

Safety Data Sheet per OSHA HazCom 2012

Product name: 2-(4-Hydroxyphenylazo)benzoic acid, Ultrapure MALDI Matrix (Contd. of page 1) Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for fireficience Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections. See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Recautions for safe nanoing Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment The usual protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Material of gloves Nitrile rubber, NBR Penetration time of glove material (in minutes) 480 Glove thickness 0.11 mm Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Powder Color: Yellow to orange Odor: Odor threshold: Not determined Not determined pH-value: Not applicable.

Product name: 2-(4-Hydroxyphenylazo)benzoic acid, Ultrapure MALDI Matrix

reduce name: 2 (4 mgar exypricity)a			
		(Contd. of page 2)	
Change in condition Melting point/Melting range:	205-207 °C (401-405 °F)		
Boiling point/Boiling range: _Sublimation temperature / start:	Not determined Not determined		
Flammability (solid, gaseous)	Not determined. Not determined		
Ignition temperature: Decomposition temperature: Auto igniting:	Not determined Not determined.		
Danger of explosion:	Not determined.		
Explosion limits: Lower:	Not determined		
Upper: Vapor pressure:	Not determined		
Density: Relative density	Not applicable. Not determined Not determined.		
Vapor density Evaporation rate	Not applicable. Not applicable.		
Solubility in / Miscibility with Water:	Not applicable. Not determined		
Partition coefficient (n-octanol/water)			
Viscosity: dynamic: kinemetic:	Not applicable.		
kinematic: Other information	Not applicable. No further relevant information available.		
10 Oct little and reportinity			
10 Stability and reactivity Reactivity No information known.			
Chemical stability Stable under recommendations for the stability of the stability stable under recommendations for the stability of the stabi	mended storage conditions. t o be avoided : Decomposition will not occur if used and stored according to specifications.		
Possibility of hazardous reactions Re	eacts with strong oxidizing agents		
Conditions to avoid No further relevant Incompatible materials: Oxidizing ager	t information available. hts		
Hazardous decomposition products: Carbon monoxide and carbon dioxide			
Nitrogen oxides			
11 Toxicological information			
Information on toxicological effects Acute toxicity: No effects known.			
LD/LC50 values that are relevant for c Skin irritation or corrosion: Causes sk	:lassification: No data		
Eye irritation or corrosion: Causes set Sensitization: No sensitizing effects kno	rious eve irritation		
Germ cell mutagenicity: No effects kno	own.		
Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known.			
Specific target organ system toxicity	Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation.		
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect	ts known.		
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.		
12 Ecological information			
Toxicity Aquatic toxicity: No further relevant info	ormation available.		
Persistence and degradability No furth Bioaccumulative potential No further n	her relevant information available.		
Mobility in soil No further relevant inform Additional ecological information:	mation available.		
General notes:	quantities to reach ground water, water course or sewage system.		
Avoid transfer into the environment. Results of PBT and vPvB assessment			
PBT: Not applicable.	t		
vPvB: Not applicable. Other adverse effects No further releva	ant information available.		
13 Disposal considerations			
Waste treatment methods	· · · · · ·		
Recommendation Consult state, local o Uncleaned packagings:	or national regulations to ensure proper disposal.		
Recommendation: Disposal must be m	ade according to official regulations.		
14 Transport information			
UN-Number DOT, ADN, IMDG, IATA	Not applicable		
UN proper shipping name DOT, ADN, IMDG, IATA	Not applicable		
Transport hazard class(es)			
DOT, ADR, ADN, IMDG, IATA Class	Not applicable		
Packing group DOT, IMDG, IATA			
DOT, INDO, IATA	Not applicable	(Contd. on page 4)
