

Safety Data Sheet per OSHA HazCom 2012

## Product name: 2-[N,N-Bis(trifluoromethyIsulfonyI)amino]-5-chloropyridine

| Information for doctor  | (Contd. of page 1)        |
|---|---------------------------|
| Most important symptoms and effects, both acute and delayed No further relevant information available.<br>Indication of any immediate medical attention and special treatment needed No further relevant information available.   |                           |
| 5 Fire-fighting measures  |                           |
| Extinguishing media<br>Extinguishing media<br>Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.<br>Special hazards arising from the substance or mixture<br>If this product is involved in a fire, the following can be released: |                           |
| If this product is involved in a fire, the following can be released:<br>Carbon monoxide and carbon dioxide<br>Hydrogen fluoride (HF)<br>Nitrogen oxides (NOx)  |                           |
| Sulfur oxides (SOx)<br>Advice for firefighters<br>Protective equipment:   |                           |
| Wear self-contained respirator.<br>Wear fully protective impervious suit.   |                           |
| 6 Accidental release measures   |                           |
| Personal precautions, protective equipment and emergency procedures<br>Wear protective equipment. Keep unprotected persons away.<br>Ensure adequate ventilation   |                           |
| Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.<br>Methods and material for containment and cleaning up: Ensure adequate ventilation.<br>Prevention of secondary hazards: No special measures required.<br>Reference to other sections                    |                           |
| See Section 7 for information on safe handling<br>See Section 8 for information on personal protection equipment.<br>See Section 13 for disposal information.   |                           |
| 7 Handling and storage  |                           |
| Handling<br>Precautions for safe handling<br>Handle under dry protective gas.   |                           |
| Keep container tightly sealed.<br>Store in cool, dry place in tightly closed containers.<br>Ensure good ventilation at the workplace.   |                           |
| Information about protection against explosions and fires: No information known.<br>Conditions for safe storage, including any incompatibilities  |                           |
| Storage<br>Requirements to be met by storerooms and receptacles: No special requirements.<br>Information about storage in one common storage facility:  |                           |
| Store away from oxidizing agents.<br>Store away from water/moisture.  |                           |
| Further information about storage conditions:<br>Store under dry inert gas.   |                           |
| This product is moisture sensitive.<br>Keep container tightly sealed.<br>Store in cool, dry conditions in well sealed containers.<br>Protect from humidity and water.   |                           |
| Protect from humidity and water. Specific end use(s) No further relevant information available.   |                           |
| 8 Exposure controls/personal protection   |                           |
| Additional information about design of technical systems:<br>Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.  |                           |
| Control parameters<br>Components with limit values that require monitoring at the workplace: Not required.<br>Additional information: No data   |                           |
| Exposure controls<br>Personal protective equipment  |                           |
| General protective and hygienic measures<br>The usual precautionary measures for handling chemicals should be followed.<br>Keep away from foodstuffs, beverages and feed.   |                           |
| Remove all soiled and contaminated clothing immediately.<br>Wash hands before breaks and at the end of work.<br>Avoid contact with the eyes and skin.   |                           |
| Maintain an ergonomically appropriate working environment.<br>Breathing equipment: Use suitable respirator when high concentrations are present.<br>Protection of hands:  |                           |
| Impervious gloves<br>Check protective gloves prior to each use for their proper condition.<br>The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.  |                           |
| Penetration of suitable gloves not only depends on the material, but also on quality. Quality will vary norm manufacture to manufacture .<br>Penetration time of glove material (in minutes) Not determined<br>Eye protection: Safety glasses<br>Body protection: Protective work clothing.                                       |                           |
| 9 Physical and chemical properties  |                           |
| Information on basic physical and chemical properties<br>General Information  |                           |
| Appearance:<br>Form: Powder<br>Comment Multitude  |                           |
| Color: White<br>Odor: Not determined  |                           |
| Odor threshold:         Not determined.           pH-value:         Not applicable.   |                           |
| Change in condition   |                           |
| Melting point/Melting range: 45-47 °C (113-117 °F)  | (Contd on some 2)         |
|   | (Contd. on page 3)<br>USA |

### Product name: 2-[N,N-Bis(trifluoromethyIsulfonyI)amino]-5-chloropyridine

|  | euryisunonynjammoj-s-cinolopyname   |                    |  |
|--|---|--------------------|--|
| Boiling point/Boiling range:   | Not determined  | (Contd. of page 2) |  |
| Sublimation temperature / start:   | Not determined  |                    |  |
| Flash point:<br>Flammability (solid, gaseous)  | Not applicable<br>Not determined.   |                    |  |
| Ignition temperature:<br>Decomposition temperature:  | Not determined  |                    |  |
| Auto igniting:   | Not determined<br>Not determined.   |                    |  |
| Danger of explosion:   | Product does not present an explosion hazard.   |                    |  |
| Explosion limits:<br>Lower:  | Not determined  |                    |  |
| Upper:<br>Vapor pressure:  | Not determined<br>Not applicable.   |                    |  |
| Density:   | Not determined  |                    |  |
| Relative density<br>Vapor density  | Not determined.<br>Not applicable.  |                    |  |
| Evaporation rate<br>Solubility in / Miscibility with   | Not applicable.   |                    |  |
| Water:   | Reacts  |                    |  |
| Partition coefficient (n-octanol/water):<br>Viscosity:   |   |                    |  |
| dynamic:<br>kinematic:   | Not applicable.<br>Not applicable.  |                    |  |
| Other information  | No further relevant information available.  |                    |  |
| 10 Stability and reactivity  |   |                    |  |
| 10 Stability and reactivity<br>Reactivity No information known.  |   |                    |  |
| Chemical stability Stable under recomm   | nended storage conditions.<br><b>o be avoided:</b> Decomposition will not occur if used and stored according to specifications. |                    |  |
| Possibility of hazardous reactions No  | dangerous reactions known   |                    |  |
| Conditions to avoid No further relevant<br>Incompatible materials:   | information available.  |                    |  |
| Oxidizing agents<br>Water/moisture   |   |                    |  |
| Hazardous decomposition products:  |   |                    |  |
| Carbon monoxide and carbon dioxide<br>Hydrogen fluoride  |   |                    |  |
| Nitrogen oxides<br>Sulfur oxides (SOx)   |   |                    |  |
|  |   |                    |  |
| 11 Toxicological information   |   |                    |  |
| Information on toxicological effects<br>Acute toxicity: No effects known.  |   |                    |  |
| LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation.   |   |                    |  |
| Eve irritation or corrosion: Causes ser  | ious eve irritation.  |                    |  |
| Sensitization: No sensitizing effects kno<br>Germ cell mutagenicity: No effects kno  | wn.<br>wn.  |                    |  |
| Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.<br>Reproductive toxicity: No effects known. |   |                    |  |
| Specific target organ system toxicity - repeated exposure: No effects known.<br>Specific target organ system toxicity - single exposure: May cause respiratory irritation.           |   |                    |  |
| Aspiration hazard: No effects known.   |   |                    |  |
| Subacute to chronic toxicity: No effect<br>Additional toxicological information:   | is known.<br>To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.                  |                    |  |
| 12 Ecological information  |   |                    |  |
| Toxicity   |   |                    |  |
| Aquatic toxicity: No further relevant info   | prmation available.   |                    |  |
| Persistence and degradability No further re<br>Bioaccumulative potential No further re<br>Mobility in soil No further relevant infor   | elevant information available.  |                    |  |
| Mobility in soil No further relevant inform<br>Additional ecological information:  | mation available.   |                    |  |
| General notes:   | he any irranment without proper governmental permits  |                    |  |
| Do not allow undiluted product or large q  | he environment without proper governmental permits.<br>Juantities to reach ground water, water course or sewage system.         |                    |  |
| Avoid transfer into the environment.<br>Results of PBT and vPvB assessment   |   |                    |  |
| PBT: Not applicable.<br>vPvB: Not applicable.  |   |                    |  |
| Other adverse effects No further releva  | nt information available.   |                    |  |
| 13 Disposal considerations   |   |                    |  |
| Waste treatment methods  |   |                    |  |
| Recommendation Consult state, local o<br>Uncleaned packagings:   | r national regulations to ensure proper disposal.   |                    |  |
| Recommendation: Disposal must be ma  | ade according to official regulations.  |                    |  |
| <b>14 Transport information</b><br>Not a hazardous material for transportati   | on.   |                    |  |
| UN-Number<br>DOT, IMDG, IATA   | None  |                    |  |
| UN proper shipping name<br>DOT, IMDG, IATA   | None  |                    |  |
|  | NOIC  | (Contd. on page 4) |  |
|  |   | USA -              |  |

### Product name: 2-[N,N-Bis(trifluoromethylsulfonyl)amino]-5-chloropyridine

|   |  | (Contd. of page 3) |  |  |
|---|--|--------------------|--|--|
| Transport hazard class(es)  |  |                    |  |  |
| DOT, ADR, IMDG, IATA<br>Class   | None   |                    |  |  |
| Packing group<br>DOT, IMDG, IATA  | None   |                    |  |  |
| Environmental hazards:  | Not applicable.                                      |                    |  |  |
| Special precautions for user  | Not applicable.                                      |                    |  |  |
| Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable. |  |                    |  |  |
| Transport/Additional information:   | Not dangerous according to the above specifications. |                    |  |  |
| DOT<br>Marine Pollutant (DOT):  | No   |                    |  |  |
| 15 Regulatory information   |  |                    |  |  |
| Safety, health and environmental regulations/legislati                                  | on specific for the substance or mixture             |                    |  |  |

GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms

Signal word Warning

Hazard statements H315 Causes skin irritation. H319 Causes serious eye irritation. H335 May cause respiratory irritation. Precautionary statements Precautionary statements P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P405 P501 Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations. National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to the REACH Regulations (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. market and use must be observed. Substance is not listed Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out. 16 Other information Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees.
