Version
1 Identification
Product identifier
Product name: <u>Tri-n-butyltin chloride</u>
Stock number: 14119 CAS Number: 1 <u>4</u> 61-22-9
EC number: 215-958-7
Index number: 050-008-00-3
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier:
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.
30 Bond Street
Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757
Fax: 600-522-4157 Email: tech@alfa.com www.alfa.com
Information Department: Health. Safety and Environmental Department
Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)
GHS06 Skull and crossbones
Acute Tox. 3 H301 Toxic if swallowed.
GHS08 Health hazard
STOT RE 1 H372 Causes damage to the kidneys, the liver, the respiratory system, the blood, the endocrine system and the immune system through prolonged o repeated exposure. Route of exposure: Oral, Inhalation.
GHS07
Acute Tox. 4 H312 Harmful in contact with skin.
Skin Irrit. 2 H315 Causes skin irritation. Eye Irrit. 2A H319 Causes serious eye irritation. Hazards not otherwise classified No information known.
Label elements
GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms
GHS06 GHS08
Signal word Danger
Hazard statements H301 Toxic if swallowed.
H312 Harmful in contact with skin. H315 Causes skin irritation.
H319 Causes serious eye irritation. H372 Causes damage to the kidneys, the liver, the respiratory system, the blood, the endocrine system and the immune system through prolonged or repeated
exposure. Route of exposure: Oral, Inhalation. Precautionary statements
P260 Do not breathe dust/fume/gas/mist/vapors/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection.
P301+P310 IF SWALLOWED: Immediately call a POISON CENTER / doctor.
P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor. P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P405 Store locked up.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification
D1B - Toxic material causing immediate and serious toxic effects D2A - Very toxic material causing other toxic effects
Classification system
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)
HEALTH I Health (acute effects) = 3
FIRE I Flammability = 1 Reactivity II Physical Hazard = 1 Other hazards
Results of PBT and vPvB assessment PBT: Not applicable

Issessi **PBT:** Not applicable.

Product name: Tri-n-butyltin chloride

vPvB: Not applicable.

3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 1461-22-9 Tri-n-butyltin chloride Concentration: ≤100% Identification number(s): EC number: 215-958-7 Index number: 050-008-00-3 4 First-aid measures Description of first aid measures Description of first aid measures General information Immediately remove any clothing soiled by the product. In case of irregular breathing or respiratory arrest provide artificial respiration. After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Do not induce vomiting; immediately call for medical help. Information for doctor Most important symptoms and effects, both acute and delayed Most important symptoms and effects, both acute and delayed Causes skin irritation. Causes serious eye irritation. Harmful in contact with skin. Toxic if swallowed. Causes damage to the kidneys, the liver, the respiratory system, the blood, the endocrine system and the immune system through prolonged or repeated exposure. Route of exposure: Oral, Inhalation. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen chloride (HCl) Tin oxides Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures **Personal precautions, protective equipment and emergency procedures** Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation **Environmental precautions:** Do not allow product to reach sewage system or any water course. Environmental precautions: Do not allow product to reach sewage system or any water cour Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of contaminated material as waste according to section 13. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. Protective Action Criteria for Chemicals PAC-1: Substance is not listed. PAC-3: Substance is not listed. 7 Handling and storage Handling Precautions for safe handling Recautions for sale nanoling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

11 Toxicological information	
Information on toxicological effects Acute toxicity:	
Harmful in contact with skin. Toxic if swallowed.	
Danger through skin absorption. The Registry of Toxic Effects of Chemical Substances (RTECS) contains acut	a taviaitu data far thia aubatanaa
LD/LC50 values that are relevant for classification:	
Oral LD50 129 mg/kg (rat)	
Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation	
Sensitization: No sensitizing effects known. Germ cell mutagenicity: The Registry of Toxic Effects of Chemical Substance	es (RTECS) contains mutation data for this substance.
Carcinogenicity: ACGIH A4: Not classifiable as a human carcinogen: Inadequate data on which	to classify the agent in terms of its carcinogenicity in hymans and/or animals
Reproductive toxicity: The Registry of Toxic Effects of Chemical Substances	(RTECS) contains reproductive data for this substance.
Route of exposure: Oral, Inhalation.	e endocrine system and the immune system through prolonged or repeated exposure.
Specific target organ system toxicity - single exposure: No effects known.	
Aspiration hazard: No effects known. Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Sub- Additional toxicological information: To the best of our knowledge the acute	stances (RTECS) contains multiple dose toxicity data for this substance. e and chronic toxicity of this substance is not fully known.
12 Ecological information	
Toxicity Aquatic toxicity: No further relevant information available.	
Persistence and degradability No further relevant information available.	
Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available.	
Ecotoxical effects: Remark: Very toxic for aquatic organisms	
Additional ecological information: General notes:	
Do not allow product to reach ground water, water course or sewage system, e	even in small quantities.
Danger to drinking water if even extremely small quantities leak into the groun Also poisonous for fish and plankton in water bodies.	α.
May cause long lasting harmful effects to aquatic life. Avoid transfer into the environment.	
Very toxic for aquatic organisms Results of PBT and vPvB assessment	
PBT: Not applicable. vPvB: Not applicable.	
Other adverse effects No further relevant information available.	
13 Disposal considerations	
Waste treatment methods	ar dianoool
Recommendation Consult state, local or national regulations to ensure prope Uncleaned packagings:	r uisposai.
Recommendation: Disposal must be made according to official regulations.
