

Safety Data Sheet per OSHA HazCom 2012

Information for doctor

Product name: 2,4-Dichloropyridine-3-carboxaldehyde

(Contd. of page 1)

Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide

Nitrogen oxides (NOx) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.

Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections

See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from air. Store away from oxidizing agents. Further information about storage conditions: Store under dry inert gas. This product is air sensitive. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Exposure controls

Personal protective equipment

The usual protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands:

Impervious gloves

The periods gloves of the prior to each use for their proper condition. Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration_time_of_glove material (in minutes)** Not determined

Eye protection: Safety glasses Body protection: Protective work clothing.

9 Physical and chemical properties

| o r nysioar and onemioar properties | | |
|---|--|--|
| Information on basic physical and c General Information Appearance: Form: Color: Odor: Odor: Odor threshold: | hemical properties Solid Yellow to pale brown Not determined Not determined. | |
| pH-value: | Not applicable. | |
| Change in condition Melting point/Melting range: Boiling point/Boiling range: | 72-75 °C (162-167 °F) Not determined | |

Product name: 2,4-Dichloropyridine-3-carboxaldehyde

| Product name: 2,4-Dichloropyridine | e-3-carboxaldehyde | | | |
|---|--|--------------------|--|--|
| | | (Contd. of page 2 | | |
| Sublimation temperature / start: | Not determined | | | |
| Flammability (solid, gaseous) Ignition temperature: | Not determined. Not determined | | | |
| Decomposition temperature: | Not determined | | | |
| Auto igniting: | Not determined. | | | |
| Danger of explosion: Explosion limits: | Not determined. | | | |
| Lower: | Not determined | | | |
| Upper: Vapor pressure: | Not determined Not applicable. | | | |
| Densitv: | Not determined | | | |
| Relative density Vapor density | Not determined. Not applicable. | | | |
| Evaporation rate | Not applicable. | | | |

| kinematic: | Not applicable. | | | |
| Other information | No further relevant information available. | | | |
| 10 Stability and reactivity | | | | |
| Reactivity No information known. | | | | |
| Chemical stability Stable under recom | nmended storage conditions. | | | |
| Thermal decomposition / conditions Possibility of hazardous reactions R | to be avoided: Decomposition will not occur if used and stored according to specifications. | | | |
| Conditions to avoid No further relevant | nt information available. | | | |
| Incompatible materials: Air | | | | |
| Oxidizina agents | | | | |
| Hazardous decomposition products: Carbon monoxide and carbon dioxide | | | | |
| Nitrogen oxides | | | | |
| Hydrogen chloride (HCl) | | | | |
| 11 Toxicological information | | | | |
| Information on toxicological effects | | | | |
| Acute toxicity: No effects known. | | | | |
| LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s | | | | |
| Eye irritation or corrosion: Causes se | erious eye irritation. | | | |
| Sensitization: No sensitizing effects known. | | | | |
| Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. | | | | |
| Reproductive toxicity: No effects known. | | | | |
| Specific target organ system toxicity | Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. | | | |
| Aspiration hazard: No effects known. | | | | |
| | To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. | | | |
| 12 Ecological information | | | | |
| 12 Ecological information | | | | |
| Toxicity Aquatic toxicity: No further relevant in | formation available. | | | |
| Persistence and degradability No fur | ther relevant information available | | | |
| Bioaccumulative potential No further Mobility in soil No further relevant info | relevant information available. prmation available. | | | |
| Additional ecological information: | | | | |
| Do not allow material to be released to | General notes: Do not allow material to be released to the environment without proper governmental permits. | | | |
| Do not allow undiluted product or large | quantities to reach ground water, water course or sewage system. | | | |
| Results of PRT and vPvR assessme | Avoid transfer into the environment. Results of PBT and vPvB assessment | | | |
| PBT: Not applicable. | PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available. | | | |
| VFVB: Not applicable. Other adverse effects No further relev | vant information available. | | | |
| | | | | |
