

Safety Data Sheet per OSHA HazCom 2012

### Product name: 3-(2-Aminoethylamino)propyltrimethoxysilane

(Contd. of page 1) After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Silicon oxide Advice for firefighters **Protective equipment:** Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage

Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Store away from water/moisture. Store under dry inert gas. This product is moisture sensitive. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Store from humidity and water. Specific end use(s) No further relevant information available.

#### 8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

### Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data

# Exposure controls Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection: Tightly sealed goggles Full face protection

Body protection: Protective work clothing.

9 Physical and chemical propertie	25		
Information on basic physical and ch General Information			
Appearance: Form:	Liquid		
Color: Odor:	Colorless Not determined		
Odor threshold:	Not determined.		
pH-value:	Not determined.		
Change in condition	Not determined		
Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined 261-263 °C (502-505 °F) Not determined		
Flash point:	136 °C (277 °F)		
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined		
Decomposition temperature:	Not determined		
Auto igniting: Danger of explosion:	Not determined. Product does not present an explosion hazard.		
Explosion limits:			
Lower: Upper:	Not determined Not determined		
Vapor pressure:	Not determined		
Density at 20 °C (68 °F): Relative density	1.01 g/cm³ (8.428 lbs/gal) Not determined.		
Vapor density	Not determined.		
Evaporation rate Solubility in / Miscibility with	Not determined.		
Water: Reacts Partition coefficient (n-octanol/water): Not determined.			
Viscosity: dynamic:	Not determined.		
kinematic: Other information	Not determined. No further relevant information available.		
Possibility of hazardous reactions No Conditions to avoid No further relevan Incompatible materials: Oxidizing agents Water/moisture Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides Silicon oxide	nt information available.		
11 Toxicological information Information on toxicological effects			
Acute toxicity: Swallowing will lead to LD/LC50 values that are relevant for Skin irritation or corrosion: Causes se Sensitization: No sensitizing effects kr Germ cell mutagenicity: No effects kno Carcinogenicity: No classification data Reproductive toxicity: No effects know Specific target organ system toxicity Specific target organ system toxicity Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects Subacute to chronic toxicity:	severe skin burns. erious eye damage. nown. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. wn. <b>y - repeated exposure:</b> No effects known. <b>y - single exposure:</b> No effects known.		
12 Ecological information Toxicity			
Aquatic toxicity: No further relevant in Persistence and degradability No fun Bioaccumulative potential No further Mobility in soil No further relevant info Additional ecological information: General notes: Do not allow material to be released to	rther relevant information available. relevant information available. ormation available. the environment without proper governmental permits. e quantities to reach ground water, water course or sewage system. <b>nt</b>		
13 Disposal considerations			
13 Disposal considerations Waste treatment methods Recommendation Consult state, local	l or national regulations to ensure proper disposal.	(Contd. on page 4)
