

Safety Data Sheet per OSHA HazCom 2012

Product name: 3,4,5-Trifluorobenzeneboronic acid

## (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) Boron oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Solid Color: White Odor: Not determined Odor threshold: Not determined pH-value: Not applicable. Change in condition 275-279 °C (527-534 °F) Not determined Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Not determined Flash point: Not applicable Flammability (solid, gaseous) Not determined Ignition temperature: Decomposition temperature: Not determined Not determined (Contd. on page 3)

## 2 A 5-Trifly h oho onic bioe

Page 3/4 Printing date 11/24/2015 Reviewed on 07/08/2009

Product name: 3,4,5-Trifluorobenzeneboronic acid		
	(Contd. of page 2)	
Auto igniting: Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water, Viscosity: dynamic: kinematic: Other information	Not determined. Product does not present an explosion hazard. Not determined Not determined Not applicable. Not determined. Not applicable. Insoluble Not determined. Not applicable. Not determined. Not applicable. Not determined. Not applicable. Not determined. Not applicable.	
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Hydrogen fluoride Boron oxide		
11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/L C50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: EPA-I: Data are inadequate for an assessment of human carcinogenic potential. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Subacute to chronic toxicity: Boron affects the central nervous system. Boron poisoning causes depression of the circulation, persistant vomiting and diarrhea, followed by profound shock and coma. The temperature may become subnormal and a scarletina form rash may cover the entire body. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.		
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.		
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.		
14 Transport information Not a hazardous material for transporta UN-Number	on.	
DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA	None	
Transport hazard class(es) DOT, ADR, IMDG, IATA		
Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards: Special precautions for user	Not applicable. Not applicable.	
	INOT AppliCable. (Contd. on page 4)	

(Contd. on page 4)

Product name: 3,4,5-Trifluorobenzeneboronic acid		
	(Contd. of page 3	
Transport in bulk according to Annex II of MARPOL73,		
Transport/Additional information:	Not dangerous according to the above specifications.	
DOT Marine Pollutant (DOT):	No	
5 Regulatory information		
Safety, health and environmental regulations/legislatio GHS label elements The product is classified and labeled Hazard pictograms	on specific for the substance or mixture d in accordance with 29 CFR 1910 (OSHA HCS)	
$\Diamond$		
GHS07		
Signal word Warning Hazard statements		
H315 Causes skin irritation. H319 Causes serious eye irritation.		
H335 May cause respiratory irritation.		
Precautionary statements P261 Avoid breathing dust/fume/gas/mist/vaj	pours/spray.	
P280 Wear protective gloves/protective cloth P305+P351+P338 IF IN EYES: Rinse cautiously with wate	hing/eye protection/face protection. er for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.	
P304+P340 IF INHALED: Remove person to fresh	air and keep comfortable for breathing.	
P501 Dispose of contents/container in accord	rdance with local/regional/national/international regulations.	
National regulations This product is not listed in the U.S. Environmental Protect	ction Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricte	
to research and development only. This product must be u	used by or directly under the supervision of a technically qualified individual as defined by TSCA. This	
product must not be used for commercial purposes or in fo SARA Section 313 (specific toxic chemical listings) Su	ubstance is not listed.	
California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance	e is not listed.	
Prop 65 - Developmental toxicity Substance is not listed	d.	
Prop 65 - Developmental toxicity, female Substance is I Prop 65 - Developmental toxicity, male Substance is no	ot listed.	
Information about limitation of use: For use only by tech Other regulations, limitations and prohibitive regulation	chnically qualified individuals.	
Substance of Very High Concern (SVHC) according to	the REACH Regulations (EC) No. 1907/2006. Substance is not listed.	
market and use must be observed.	and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the	
Substance is not listed. Annex XIV of the REACH Regulations (requiring Author	orisation for use) Substance is not listed	
Chemical safety assessment: A Chemical Safety Assess	sment has not been carried out.	
16 Other information		
Employers should use this information only as a supplement	ent to other information gathered by them, and should make independent judgement of suitability of this	
conformance with this Material Safety Data Sheet, or in co	nd safety of employees. This information is furnished without warranty, and any use of the product not in ombination with any other product or process, is the responsibility of the user.
