

Safety Data Sheet per OSHA HazCom 2012

## Product name: 3-Benzyloxyphenylacetic acid (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters **Protective equipment:** Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Precautions for safe nanoung Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Conditions of well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Breatning equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Solid Odor: Odor threshold: Not determined Not determined pH-value: Not applicable. Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Not determined Not determined Not determined Flash point: Not applicable Flammability (solid, gaseous) Not determined. Ignition temperature: Decomposition temperature: Not determined Not determined Auto igniting. Not determined Danger of explosion: Product does not present an explosion hazard. (Contd. on page 3)

## Product name: 3-Benzyloxyphenylacetic acid

Product name: 3-Benzyloxyphenyla	Product name: 3-Benzyloxyphenylacetic acid			
		(Contd. of page 2)		
Explosion limits: Lower:	Not determined			
Upper:	Not determined			
Vapor pressure: Density:	Not applicable. Not determined			
Relative density	Not determined.			
Vapor density Evaporation rate	Not applicable. Not applicable.			
Solubility in / Miscibility with				
Water: Partition coefficient (n-octanol/water)	Not determined			
Viscosity:				
dynamic: kinematic:	Not applicable. Not applicable.			
Other information	No further relevant information available.			
10 Stability and reactivity				
Reactivity No information known.				
Chemical stability Stable under recom	nended storage conditions. To <b>be avoided:</b> Decomposition will not occur if used and stored according to specifications.			
Possibility of hazardous reactions No	o be avoided: Decomposition will not occur if used and stored according to specifications. dangerous reactions known			
Conditions to avoid No further relevan	t information available.			
Incompatible materials: Oxidizing age Hazardous decomposition products:	Carbon monoxide and carbon dioxide			
11 Toxicological information				
Information on toxicological effects				
Acute toxicity: No effects known. LD/LC50 values that are relevant for o	classification: No data			
Skin irritation or corrosion: Causes sl	kin irritation.			
Eye irritation or corrosion: Causes se Sensitization: No sensitizing effects kn	rious eye irritation. own			
Germ cell mutagenicity: No effects kno	own.			
Reproductive toxicity: No effects know	on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.			
Specific target organ system toxicity	- repeated exposure: No effects known.			
Aspiration hazard: No effects known.	- single exposure: May cause respiratory irritation.			
Subacute to chronic toxicity: No effect	ts known.			
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.			
12 Ecological information				
Toxicity Aquatic toxicity: No further relevant inf	ormation available			
Persistence and degradability No further Bioaccumulative potential No further	ner relevant information available.			
Bioaccumulative potential No further I Mobility in soil No further relevant infor	elevant information available.			
Additional ecological information:				
General notes:	he environment without proper governmental permits.			
Do not allow undiluted product or large of	juantities to reach ground water, water course or sewage system.			
Avoid transfer into the environment. Results of PBT and vPvB assessmen				
PBT: Not applicable.				
vPvB: Not applicable. Other adverse effects No further releva	ant information available.			
13 Disposal considerations				
Waste treatment methods				
Recommendation Consult state, local of	or national regulations to ensure proper disposal.			
Uncleaned packagings: Recommendation: Disposal must be m	ade according to official regulations.			
14 Transport information				
Not a hazardous material for transportat UN-Number	ion.			
DOT, IMDG, IATA	None			
UN proper shipping name DOT, IMDG, IATA	None			
Transport hazard class(es)				
DOT, ADR, IMDG, IATA Class	None			
Packing group				
DOT, IMĎG, IATA Environmental hazards:	None Not applicable.			
Special precautions for user	Not applicable.			
	I of MARPOL73/78 and the IBC Code Not applicable.			
Transport/Additional information:	Not dangerous according to the above specifications.			
DOT .				
Marine Pollutant (DOT):	No	USA
