

## Safety Data Sheet per OSHA HazCom 2012

## Safety Data Sheet per OSHA HazCom 2012

# Product name: Hydroxylamine nitrate, 24% aqueous solution

Product name: Hydroxylamine nitrate, 24% aqueous solution	
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Methemoglobinemia Causes severe skin burns. Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available.	(Contd. of page 1)
<ul> <li>5 Fire-fighting measures</li> <li>Extinguishing media</li> <li>Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.</li> <li>For safety reasons unsuitable extinguishing agents Halocarbon extinguisher</li> <li>Special hazards arising from the substance or mixture</li> <li>This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition.</li> <li>If this product is involved in a fire, the following can be released:</li> <li>Nitrogen oxides (NOx)</li> <li>Advice for firefighters</li> <li>Protective equipment:</li> <li>Wear self-contained respirator.</li> <li>Wear fully protective impervious suit.</li> </ul>	
<ul> <li>6 Accidental release measures</li> <li>Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation</li> <li>Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Use neutralizing agent.</li> <li>Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation.</li> <li>Absorb with liquid-binding material.</li> <li>Prevention of secondary hazards: Acts as an oxidizing agent on organic materials such as wood, paper and fats Keep away from combustible material.</li> <li>Reference to other sections</li> <li>See Section 7 for information on personal protection equipment. See Section 13 for disposal information.</li> </ul>	
7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Substance/product can reduce the ignition temperature of flammable substances. This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from flammable substances. Store away from flammable substances. Store away from flammable substances. Store away from metals to give hydrogen, often violently. Water is also incompatible with many reactive organic and inorganic chemicals. Do not store with organic materials. Store away from metal powders. Further information about storage conditions: Keep container tightly sealed. Store en could, dry conditions in well sealed containers. Store and we for y conditions in well sealed containers. Store and we for metal y storeage conditions: Store and we for metal powders. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
<ul> <li>8 Exposure controls/personal protection</li> <li>Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition.</li> </ul>	

The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.

## Product name: Hydroxylamine nitrate, 24% aqueous solution

(Contd. of page 2)

Eye protection:
Tightly sealed goggles Full face protection
Body protection: Protective work clothing.

9 Physical and chemical properties		
Information on basic physical and c General Information Appearance:		
Form:	Liquid	
Color:	Colorless	
Odor: Odor threshold:	Not determined Not determined.	
	Not determined.	
pH-value:	Not determined.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined Not determined Not determined	
Flash point:	Not applicable	
Elemmobility (colid gooogue)	Not détermined Not determined	
Flammability (solid, gaseous) Ignition temperature:	Not determined	
Decomposition temperature:	Not determined	
Auto igniting:	Not determined.	
Danger of explosion:	Not determined.	
Explosion limits: Lower:	Not determined	
	Not determined Not determined	
Upper: Vapor pressure:	Not determined	
Density:	Not determined	
Relative density	Not determined.	
Vapor density	Not determined.	
Evaporation rate	Not determined.	
Solubility in / Miscibility with		
Water:	Fully miscible	
Partition coefficient (n-octanol/wate	r): Not determined.	
Viscosity:		
dynamic:	Not determined.	
kinematic:	Not determined.	
Other information	No further relevant information available.	
10 Stability and reactivity		
Reactivity May intensify fire; oxidizer.	Reactivity may intensity fire; Oxiolizer.	

Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. **Possibility of hazardous reactions** Water reacts violently with alkali metals. Reacts with alkaline earth metals. Water reacts with many metals to give hydrogen, often violently. Water is also incompatible with many reactive organic and inorganic chemicals. Reacts with reducing agents Reacts with flammable substances **Conditions to avoid** No further relevant information available. Incompatible materials: Bases Oxidizing agents Chlorine Flammable substances Reducing agents Organic materials Metal powders Hazardous decomposition products: Nitrogen oxides (NOx) 11 Toxicological information Information on toxicological effects Acute toxicity: Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach. LD/LC50 values that are relevant for classification: No data LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes serious eye damage. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Subacute to chronic toxicity: Subacute to chronic toxicity:

Absorption into the body may lead to the formation of methemoglobin, producing cyanosis, and marked fall in blood pressure leading to collapse, coma and possibly death. Onset may be delayed 2-4 hours or longer. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

12 Ecological information

Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available.

Safety Data She	et
per OSHA HazCom 20	)12

	Reviewed on 02/08/200
roduct name: Hydroxylamine nitrate, 24% aqueous soluti	ion
Additional ecological information:	(Contd. of page
General notes: Do not allow material to be released to the environment without proper Do not allow undiluted product or large quantities to reach ground water Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.	r governmental permits. er, water course or sewage system.
Other adverse effects No further relevant information available.	
3 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensul Uncleaned packagings: Recommendation: Disposal must be made according to official regul Recommended cleansing agent: Water, if necessary with cleansing	lations.
4 Transport information	
UN-Number IMDG, IATA	UN3264
UN proper shipping name IMDG, IATA	CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S. (hydroxylamine nitrate solution)
Transport hazard class(es) Class Label IMDG, IATA	8 (C1) Corrosive substances 8
Class Label	8 Corrosive substances. 8
Packing group IMDG, IATA	-
Environmental hazards:	Not applicable.
Special precautions for user Segregation groups	Warning: Corrosive substances Acids
Transport in bulk according to Annex II of MARPOL73/78 and the	
Transport/Additional information:	
DOT Marine Pollutant (DOT):	No
UN "Model Regulation":	UN3264, Corrosive liquid, acidic, inorganic, n.o.s. (hydroxylamine nitrate solution), 8. III
5 Regulatory information Safety, health and environmental regulations/legislation specific is GHS label elements The product is classified and labeled in accordan Hazard pictograms GHS03 GHS05 Signal word Danger	<i>for the substance or mixture</i> nce with 29 CFR 1910 (OSHA HCS)
Hazard statements         H272 May intensify fire; oxidizer.         H314 Causes severe skin burns and eye damage.         Precautionary statements         P221       Take any precaution to avoid mixing with combusti         P303+P361+P353 If on skin (or hair): Take off immediately all contam         P305+P351+P338 IF IN EYES: Rinse cautiously with water for severa         P405         Store locked up.         P501       Dispose of contents/container in accordance with le         National regulations         All components of this product are listed in the U.S. Environmental Pro         All components of this product are listed on the Canadian Non-Domes         SARA Section 313 (specific toxic chemical listings) Substance is r         California Proposition 65         Prop 65 - Developmental toxicity Substance is not listed.         Prop 65 - Developmental toxicity, female Substance is not listed.         Prop 65 - Developmental toxicity male Substance is not listed.	aces. No smoking. inated clothing. Rinse skin with water/shower. al minutes. Remove contact lenses, if present and easy to do. Continue rinsing. ocal/regional/national/international regulations. otection Agency Toxic Substances Control Act Chemical substance Inventory. stic Substances List (NDSL). not listed.
