		(Contd. of page 1)
Information for doctor Most important symptoms and effect	ts, both acute and delayed No further relevant information available.	
Indication of any immediate medical	attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures		
Extinguishing media		
Suitable extinguishing agents Carbon Special bazards arising from the sub	n dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.	
If this product is involved in a fire, the fo	ollowing can be released:	
Carbon monoxide and carbon dioxide Nitrogen oxides (NOx)		
Boron oxide Hydrogen chloride (HCl)		
Hydrogen chloride (HCl) Possibly Hydrogen cyanide (HCN) Advice for firefighters		
Protective equipment: Wear self-contained respirator.		
Wear fully protective impervious suit.		
6 Accidental release measures		
	uipment and emergency procedures	
Personal precautions, protective eque Wear protective equipment. Keep unpre Ensure adequate ventilation	otected persons away.	
Environmental precautions: Do not a	llow material to be released to the environment without proper governmental permits.	
Prevention of secondary hazards: No	nt and cleaning up: Ensure adequate ventilation.	
Reference to other sections See Section 7 for information on safe h	nandling	
See Section 8 for information on person See Section 13 for disposal information	nal protection equipment.	
	"	
7 Handling and storage		
Handling Precautions for safe handling		
Keep container tightly sealed. Store in cool, dry place in tightly closed	l containers.	
Ensure good ventilation at the workplace	ce. t explosions and fires: No information known.	
Conditions for safe storage, includin		
Storage		
Information about storage in one cor	ms and receptacles: No special requirements. mmon storage facility: Store away from oxidizing agents.	
Further information about storage concept to the second storage container tightly sealed.		
Store in cool, dry conditions in well sea Specific end use(s) No further relevant	nled containers. nt information available.	
8 Exposure controls/personal prot Additional information about design		
Properly operating chemical fume hood	d designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that re	equire monitoring at the workplace: Not required.	
Additional information: No data		
Exposure controls Personal protective equipment		
Personal protective equipment General protective and hygienic mea	asures	
The usual precautionary measures for Keep away from foodstuffs, beverages Remove all soiled and contaminated cl Web bonde before before before and of the	and feed.	
Wash hands before breaks and at the e	othing immediately. end of work.	
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate	end or work. working environment. spirator when high concentrations are present.	
Breathing equipment: Use suitable re	spirator when high concentrations are present.	
Impervious dioves		
The selection of suitable gloves not onl	ise for their proper condition. ly depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. n minutes) Not determined	
Penetration time of glove material (ir Eve protection: Safety glasses	n minutes) Not determined	
Eye protection: Safety glasses Body protection: Protective work cloth	hing.
