change in condition Melting point/Melting range:	130 °C (266 °F) (-H₂O)	
Boiling point/Boiling range:	Not determined	
Sublimation temperature / start: Flammability (solid, gaseous)	Not determined Not determined.	
Ignition temperature:	Not determined	
Decomposition temperature: Auto igniting:	Not determined Not determined.	
Danger of explosion:	Not determined.	
Explosion limits: Lower:	Not determined	
Upper:	Not determined	
Vapor pressure: Density at 20 °C (68 °F):	Not applicable. 2.06 a/cm³ (17.191.lbs/aal)	
Relative density	2.06 g/cm³ (17.191 lbs/gal) Not determined.	
Vapor density [*] Evaporation rate	Not applicable. Not applicable.	
Solubility in / Miscibility with _Water at 20 °C (68 °F):		
Partition coefficient (n-octanol/water)	295.5 g/l): Not determined.	
Viscosity: dynamic:	Not applicable.	
kinematic: Other information	Not applicable. No further relevant information available.	
Chemical stability Stable under recom Thermal decomposition / conditions Possibility of hazardous reactions Nk Conditions to avoid No further relevar Incompatible materials: Water/moistu Hazardous decomposition products: Sulfur oxides (SOx) Lithium oxide	re	
11 Toxicological information Information on toxicological effects Acute toxicity: Harmful if swallowed.		
LD/LC50 values that are relevant for	classification:	
Oral LD50 1190 mg/kg (rat)		
Skin irritation or corrosion: Causes s Eye irritation or corrosion: Causes se Sensitization: No sensitizing effects kr	kin irritation. erious eye irritation. nown. nents refer to the <u>anhydrous compound:</u>	
The Registry of Toxic Effects of Chemic	nents refer to the anhydrous compound: cal Substances (RTECS) contains mutation data for this substance.	
Carcinogenicity: No classification data Reproductive toxicity: No effects know	a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Specific target organ system toxicity	 - repeated exposure: No effects known. - single exposure: May cause respiratory irritation. 	
Aspiration hazard: No effects known.		
Additional toxicological information:	cts known. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity Aquatic toxicity: No further relevant in Persistence and degradability No furt	formation available. ther relevant information available.	
Bioaccumulative potential No further Mobility in soil No further relevant info	relevant information available. rmation available.	
Additional ecological information: General notes: Avoid transfer into the Results of PBT and vPvB assessmer PBT: Not applicable.	at	
vPvB: Not applicable. Other adverse effects No further relev	ant information available.	
13 Disposal considerations		
Waste treatment methods	or notional regulations to ansure prepar discord	
Uncleaned packagings:	or national regulations to ensure proper disposal.	
Recommendation: Disposal must be n	nade according to official regulations.	USA USA

4 Transport information	
UN-Number	Net
DOT, ADN, IMDG, IATA	Not applicable
UN proper shipping name DOT, ADN, IMDG, IATA	Not applicable
Transport hazard class(es)	
DOT, ADR, ADN, IMDG, IATA Class	Not applicable
Packing group DOT, IMDG, IATA	Not applicable
Environmental hazards:	Not applicable.
Special precautions for user	Not applicable.
Transport in bulk according to Annex II of MARPOL73/76	8 and the IBC Code Not applicable.
Transport/Additional information: DOT	
Marine Pollutant (DOT):	No
UN "Model Regulation":	-
5 Regulatory information	
Safety, health and environmental regulations/legislation GHS label elements The product is classified and labeled in Hazard pictograms GHS07	n accordance with 29 CFR 1910 (OSHA HCS)
 P405 Store locked up. P501 Dispose of contents/container in accorda National regulations All components of this product are listed in the U.S. Environi All components of this product are listed on the Canadian Dispose SARA Section 313 (specific toxic chemical listings) Subscalifornia Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Information about limitation of use: For use only by techn Other regulations, limitations and prohibitive regulation. Substance of Very High Concern (SVHC) according to the conditions of restrictions according to Article 67 an market and use must be observed. Substance is not listed.
