

# Safety Data Sheet per OSHA HazCom 2012

	/iewed on 02/03/2009
1 Identification	
Product identifier	
Product name: <u>Benzene-d6 (Isotopic)</u>	
Stock number: 42265 CAS Number:	
1076-43-3 EC number: 214-061-8	
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Details of the supplier of the safety data sheet Manufacturer/Supplier:	
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.	
30 Bond Street Ward Hill, MA 01835-8099	
Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com	
Information Department: Health, Safety and Environmental Department	
Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 92	28-0780
	20-07.03.
2 Hazard(s) identification	
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	
GHS02 Flame	
Flam. Liq. 2 H225 Highly flammable liquid and vapor.	
GHS08 Health hazard	
Muta. 1A H340 May cause genetic defects. Carc. 1A H350 May cause cancer.	
STOT RE 1 H372 Causes damage to organs through prolonged or repeated exposure.	
Asp. Tox. 1 H304 May be fatal if swallowed and enters airways.	
GHS07	
Skin Irrit. 2 H315 Causes skin irritation.	
Eye Irrit. 2A H319 Causes serious eye irritation. Hazards not otherwise classified No information known.	
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms	
GHS02 GHS07 GHS08	
Signal word Danger	
Hazard statements H225 Highly flammable liquid and vapor.	
H315 Căuses skin irritation. H319 Causes serious eye irritation.	
H340 May cause genetic defects. H350 May cause cancer. H375 Couse domage to organs through prolonged or repeated expensive	
H372 Causes damage to organs through prolonged or repeated exposure. H304 May be fatal if swallowed and enters airways. <b>Precautionary statements</b>	
P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/	
P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rins	sing.
P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.	Ū
WHMIS classification B2 - Flammable liquid	
D2A - Very toxic material causing other toxic effects	
Classification system HMIS ratings (scale 0-4)	
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
HEALTH I Health (acute effects) = 3 FIRE Flammability = 3 FIRE Flammability = 4	
REACTIVITY Physical Házard = 1 Other hazards	
Results of PBT and vPvB assessment	

Results of PBT and vPvB assessment PBT: Not applicable.

Page 2/5 Printing date 11/23/2015 Reviewed on 02/03/2009

(Contd. of page 1)

### vPvB: Not applicable.

## 3 Composition/information on ingredients

Chemical characterization: Substances CAS# Description: 1076-43-3 Benzene-d6 (Isotopic) Identification number(s): EC number: 214-061-8

### 4 First-aid measures

Description of first aid measures

After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.

After skin contact

Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.

After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor

Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.

### 5 Fire-fighting measures

Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

#### 6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.

Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of contaminated material as waste according to section 13.

Provide the containing of the containing of section 13. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

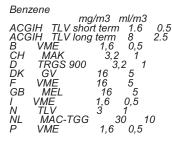

# 7 Handling and storage

Handling Precautions for safe handling **Precautions for sate handling** Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Open and handle container with care. **Information about protection against explosions and fires:** Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: Store in a cool location. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage in one common storage facility Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Control parameters Components with limit values that require monitoring at the workplace:

(Contd. on page 3)

# Product name: Benzene-d6 (Isotopic)

Product name: Benzene-db (Isotopic		
S NGV 1,5 0,5 SF HTP 16 USA PEL short term 3 1 ppm USA PEL long term 15 5 ppm Additional information: No data		(Contd. of page 2)
Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for ha Keep away from foodstuffs, beverages at Remove all soiled and contaminated clot Wash hands before breaks and at the en Store protective clothing separately. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate ww Breathing equipment: Use suitable resp Protection of hands: Impervious gloves Check protective gloves prior to each use The selection of suitable gloves not only Eye protection: Safety glasses Body protection: Protective work clothin	andling chemicals should be followed. nd feed. hing immediately. d of work. orking environment. orator when high concentrations are present. e for their proper condition. depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.	
9 Physical and chemical properties		
Color: Odor:	emical properties Liquid Colorless Aromatic Not determined.	
	Not determined.	
Change in condition Melting point/Melting range: Boiling point/Boiling range:	6.8 °C (44 °F) 79.1 °C (174 °F) Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature:	-11 °C (12 °F) Not determined. 562 °C (1044 °F) Not determined Not determined.	
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible. 1.3 Vol % 7.9 Vol % Not determined 0.95 g/cm <sup>3</sup> (7.928 lbs/gal) Not determined. Not determined. Not determined. Slightly soluble	
kinematic:	Not determined. Not determined. Not determined. No further relevant information available.	

# 10 Stability and reactivity

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide

# 11 Toxicological information

Information on toxicological effects

Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data

Skin irritation or corrosion: Causes skin irritation. Sensitization or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: May cause genetic defects.

Germ cell mutagenicity: May cause genetic detects. Carcinogenicity: May cause cancer. EPA-A: human carcinogen: sufficient evidence from epidemiologic studies to support a causal association between exposure and cancer. NTP-R: Reasonably anticipated to be a carcinogen: limited evidence from studies in humans or sufficient evidence from studies in experimental animals. IARC-2A: Probably carcinogenic to humans: limited human evidence; sufficient evidence in experimental animals ACGIH A2: Suspected human carcinogen: Agent is carcinogenic in experimental animals at dose levels, by route(s) of administration, at site(s), of histologic type(s), or by mechanism(s) considered relevant to worker exposure. Available epidemiologic studies are conflicting or insufficient to confirm an increased risk of cancer in exposed humans.

exposed numans. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: Causes damage to organs through prolonged or repeated exposure. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: May be fatal if swallowed and enters airways.

(Contd. on page 4)

# Product name: Benzene-d6 (Isotopic)

(Contd. of page 3) Subacute to chronic toxicity: Benzene has a strong irritating effect, producing erythema and burning. Edema and blistering is possible in more severe cases. Absorption through the skin may cause the same symptoms as inhalation or ingestion. These include gastrointestinal irritation, low blood pressure, headache, blurred vision, nausea, vomiting, dizziness, loss of balance and coordination, confusion, unconsciousness, coma, respiratory failure and death. Blood, liver and kidney damage is possible. Benzene Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. 12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow product to released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow product to reach ground water, water course or sewage system, even in small quantities. Danger to drinking water if even extremely small quantities leak into the ground. Avoid transfer into the environment. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available. 13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations. 14 Transport information IIN-Number DOT, IMDG, IATA UN1114 UN proper shipping name DOT RQ Benzene IMDG, IATA BENZENE Transport hazard class(es) DOT 3 Flammable liquids. Class Label Class (F1) Flammable liquids Label ÎMDG, IATA 2 Class 3 Flammable liquids. Label Packing group IMDG, IATA  $\prod$ Environmental hazards: Not applicable. Special precautions for user Poison inhalation hazard: Warning: Flammable liquids No Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable Transport/Additional information: DOT Hazardous substance 10 lbs, 4.54 kg Marine Pollutant (DOT). No UN "Model Regulation": UN1114, Benzene, 3, II 15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms

#### Precautionary statements

Precautionary statements P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/... P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

National regulations

National regulations All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory. All components of this product are listed on the Canadian Non-Domestic Substances List (NDSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed.

Information about limitation of use: Workers are not allowed to be exposed to this hazardous material. Exceptions can be made by the authorities in certain cases. For use only by technically qualified individuals. This product contains benzene and is subject to the reporting requirements of section 313 of the Emergency Planning and Community Right to Know Act of 1986 and 40CFR372.

Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the

market and use must be observed. Substance is not listed.

Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

# 16 Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
