

Safety Data Sheet per OSHA HazCom 2012

Safety Data Sheet per OSHA HazCom 2012

Product name: 2-Fluoro-5-methoxybenzonitrile

•		
After swallowing Seek medical treatment. Information for doctor	thoroughly. ninutes under running water. Then consult a doctor. cute and delayed No further relevant information available. and special treatment needed No further relevant information available.	(Contd. of page 1)
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, e Special hazards arising from the substance or If this product is involved in a fire, the following ca Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen fluoride (HF) Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. mixture n be released:	
6 Accidental release measures Personal precautions, protective equipment ar Wear protective equipment. Keep unprotected per Ensure adequate ventilation Environmental precautions: Do not allow materi Methods and material for containment and clea Dispose of contaminated material as waste accord Ensure adequate ventilation. Prevention of secondary hazards: No special ma Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection See Section 13 for disposal information.	ial to be released to the environment without proper governmental permits. aning up: ding to section 13. neasures required.	
7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers Ensure good ventilation at the workplace. Information about protection against explosion Conditions for safe storage, including any inco Storage Requirements to be met by storerooms and re Information about storage in one common stor Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed contain Specific end use(s) No further relevant information	ompatibilities ceptacles: No special requirements. rage facility: Store away from oxidizing agents.	
8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the environment. Breathing equipment: Use suitable respirator when high concentrations are present. Impervious gloves Check protective goves prior to each use for their proper condition. The estection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Personal (in minutes) Not determined Experiment: Drotective work clothing.		
Color: White Odor: Characte	ne powder eristic	
Odor threshold: Not dete	rmined.	
pH-value: Not appl		(Contd. on page 3)

Product name: 2-Fluoro-5-methoxybenzonitrile

(Contd. of page 2

		(Contd. of page 2)	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	81-85 °C (178-185 °F) Not determined Not determined Not determined Not determined Not determined Not determined.		
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.		
Explosion limits: Lower: Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water)	Not determined Not determined Not applicable. Not determined Not determined. Not applicable. Not applicable. Insoluble : Not determined.		
Viscosity: dynamic:	Not applicable.		
kinematic: Other information	Not applicable. No further relevant information available.		
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen fluoride Hydrogen cyanide			
11 Toxicological information Information on toxicological effects Acute toxicity: Harmful if inhaled. Harmful if swallowed. Toxic in contact with skin. Danger through skin absorption. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Germ cell mutagenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ is tho control to xicity - to effect known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.			
12 Ecological information			
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.			
13 Disposal considerations			
Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.			
14 Transport information			
UN-Number DOT, IMDG, IATA	UN3439		
UN proper shipping name DOT	Nitriles, solid, toxic, n.o.s. (2-Fluoro-5-methoxybenzonitrile) NITRILES, SOLID, TOXIC, N.O.S. (2-Fluoro-5-methoxybenzonitri	<i>i</i> (a)	
IMDG, IATA	INTRIES, SOLID, TOXIC, N.O.S. (2-FIU010-3-MethOxyDeriZohith	(Contd. on page 4)
