

1 Identification
Product identifier
Product name: <u>Nitrilotriacetic acid trisodium salt monohydrate</u>
Stock number: L14052 CAS Number:
18662-53-8 EC number:
225-768-6
Index number: 607-620-00-6
Relevant identified uses of the substance or mixture and uses advised against.
Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier:
Alfa Aesar
Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street
Ward Hill, MA 01835-8099
Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com
www.alfa.com
Information Department: Health, Safety and Environmental Department Emergency telephone number:
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)
GHS08 Health hazard
Carc. 2 H351 Suspected of causing cancer.
GHS07
Acute Tox. 4 H302 Harmful if swallowed.
Eye Irrit. 2A H319 Causes serious eye irritation. Hazards not otherwise classified No information known.
Label elements
GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms
GHS07 GHS08
Signal word Warning Hazard statements
H302 Harmful if swallowed.
H319 Causes serious eye irritation. H351 Suspected of causing cancer.
H351 Suspected of causing cancer. Precautionary statements P290
P280 Wear protective gloves/protective clothing/eye protection/face protection. P281 Use personal protective equipment as required. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P301+P312 IF SWALLOWED: Call a POISON CENTER/doctor//if you feel unwell. P405
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P301+P312 IF SWALLOWED: Call a POISON CENTER/doctor/ /if you feel unwell
P405 Store locked up.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification
D2A - Very toxic material causing other toxic effects
$\bigcirc$
Classification system
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)
HEALTH     Image: Control of the second
REACTIVITY D Physical Házard = 1
Other hazards Results of PBT and vPvB assessment
PBT: Not applicable. vPvB: Not applicable.
3 Composition/information on ingredients
Chemical characterization: Substances CAS# Description:
18662-53-8 Nitrilotriacetic acid trisodium salt monohydrate
Identification number(s): EC number: 225-768-6
Index number: 607-620-00-6

## Product name: Nitrilotriacetic acid trisodium salt monohydrate

Product name: Nitrilotriacetic acid trisodium salt monohydrate

<ul> <li>4 First-aid measures</li> <li>Description of first aid measures</li> <li>After inhalation</li> <li>Supply fresh air. If required, provide artificial respiration. Keep patient warm.</li> <li>Seek immediate medical advice.</li> <li>After skin contact</li> <li>Immediately wash with water and soap and rinse thoroughly.</li> <li>Seek immediate medical advice.</li> <li>After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.</li> <li>After swallowing Seek medical treatment.</li> <li>Information for doctor</li> <li>Most important symptoms and effects, both acute and delayed No further relevant information available.</li> </ul>	
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sodium oxide Nitrogen oxides (NOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.	
<ul> <li>8 Exposure controls/personal protection         Additional information about design of technical systems:             Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.         Components with limit values that require monitoring at the workplace:         The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.         Additional information: No data         Exposure controls         Personal protective end hygienic measures         The usual precautionary measures for handling chemicals should be followed.         Keep away from foodstuffs, beverages and feed.         Remove all solied and contaminated clothing immediately.         Wash hands before breaks and at the end of work.         Avoid contact with the eyes.         Avoid contact with the eyes and skin.         Maint an ergonomically appropriate working environment.         Breathing equipment: Use suitable respirator when high concentrations are present.         Receiven of hands:         Protection of hands:         Protection:         Safe or short term use:         Use a respirator with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to deal purifying respirators are appropriate work and approved under appropriate government standards.         Protection of hands:         Protection of under the ruber no proper condition.         The selection of suitable gloves not only depends on the material, but also on quali</li></ul>

9 Physical and chemical properties		(***********************		
Information on basic physical and chemical properties				
General Information				
Appearance: Form:	Crystalline powder			
Odor:	Not determined			
	Not determined.			
-	Not applicable.			
Change in condition Melting point/Melting range:	>300 °C (>572 °F)			
Boiling point/Boiling range:	Not determined			
	Not determined Not determined.			
lanition temperature:	Not determined			
Decomposition temperature:	Not determined			
	Not determined. Not determined.			
Explosion limits:	Not determined.			
	Not determined			
Vapor pressure:	Not determined Not applicable.			
Density:	Not determined			
	Not determined. Not applicable.			
Evaporation rate	Not applicable.			
Solubility in / Miscibility with Water:	Not determined			
Partition coefficient (n-octanol/water):	Not determined.			
Viscosity: dynamic:	Not applicable.			
kinematic:	Not applicable.			
Other information	No further relevant information available.			
Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Sodium oxide Nitrogen oxides				
11 Toxicological information Information on toxicological effects Acute toxicity:				
The Registry of Toxic Effects of Chemica I D/I C50 values that are relevant for cl	Harmful if swallowed. The Registry of Toxic Effects of Chemical Substances (RTECS) contains acute toxicity data for this substance. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation			
Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains mutation data for this substance.				
Carcinogenicity: Suspected of causing cancer.				
Suspected of causing cancer. IARC-2B: Possibly carcinogenic to humans: limited evidence in humans in the absence of sufficient evidence in experimental animals. The Registry of Toxic Effects of Chemical Substances (RTECS) contains tumorigenic and/or carcinogenic and/or neoplastic data for this substance. <b>Reproductive toxicity:</b> The Registry of Toxic Effects of Chemical Substances (RTECS) contains reproductive data for this substance. <b>Specific target organ system toxicity - repeated exposure:</b> No effects known.				
Specific target organ system toxicity - single exposure: No effects known				
Aspiration hazard: No effects known. Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains multiple dose toxicity data for this substance. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.				
12 Ecological information				
Toxicity				
Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available.				
Bioaccumulative potential No further relevant information available.				
Mobility in soil No further relevant information available. Additional ecological information:				
General notes:				
Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment.				
Results of PBT and vPvB assessment				
<b>PBT:</b> Not applicable. <b>vPvB:</b> Not applicable.				
Other adverse effects No further relevan	nt information available.			
13 Disposal considerations				
Waste treatment methods				
Recommendation Consult state, local or	r national regulations to ensure proper disposal.			
Uncleaned packagings: Recommendation: Disposal must be ma	ade according to official regulations.
