

## Safety Data Sheet per OSHA HazCom 2012

# (Contd. of page 1) 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Silicon oxide Advice or fireficientare Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: Store in a cool location. Information about storage in one common storage facility: Store away from oxidizing agents. Store away from water/moisture. Further information about storage conditions: Store under dry inert gas. This product is moisture sensitive. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and water. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious glaves

Impervisus gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined

#### Product name: Dimethoxymethylvinylsilane

Eye protection: Safety glasses Body protection: Protective work clothing.

#### 9 Physical and chemical properties

9 Physical and chemical properties	
Information on basic physical and che General Information Appearance:	emical properties
	Liquid
Form: Color:	Liquid Colorless
Odor:	Coloness Not determined
Odor threshold:	
	Not determined.
pH-value:	Not determined.
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined 102-104 °C (216-219 °F) Not determined
Flash point: Flammability (solid, gaseous)	5 °C (41 °F) Not applicable.
Ignition temperature:	Not determined
Decomposition temperature:	Not determined
Auto igniting:	Not determined.
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible.
Explosion limits:	
Lower:	Not determined
Upper:	Not determined
Vapor pressure:	Not determined
Density at 20 °C (68 °F):	0.889 g/cm³ (7.419 lbs/gal)
Relative density	Not determined.
Vapor density	Not determined.
Evaporation rate	Not determined.
Solubility in / Miscibility with	
Water:	Not miscible or difficult to mix
Partition coefficient (n-octanol/water):	Not determined.
Viscosity:	
dynamic:	Not determined.
kinematic:	Not determined.
Other information	No further relevant information available.

#### 10 Stability and reactivity

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Water/moisture Hazardous decomposition products: Carbon monoxide and carbon dioxide Silicon oxide 11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes skin irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Carcinogenicity: No effects known. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Subacute to chronic toxicity: Organic silicon compounds are generally of low toxicity. Those exhibiting moisture sensitivity may be strongly irritating or corrosive on contact. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

#### 12 Ecological information

Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: Coneral notes: General notes: Do not allow material to be released to the environment without proper governmental permits. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT. Net applied **PBT:** Not applicable. **vPvB:** Not applicable

Other adverse effects No further relevant information available.

13 Disposal considerations	
Waste treatment methods	and to analyze avenue diano.
<b>Recommendation</b> Consult state, local or national regulatio <b>Uncleaned packagings:</b>	
<b>Recommendation:</b> Disposal must be made according to of	fficial regulations.
4 Transport information	
UN-Number	1014000
DOT, IMDG, IATA UN proper shipping name	UN1993
DOT	Flammable liquids, n.o.s. (Dimethoxymethylvinylsilane) FLAMMABLE LIQUID, N.O.S. (Dimethoxymethylvinylsilane)
IMDG, IATA	FLAMMABLE LIQUID, N.O.S. (Dimethoxymethylvinylsilane)
Transport hazard class(es) DOT	
Class	3 Flammable liquids.
Label	3
Class Label	3 (F1) Flammable liquids 3
IMDG, IATA	
Class Label	3 Flammable liquids.
	U
Packing group DOT, IMDG, IATA	<u>  </u>
Environmental hazards:	Not applicable.
Special precautions for user Transport in bulk according to Annex II of MARPOL73/7	Warning: Flammable liquids
Transport in buck according to Annex it of MARPOL73/7 Transport/Additional information:	
DOT	
Marine Pollutant (DOT):	No
UN "Model Regulation":	UN1993, Flammable liquids, n.o.s., special provision 640D (Dimethoxymethylvinylsilane), 3, II
Hazard pictograms	
GHS02 GHS07	
Signal word Danger	
Hazard statements H225 Highly flammable liquid and vapor.	
H315 Causes skin irritation.	
H319 Causes serious eye irritation. H335 May cause respiratory irritation.	
Precautionary statements P210 Keep away from heat/sparks/open flame	es/hot surfaces. No smoking
P261 Avoid breathing dust/fume/gas/mist/vapo P303+P361+P353 If on skin (or hair): Take off immediately	ours/spray
P305+P351+P338 IF IN EYES: Rinse cautiously with water	r for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P405 Store locked up. P501 Dispose of contents/container in accord	lance with local/regional/national/international regulations.
National regulations	nmental Protection Agency Toxic Substances Control Act Chemical substance Inventory.
All components of this product are listed on the Canadian N	Non-Domestic Substances List (NDSL).
SARA Section 313 (specific toxic chemical listings) Sub California Proposition 65	
Prop 65 - Chemicals known to cause cancer Substance Prop 65 - Developmental toxicity Substance is not listed	is not listed.
Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not	ot listed.
Prop 65 - Developmental toxicity, male Substance is not Information about limitation of use: For use only by tech Other regulations, limitations and prohibitive regulatior	nistea. Inically qualified individuals.
Other regulations, limitations and prohibitive regulation Substance of Very High Concern (SVHC) according to t	ns the REACH Regulations (EC) No. 1907/2006. Substance is not listed.
The conditions of restrictions according to Article 67 ar	nd Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on t
<i>market and use must be observed.</i> Substance is not listed.	
Annex XIV of the REACH Regulations (requiring Author Chemical safety assessment: A Chemical Safety Assess	risation for use) Substance is not listed. ment has not been carried out
