

## Safety Data Sheet per OSHA HazCom 2012

Product name: 3,3-Dimethylbutyric acid	
	(Contd. of page 1)
Seek immediate medical advice. After skin contact	
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
Information for doctor Most important symptoms and effects, both acute and delayed	
Causes severe skin burns. Causes serious eye damage.	
Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures	
Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up:	
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent.	
Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation.	
Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections	
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handling Precautions for safe handling	
Keep container tightly sealed.	
Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Keep ignition sources away.	
Conditions for safe storage, including any incompatibilities	
Storage Requirements to be met by storerooms and receptacles: No special requirements.	
Information about storage in one common storage facility: Store away from strong bases.	
Store away from oxidizing agents. Further information about storage conditions:	
Keep container tightly sealed. Store in cool. drv conditions in well sealed containers.	
Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace:	
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data	
Exposure controls Personal protective equipment	
General protective and hygienic measures	
The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work.	
Do not inhale dust / smoke / mist	
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment	
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use:	

Breathing equipment: Use' suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with organic vapor/acid gas cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards such as NIOSH (USA) or CEN (EU). Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection: Tightly sealed goggles Full face protection: Body protection: Protective work clothing.

## Product name: 3,3-Dimethylbutyric acid

9 Physical and chemical properties		
Information on basic physical and ch	nemical properties	
General Information Appearance:		
Form:	Liquid	
Color: Odor:	Colorless to pale yellow	
Odor: Odor threshold:	Stench Not determined.	
pH-value:	Not determined.	
Change in condition		
Melting point/Melting range:	6 °C (43 °F) 185-190 °C (365-374 °F)	
Boiling point/Boiling range: Sublimation temperature / start:	Not determined	
Flash point:	88 °C (190 °F)	
Flammability (solid, gaseous)	Not determined.	
Ignition temperature: Decomposition temperature:	495 °C (923 °F) Not determined	
Auto igniting:	Not determined.	
Danger of explosion:	Not determined.	
Explosion limits: Lower:	Not determined	
Upper:	Not determined	
Vapor pressure: Density at 20 °C (68 °F):	Not determined 0.012 crom3 (7.611 lbc/col)	
Relative density	0.912 g/cm³ (7.611 lbs/gal) Not determined.	
Vapor density	Not determined.	
Evaporation rate Solubility in / Miscibility with	Not determined.	
Water at 20 °C (68 °F): Partition coefficient (n-octanol/water)	19 g/l	
Viscosity:	): Not determined.	
dynamic:	Not determined.	
kinematic: Other information	Not determined. No further relevant information available.	
10 Stability and reactivity		
Reactivity No information known.		
Chemical stability Stable under recom	mended storage conditions. <b>to be avoided:</b> Decomposition will not occur if used and stored according to specifications.	
Inermal decomposition / conditions Possibility of hazardous reactions R	to be avoided: Decomposition will not occur it used and stored according to specifications.	
Conditions to avoid No further relevar	ti information available.	
<b>Incompatible materials:</b> Bases		
Oxidizing agents		
Hazardous decomposition products:	Carbon monoxide and carbon dioxide	
11 Toxicological information		
Information on toxicological effects		
<b>Acute toxicity:</b> Swallowing will lead to	a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach.	
LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s	Classification: No data	
Eye irritation or corrosion: Causes se	erious eye damage.	
Sensitization: No sensitizing effects kr Germ cell mutagenicity: No effects kn	iown.	
Carcinogenicity: No classification data	a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive toxicity: No effects know	wn. • <b>- repeated exposure:</b> No effects known.	
Specific target organ system toxicity	- single exposure: No effects known.	
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect	nts known	
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
12 Ecological information Toxicity		
Aquatic toxicity: No further relevant in	formation available.	
Aquatic toxicity: No further relevant in Persistence and degradability No further Bioaccumulative potential No further	ther relevant information available.	
Mobility in soil No further relevant info	relevant information available. rmation available	
Additional ecological information:		
General notes: Do not allow undiluted product or large	quantities to reach around water water course or sewage system	
Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. <b>Results of PBT and vPvB assessment</b>		
<b>Results of PBT and vPvB assessmer</b> <b>PBT:</b> Not applicable.	nt	
vPvB: Not applicable.		
Other adverse effects No further relev	ant information available.	
13 Disposal considerations		
Waste treatment methods		

Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.
