

Safety Data Sheet per OSHA HazCom 2012

1 Identification	
Product identifier Product name: <b>4-(Boc-amino)-4-carbamoylbutyric acid</b>	
Stock number: H62305	
CAS Number: 18800-74-3	
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Details of the supplier of the safety data sheet Manufacturer/Supplier:	
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 20 Band Stroot	
30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660	
Fex: 800-322-4757 Email: tech @alfa.com	
ernal. tech wana.com www.alfa.com Information Department: Health, Safety and Environmental Department	
Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 92	<u>୬₽₋∩780</u>
	20-07-03.
2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS). Hazards not otherwise classified No information known.	
Label elements GHS label elements Not applicable	
Hazard pictograms Not applicable Signal word Not applicable	
Signal word Not applicable Hazard statements Not applicable WHMIS classification Not controlled	
Classification system	
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
HEALTH I Health (acute effects) = 1 FIRE I Flammability = 1 Flammability = 1	
REACTIVITY     Physical Házard = 1       Other hazards	
Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.	
3 Composition/information on ingredients	
Chemical characterization: Substances CAS# Description:	
Chemical characterization: Substances	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly.	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate wedical advice. After eve contact Rinse opened eve for several minutes under running water. Then consult a doctor.	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eyel contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.	
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact reatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Set Fire-fighting measures Extinguishing media	<i>m</i>
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Settinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Eight larger fires with water spray or alcohol resistant for	<i>m.</i>
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide	<i>m</i> .
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indicate medical advice, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters	<i>m</i> .
Chemical characterization: Substances CAS# Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After secontact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical tréatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Seitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide	<i>m</i> .
Chemical characterization: Substances CAS# Description: 1880-74-3 4-(Boc-amino)-4-carbamoylbutyric acid <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After exist contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator.	m.
Chemical characterization: Substances CAS# Description: 18800-74-3 4: (Boc-amino)-4-carbamoy/butyric acid 4 First-aid measures Description of first aid measures After sinhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After symediate medical advice. After symediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Series for the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foal Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NoX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures	m.
Chemical characterization: Substances CASH Description: 18800-74-3 4 (Boc-amino)-4-carbamoylbutyric acid	m.
Chemical characterization: Substances ASB Description: 18800-74-3 4-(Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Chinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical advice, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foa. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear rully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate venilation. Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containement and cleaning up: Pick king mechanically.	m.
Chemical characterization: Substances CASE Description: 18800-74-3 4 (Boc-amino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhialation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Situable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foat Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear suell-contained (respirator. Wear protective empretions suit. Wear protective empretions suit. Wear protective empretions suit. Berspinel precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required. Reference to other sections:	m.
Chemical characterization: Substances CASH Description: 18800-74-3 4-(Boc-anino)-4-carbamoylbutyric acid 4 First-aid measures Description of first aid measures After inhialation Supply if esh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After oper contact Rises opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Information for a doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Information for a doctor Most important symptoms and effects are opened eye or instant on a special freatment needed No further relevant information available. Information of any immediate medical attention and special freatment needed No further relevant information available. Information of any immediate medical attention and special treatment needed No further relevant information available. Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foat Special hazards ariging from the substance or mixture of this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment. Wear fully protective equipment and emergency procedures Wear protective equipment. See unprotective equipment. Ensure adequate ventilation Environmental precautions. Do not allow product to reach sewage system or any water course. Methods and ma	m. (Contd. on page 2)

Product name: 4-(Boc-amino)-4-carbamoylbutyric acid

(Contd. of page 1)

See Section 13 for disposal information.

See Section 13 for disposal information.				
7 Handling and storage				
Handling				
Precautions for safe handling				
Keep container tightly sealed.				
Store in cool, dry place in tightly closed containers. Information about protection against explosions and fires: No information known.				
Conditions for safe storage, including	•			
Storage				
Requirements to be met by storeroon	ns and receptacles: No special requirements. Inmon storage facility: Store away from oxidizing agents.			
Further information about storage co	information storage racing. Store away non oxidizing agents. nditions:			
Keep container tightly sealed.				
Store in cool, dry conditions in well seal Specific end use(s) No further relevant	eu contaniers. information available.			
8 Exposure controls/personal prot	ection			
Additional information about design	of technical systems:			
, , , , ,	designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.			
Control parameters Components with limit values that require monitoring at the workplace:				
I he product does not contain any releva	ant quantities of materials with critical values that have to be monitored at the workplace.			
Additional information: No data				
Exposure controls Personal protective equipment				
Personal protective equipment General protective and hygienic mea	sures			
The usual precautionary measures for handling chemicals should be followed.				
Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately.				
Wash hands before breaks and at the e	nd of work.			
Maintain an ergonomically appropriate v Breathing equipment: Use suitable res	vorking environment. spirator when high concentrations are present.			
Recommended filter device for short	term use:			
Use a respirator with type N95 (USA) or	PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air- nly use equipment tested and approved under appropriate government standards.			
Protection of hands:	ny use equipment tested and approved under appropriate government standards.			
Impervious gloves				
Check protective gloves prior to each us The selection of suitable gloves not only	depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.			
Eve protection: Safety glasses				
Body protection: Protective work cloth	ng.			
9 Physical and chemical properties	5			
Information on basic physical and ch	emical properties			
General Information				
Appearance: Form:	Powder			
Color:	White to off-white			
Odor: Odor threshold:	Not determined Not determined.			
pH-value:	Not applicable.			
Change in condition				
Melting point/Melting range:	Not determined			
Boiling point/Boiling range:	Not determined			
Sublimation temperature / start: Flammability (solid, gaseous)	Not determined Not determined.			
Ignition temperature:	Not determined			
Decomposition temperature: Auto igniting:	Not determined Not determined.			
Danger of explosion:	Not determined.			
Explosion limits:				
Lower:	Not determined			
Upper: Vapor pressure:	Not determined Not applicable.			
Density:	Not determined			
Relative density Vapor density	Not determined. Not applicable.			
Evaporation rate	Not applicable.			
Solubility in / Miscibility with	Not determined			
Water: Partition coefficient (n-octanol/water)	: Not determined.			
Viscosity:				
dynamic: kinematic:	Not applicable. Not applicable.			
Other information	No further relevant information available.			
10 Stability and reactivity				
Reactivity No information known.				
Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.				
Possibility of hazardous reactions Re	eacts with strong oxidizing agents			
Conditions to sucid No further instances	t information available			

Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide

Nitrogen oxides	(Cor	ntd. of page 2)
11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge th	cts known. known.	
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow undiluted product or large quantities to reach ground wate Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.		
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure Uncleaned packagings: Recommendation: Disposal must be made according to official regula
