

Safety Data Sheet per OSHA HazCom 2012

Safety Data Sheet per OSHA HazCom 2012

Product name: (R)-1-(3-Chlorophenyl)ethylamine

Product name: (R)-1-(3-Chiorophenyi)ethylamine	
After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	(Contd. of page 1)
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes serious eve damage.	
Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liguid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation	
Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections Social Social Socia	
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage	
Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data	
Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment.	
Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Tightly sealed goggles Full face protection: Body protection: Body protection:	
9 Physical and chemical properties	
Information on basic physical and chemical properties General Information Appearance: Form: Liquid	
Odor: Not determined	(Contd. on page 3)
	USA

Product name: (R)-1-(3-Chlorophen	yl)ethylamine	
		(Contd. of page 2)
Odor threshold:	Not determined.	
pH-value:	Not determined.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined 112 °C (234 °F) (13 mmHg) Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not determined Not determined Not determined Not determined Not determined.	
Danger of explosion: Explosion limits: Lower:	Product does not present an explosion hazard. Not determined	
Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate	Not determined Not determined Not determined Not determined. Not determined. Not determined.	
Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water Viscosity:	Not miscible or difficult to mix): Not determined.	
dynamic: kinematic: Other information	Not determined. Not determined. No further relevant information available.	
Reactivity No information known. Chemical stability Stable under recon Thermal decomposition / conditions Possibility of hazardous reactions N Conditions to avoid No further releval Incompatible materials: Oxidizing age Hazardous decomposition products. Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen chloride (HCI)	imended storage conditions. to be avoided: Decomposition will not occur if used and stored according to specifications. o dangerous reactions known nt information available. nts	
LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s Eye irritation or corrosion: Causes s Sensitization: No sensitizing effects kn Germ cell mutagenicity: No effects kn Carcinogenicity: No classification dat Reproductive toxicity: No effects kno Specific target organ system toxicity Specific target organ system toxicity Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect	evere skin burns. erious eye damage. nown. own. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. wn. - - repeated exposure: No effects known. - - single exposure: No effects known.	
12 Ecological information Toxicity		
Aquatic toxicity: No further relevant in Persistence and degradability No fur Bioaccumulative potential No further Mobility in soil No further relevant info Ecotoxical effects: Remark: Toxic for aquatic organisms Additional ecological information:	ther relevant information available. relevant information available.	

Remark: Toxic for aquatic organisms Additional ecological information: General notes: Do not allow product to reach ground water, water course or sewage system. Do not allow material to be released to the environment without proper governmental permits. Toxic for aquatic organisms Danger to drinking water if even small quantities leak into the ground. Also poisonous for fish and plankton in water bodies. Toxic to aquatic life. May cause long lasting harmful effects to aquatic life. Avoid transfer into the environment. **Results of PBT and vPvB assessment PBT**: Not applicable. **vPvB**: Not applicable. **Other adverse effects** No further relevant information available.

13 Disposal considerations

Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal.
