

Safety Data Sheet per OSHA HazCom 2012

Product name: 2-Chloro-4-fluoro-5-nitrobenzoic acid

(Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) Nitrogen oxides (NOx) Hydrogen chloride (HCl) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses **Body protection:** Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Powder Color: White Not determined Odor: Odor threshold: Not determined pH-value: Not applicable. Change in condition Melting point/Melting range: 152-156 °C (306-313 °F) Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Not determined Not determined Not determined. Ignition temperature: Not determined

Product name: 2-Chloro-4-fluoro-5-nitrobenzoic acid

Page 3/4 Printing date 11/24/2015 Reviewed on 04/30/2013

	(Contd. of pag
Decomposition temperature:	Not determined
Auto igniting: Danger of explosion:	Not determined. Not determined.
Explosion limits:	
Lower: Upper:	Not determined Not determined
Vapor pressure:	Not determined Not determined
Density: Relative density	Not determined Not determined.
Vapor density	Not applicable.
Evaporation rate	Not applicable.
Solubility in / Miscibility with Water:	Not determined
Partition coefficient (n-octanol/wate	
Viscosity: dynamic:	Not applicable.
kinematic:	Not applicable.
Other information	No further relevant information available.
10 Stability and reactivity	
Reactivity No information known.	
Chemical stability Stable under reco	mmended storage conditions. s to be avoided: Decomposition will not occur if used and stored according to specifications.
Possibility of hazardous reactions	s to be avoided: Decomposition will not occur if used and stored according to specifications. Reacts with strong oxidizing agents
Conditions to avoid No further releva	ant information available.
Incompatible materials: Oxidizing ag Hazardous decomposition product	jents 5:
Carbon monoxide and carbon dioxide	
Hydrogen fluoride Nitrogen oxides	
Hydrogen chloride (HCl)	
11 Toxicological information	
•	
Information on toxicological effects Acute toxicity: No effects known.	
LD/LC50 values that are relevant fo	r classification: No data
Skin irritation or corrosion: Causes Eye irritation or corrosion: Causes	
Sensitization: No sensitizing effects I	known
Germ cell mutagenicity: No effects A	nown. trown. ta on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.
Reproductive toxicity: No effects kn	own.
Specific target organ system toxici	ty - repeated exposure: No effects known.
Aspiration hazard: No effects known	ty - single exposure: May cause respiratory irritation.
Subacute to chronic toxicity: No eff	ects known. n: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
¥	
12 Ecological information	
Toxicity	information queilable
Aquatic toxicity: No further relevant Persistence and degradability No fu	information available.
Bioaccumulative potential No furthe	er relevant information available.
Mobility in soil No further relevant in Additional ecological information:	formation available.
General notes:	
Do not allow material to be released to Do not allow undiluted product or large	o the environment without proper governmental permits. e quantities to reach ground water, water course or sewage system.
Avoid transfer into the environment	
Results of PBT and vPvB assessme PBT: Not applicable.	ent
vPvB: Not applicable.	
Other adverse effects No further rele	vant information available.
13 Disposal considerations	
Waste treatment methods	
Recommendation Consult state, loca	al or national regulations to ensure proper disposal.
Uncleaned packagings: Recommendation: Disposal must be	made according to official regulations.
14 Transport information	
UN-Number DOT, ADN, IMDG, IATA	Not applicable
UN proper shipping name DOT, ADN, IMDG, IATA	Not applicable
Transport hazard class(es)	
DOT, ADR, ADN, IMDG, IATA	
Class	Not applicable
Packing group DOT, IMDG, IATA	Not applicable
Environmental hazards:	Not applicable.
Special precautions for user	Not applicable.
· · ·	ex II of MARPOL73/78 and the IBC Code Not applicable.
mansport in bulk according to Alli
