| 1 | 1 Identification | |
| | Product identifier | |
| | Product name: 2-Chloro-4-methylpyrimidine | |
| | Stock number: H31903 CAS Number: | |
| | 13036-57-2 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development | |
| | | |
| | Details of the supplier of the safety data sheet Manufacturer/Supplier: | |
| | Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street | |
| | 30 Bond Street Ward Hill, MA 01835-8099 | |
| | Tel: 800-343-0660 Fax: 800-322-4757 | |
| | Email: tech@alfa.com www.alfa.com | |
| | Information Department: Health, Safety and Environmental Department Emergency telephone number: | |
| | During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789. | |
| 2 | 2 Hazard(s) identification | |
| | Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) | |
| | GHS07 | |
| | Acute Tox. 4 H302 Harmful if swallowed. | |
| | Skin Irrit. 2 H315 Causes skin irritation. | |
| | Eye Irrit. 2A H319 Causes serious eye irritation. Skin Sens. 1 H317 May cause an allergic skin reaction. | |
| | STOT SE 3 H335 May cause respiratory irritation. Hazards not otherwise classified No information known. | |
| | Label elements | |
| | GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms | |
| | | |
| | GHS07 | |
| | Signal word Warning | |
| | Hazard statements H302 Harmful if swallowed. | |
| | H315 Causes skin irritation. | |
| | H319 Causes serious eye irritation. H317 May cause an allergic skin reaction. | |
| | H317 May cause an allergic skin reaction. H335 May cause respiratory irritation. Precautionary statements | |
| | P280 Wear protective gloves / protective clothing. P262 Do not get in eyes, on skin, or on clothing. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. | |
| | WHMIS classification | |
| | D1B - Toxic material causing immediate and serious toxic effects D2B - Toxic material causing other toxic effects | |
| | | |
| | | |
| | Classification system | |
| | HMIS ratings (scale 0-4) (Hazardous Materials Identification System) | |
| | HEALTH Image: Present and the state of the stateo | |
| | REACTIVITY Physical Hazard = 1 | |
| | Other hazards Results of PBT and vPvB assessment | |
| | PBT: Not applicable. | |
| | | |
| | 3 Composition/information on ingredients Chemical characterization: Substances | |
| | CAS# Description: 13036-57-2 2-Chloro-4-methylpyrimidine | |
| | | = |
| 4 | 4 First-aid measures Description of first aid measures | |
| | After inhalation | |
| | Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. | |
| | After skin contact Immediately wash with water and soap and rinse thoroughly. | |
| | Seek immédiate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. | |

| After swellowing SeeL models in the set of t | roduct name: 2-Ghioro-4-methylpyrimdine | | | | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|--------------------|--|--|--|--|
| Evinguichting media Suitable exignation program Cultor thores, exignation powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Fight product is moving on a lime, the following can be measaed: Another for finguithers Program Provide Program P | Information for doctor Most important symptoms and effects, | , both acute and delayed No further relevant information available. | (Contd. of page 1) | | | | |
| Presention of precautions, protective equipment and energency procedures Wear protections, protective equipment, they matricate the released to the environment without proper governmental permits. Methods and material for consimmer and chaning up: Depose of contaminated material serves are downed. Methods and material for consimmer and chaning up: Depose of contaminated material serves are downed. Reference to other sections See Section 13 for disposal information. 7 Handling and storage Prevention of the information or goals information. 7 Handling and storage Prevention of the information or goals information. 7 Handling and storage Methods and the information about protection against explosions and fires: No information known. Conditions for sale storage, including any incompatibilities Storage on out storage in one common storage facility: Stora way from oxidizing agents. Further information about storage to notaminers. Storage on out of the storage on adminers. Storage on out of the storage on adminers. Storage on out of the storage on adminers. Storage on out of the storage on a common storage facility: Storage on adminers. Methods and the storage on adminers. Storage on the inity way for adminers. Storage o | Extinguishing media Suitable extinguishing agents Carbon of Special hazards arising from the subsit If this product is involved in a fire, the foll Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI) Possibly Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear self-contained respirator. | tance or mixture | | | | | |
| Handling Precautions for safe handling Keep container tightly seeled. Strong for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles. No special requirements. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles. No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Information about storage in one common storage facility: Store away from oxidizing agents. Information about design of technical systems: Reporting there relevant information about design of technical systems: Additional information bout design of technical systems: Properly oparating demines: Specific and useq) No future relevant information values. 8 Exposure controls/personal protection Additional information: No data Exposure controls protective equipment General protective and hygion measures The usual protective and hygion measures The usual protective and hygion of work. Additional information: No data Exposure controls Personal protective and hygion ensures General protective and hygion ensures of handing chemicals should be followed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end ow with Additional information: No data Breaktion of shittable glowes not only depends to the meterial build but also on quality. Quality will vary from manufacturer to manufacturer. Protection of shittable glowes not only depends to the meterial but also on quality. Quality will vary from manufacturer to manufacturer. Protection of battable glowes not only depends to the meterial but also on quality. Quality will vary from manufacturer to manufacturer. Protection: Stoled to: Protective equipment: Breakting on basic physical and chemical properties Hommation on basic physical and chemical properties Body protective w | Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. | | | | | | |
| Additional information about design of technical systems: Properly operating chemical furme hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal information: No data Renove all protective equipment General protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Wash hands before breaks and at the end of work. Avoid contarninated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Protection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties General Information Appearance: Form: Color: Cream Odor: Not determined Color: Meiting point/Meiting range: Sublim point/Meiting range: Sublim point/Meiting range: Sublim point/Meiting range: Sublim point/Meiting range: Not determined | Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. | | | | | | |
| Information on basic physical and chemical properties General Information Appearance: Form: Solid Color: Cream Odor: Not determined Odor threshold: Not determined. pH-value: Not applicable. Change in condition Kot applicable. Melting point/Melting range: Not determined Sublimation temperature / start: Not determined | 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.
