(Contd. of page 1)

Product name: Sodium deoxycholate monohydrate

Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

Extinguishing media Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sodium oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away Ensure adequate ventilation Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. Protective Action Criteria for Chemicals PAC-1: Substance is not listed. PAC-1: Substance is not listed. PAC-2: Substance is not listed. PAC-3: Substance is not listed. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents.

Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Control parameters

Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data

Exposure controls

Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work.

Wash narius before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves

Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses with side shields / NIOSH (US) or EN 166(EU) **Body protection:** Protective work clothing.

9 Physical and chemical properties

Information on basic physical and chemical properties				
General Information				
Appearance: _Form:	Powder			
Odor: Odor threshold:	Odorless Not determined.			
pH-value:	Not applicable.			
Change in condition Melting point/Melting range: Boiling point/Boiling range:	>300 °C (>572 °F) Not determined			
		(Contd on page 3)		

(Contd. on page 3) USA

Product name: Sodium deoxycholate monohydrate

	(Contd. of page 2)				
Sublimation temperature / start:	Not determined				
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined				
Decomposition temperature:	Not determined				
Auto igniting:	Not determined.				
Danger of explosion: Explosion limits:	Not determined.				
Lower:	Not determined				
Upper: Vapor pressure:	Not determined Not applicable.				
Density: Relative density	Not determined Not determined.				
Vapor density	Not deplicable.				
Evaporation rate Solubility in / Miscibility with	Not applicable.				
Water at 20 °C (68 °F):	330 g/l Soluble				
Partition coefficient (n-octanol/water					
Viscosity:					
dynamic: kinematic:	Not applicable. Not applicable.				
Other information	Not applicable. No further relevant information available.				
10 Stability and reactivity					
Reactivity No information known.					
Chemical stability Stable under recom	nmended storage conditions. to be avoided: Decomposition will not occur if used and stored according to specifications.				
Possibility of hazardous reactions Re	eacts with strong oxidizing agents				
Conditions to avoid No further relevant Incompatible materials: Oxidizing age	it information available.				
Hazardous decomposition products:					
Carbon monoxide and carbon dioxide Sodium oxide					
11 Toxicological information					
Information on toxicological effects Acute toxicity:					
Harmful if swållowed.					
LD/LC50 values that are relevant for	cal Substances (RTECS) contains acute toxicity data for this substance.				
Oral LD50 1370 mg/kg (rat)	substitution.				
Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known.					
Carcinogenicity: No classification data	of Toxic Effects of Chemical Substances (RTECS) contains mutation data for this substance. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.				
Reproductive toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains reproductive data for this substance.					
Specific target organ system toxicity - repeated exposure: No effects known.					
Specific target organ system toxicity - single exposure: May cause respiratory irritation.					
Aspiration hazard: No effects known.					
Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains multiple dose toxicity data for this substance. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.					
12 Ecological information Toxicity					
Aquatic toxicity: No further relevant in	formation available.				
Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available.					
Mobility in soil No further relevant information available.					
Additiónal ecological information: General notes:					
Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment.					
Results of PBT and vPvB assessment					
PBT: Not applicable. vPvB: Not applicable.					
Other adverse effects No further relev	ant information available.				
13 Disposal considerations					
Waste treatment methods					
Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings:					
Recommendation: Disposal must be made according to official regulations. Recommended cleansing agent: Water, if necessary with cleansing agents.					
14 Transport information UN-Number					
DOT, ADN, IMDG, IATA	Not applicable				
UN proper shipping name DOT, ADR, ADN, IMDG, IATA	Not applicable				
	(Contd. on page 4)				
	USA -				

Product name: Sodium deoxycholate monohydrate

		(Contd. of page 3)		
Transport hazard class(es)				
DOT, ADR, ADN, IMDG, IATA Class	Not applicable			
Packing group DOT, ADR, IMDG, IATA	Not applicable			
Environmental hazards:	Not applicable.			
Special precautions for user	Not applicable.			
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.				
Transport/Additional information:				
DOT Marine Pollutant (DOT):	No			
UN "Model Regulation":	Not applicable			

15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms
