

Safety Data Sheet per OSHA HazCom 2012

Product name: 4-Chloro-3-fluorobenzonitrile

After skin contact	and rinse thoroughly.	(Contd. of page 1)		
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye constact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.				
Information for doctor				
Indication of any immediate medical a	s, both acute and delayed No further relevant information available. ttention and special treatment needed No further relevant information available.			
5 Fire-fighting measures				
Extinguishing media Suitable extinguishing agents Carbon Special hazards arising from the subs If this product is involved in a fire, the foll Carbon monoxide and carbon dioxide Hydrogen chloride (HCI) Hydrogen gluoride (HF) Nitrogen oxides (NOx) Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. tance or mixture lowing can be released:			
6 Accidental release measures				
Personal precautions, protective equi Wear protective equipment. Keep unprot	pment and emergency procedures tected persons away.			
Ensure adequate ventilation Environmental precautions: Do not allo	Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up:			
Dispose of contaminated material as was Ensure adequate ventilation.	ste according to section 13.			
Prevention of secondary hazards: No Reference to other sections See Section 7 for information on safe ha				
See Section 7 for information on sale had See Section 8 for information on persona See Section 13 for disposal information.	al protection equipment.			
7 Handling and storage				
Conditions for safe storage, including Storage Requirements to be met by storeroom	explosions and fires: No information known. a any incompatibilities as and receptacles: No special requirements. mon storage facility: Store away from oxidizing agents. aditions:			
8 Exposure controls/personal prote				
Additional information about design o Properly operating chemical fume hood o Control parameters	designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.			
	uire monitoring at the workplace: Not required.			
Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present.				
Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses				
Body protection: Protective work clothin				
9 Physical and chemical properties Information on basic physical and che General Information Appearance: Form:				
Color: Odor:	White Characteristic			
Odor threshold:	Not determined.			
pH-value:	Not applicable.	(Contd. on page 3)		

(Contd. on page 3)

Ľ

Product name: 4-Chloro-3-fluorobenzonitrile

(Contd	of nade	2

Product name: 4-Chioro-3-fillorober				
		(Contd. of page 2)		
Change in condition Melting point/Melting range:	79-81 °C (174-178 °F)			
Boiling point/Boiling range:	Not determined			
Sublimation temperature / start: Flash point:	Not applicable			
Flammability (solid, gaseous)	Not determined.			
Ignition temperature: Decomposition temperature:	Not determined Not determined			
Auto igniting:	Not determined.			
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.			
Lower:	Not determined			
Upper: Vapor pressure:	Not determined Not applicable.			
Density: Relative density	Not determined Not determined.			
Vapor density	Not applicable.			
Evaporation rate Solubility in / Miscibility with	Not applicable.			
Water: Partition coefficient (n-octanol/water)	Insoluble): Not determined			
Viscosity:				
dynamic: kinematic:	Not applicable. Not applicable.			
Other information	No further relevant information available.			
10 Stability and reactivity				
Reactivity No information known.				
Chemical stability Stable under recom	mended storage conditions.			
Possibility of hazardous reactions No	to be avoided: Decomposition will not occur if used and stored according to specifications.			
Conditions to avoid No further relevan Incompatible materials: Oxidizing age	t information available.			
Hazardous decomposition products:				
Carbon monoxide and carbon dioxide Hydrogen chloride (HCl)				
Hydrogen fluoride Nitrogen oxides				
Hydrogen cyanide				
11 Toxicological information				
Information on toxicological effects				
Acute toxicity: Harmful if inhaled.				
Harmful if swallowed.				
Toxic in contact with skin. Danger through skin absorption.				
LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation.				
Eye irritation or corrosion: Causes serious eye irritation.				
Sensitization: No sensitizing effects kn Germ cell mutagenicity: No effects kn	own.			
Carcinogenicity: No classification data Reproductive toxicity: No effects know	on carcinogenic properties of this material is available from the EPA. IARC. NTP. OSHA or ACGIH.			
Specific target organ system toxicity	- repeated exposure: No effects known.			
Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known.				
Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.				
v				
12 Ecological information				
Toxicity Aquatic toxicity: No further relevant information available.				
Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available.				
Mobility in soil No further relevant infor	rmation available.			
Additional ecological information: General notes:				
Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system.				
Avoid transfer into the environment				
Results of PBT and vPvB assessment PBT: Not applicable.				
vPvB: Not applicable. Other adverse effects No further releva	ant information available.			
12 Dianagal considerations				
13 Disposal considerations				
Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal.				
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.
