

1 Identification	
Product identifier Product name: N-Fmoc-L-beta-homophenylalanine	
Product name: <u>N-FINOC-L-Deta-NOMOPNENYIAIANINE</u> Stock number: H52052	
CAS Number: 193954-28-8	
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Details of the supplier of the safety data sheet	
Manufacturer/Supplier: Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.	
30 Bond Street	
Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757	
Email: tech@alfa.com www.alfa.com	
Information Department: Health, Safety and Environmental Department	
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 920	28-0789.
2 Hazard(s) identification	
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS).	
Label elements	
GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable	
Hazard statements Not applicable	
WHMIS classification Not controlled	
Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
HEALTH I Health (acute effects) = 1 FIRE I Fire I	
REACTIVITY Physical Hazard = 1	
Other hazards Results of PBT and vPvB assessment	
PBT: Not applicable.	
vPvB: Not applicable.	
vPvB: Not applicable. 3 Composition/information on ingredients	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description:	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly.	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment.	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures	
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical davice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact traitement. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide. extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foant	n.
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray.	<i>n</i> .
 vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8-N-FmocL-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen porders (NOx) 	<i>n</i> .
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193934-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and scap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Possibly Hydrogen cyanide (HCN) Advice for firefightiers	n.
 vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CASE Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply Iresh air. If required, provide artificial respiration. Keep patient warm. Seek immedical advice. After shin contact Immedical emedical advice. After swallowing Seek medical advice. After swallowing Seek medical advice. After swallowing Seek medical treatment. Imformation for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Possibly Hydrogen cyanide (HCN) Advice for firefighting respirator. 	n.
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CASE Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After symediate medical advice. After symediates contact Immediate medical advice. After symediates medical advice. Seek immediates medical advice. After symediates medical advice. Terre-fighting measures Extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture If his product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen cyanide (HCN) Advice or firefighters Protective equipment: Wear sell-contained respirator. Wear fully protective impervious suit	n.
VPvB: Not applicable. 3 Composition/Information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 Ni-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After sey contact Rinse opened eye for several minutes under running water. Then consult a doctor. After sey contact Rinse doctor Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with wa	n.
VPVB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin endical advice. After skin contact Immediate medical advice. After skin contact Immediate medical divice. After skin so opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After sevel contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special hazards arising from the substance or mixture of this product is innoved in a fire, the following can be released: Carbon monoxide and earbon dioxide Witrogen ordex (KOX) Possibly Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear fully protective impervious suit. 6 Accidental release measures Wear fully protective equipment and emergency procedures Wear fully protective equipment and emergency procedures Wear fully protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons	n.
VPVB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CASt Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures After skin contact Immediate medical advice. After skin mediate medical attention and special treatment needed No further relevant information available. Indication of any Immediate medical attention and special treatment needed No further relevant information available. Stringuishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special product is involved in a fire, the following can be released: Carbon moxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foar Special protocut equipment: Wear roll-ydrogen cyanide (HCN) Advice for firefighters Wear product is i	n.
vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 193954-28-8 N-Fmoc-L-beta-homophenylalanine 4 First-aid measures Description of first aid measures After inhalation Supply intervention of the equired, provide artificial respiration. Keep patient warm. Supply inmediate medical advice. 4 First-aid measures After inhalation Supply inmediate medical advice. After skin contact Immediately wash with water and scap and rinse thoroughly. Seek immediately wash with water and scap and rinse thoroughly. Seek medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After seve and offects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foan Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foan Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Ware router is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Ware router is unported to suppleters Protective equipment.	n.

Product name: N-Fmoc-L-beta-hom		wed on 11/01/2010	
	opnenymanne	(Contd. of page 1)	
See Section 8 for information on person See Section 13 for disposal information	nal protection equipment.	(conta. or page 1)	
7 Handling and storage			
Handling Precautions for safe handling			
Keep container tightly sealed.			
Store in cool, dry place in tightly closed containers. Information about protection against explosions and fires: No information known.			
Conditions for safe storage, including any incompatibilities			
Storage Requirements to be met by storerooms and receptacles: No special requirements.			
Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions:			
Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.			
Specific end use(s) No further relevan	t information available.		
8 Exposure controls/personal prot	tection		
Additional information about design of technical systems: Property operating chemical tyme bood designed for bazardous chemicals and baying an average face velocity of at least 100 feet per minute			
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters			
Components with limit values that require monitoring at the workplace: Not required. Additional information: No data			
Exposure controls			
Personal protective equipment General protective and hygienic mea	Isures		
The usual precautionary measures for I Keep away from foodstuffs, beverages	handling chemicals should be followed. and feed		
Remove all soiled and contaminated clothing immediately.			
Wash hands before breaks and at the e Maintain an ergonomically appropriate	working environment.		
Breathing equipment: Use suitable re- Protection of hands:	spirator when high concentrations are present.		
Impervious gloves	se for their proper condition		
The selection of suitable gloves not onl	se for their proper condition. y depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.		
Penetration time of glove material (in Eye protection: Safety glasses	n minutes) Not determined		
Body protection: Protective work cloth	ning.		
9 Physical and chemical propertie	s		
Information on basic physical and ch General Information	nemical properties		
Appearance:	Douider		
Form: Color:	Powder Off-white		
Odor: Odor threshold:	Not determined Not determined.		
pH-value:	Not applicable.		
Change in condition			
Melting point/Melting range: Boiling point/Boiling range:	Not determined Not determined		
Sublimation temperature / start: Flammability (solid, gaseous)	Not determined Not determined.		
Ignition temperature:	Not determined		
Decomposition temperature: Auto igniting:	Not determined Not determined.		
Danger of explosion:	Product does not present an explosion hazard.		
Explosion limits: Lower:	Not determined		
Upper: Vapor pressure:	Not determined Not applicable.		
Density:	Not determined		
Relative density Vapor density	Not determined. Not applicable.		
Evaporation rate Solubility in / Miscibility with	Not applicable.		
Water:	Not determined		
Partition coefficient (n-octanol/water): Not determined. Viscosity:			
dynamic: kinematic:	Not applicable. Not applicable.		
Other information	No further relevant information available.		
10 Stability and reactivity			
10 Stability and reactivity Reactivity No information known.			
Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.			
Possibility of hazardous reactions N	o dangerous reactions known		
Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents			
Hazardous decomposition products:			

Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides

(Contd. on page 3)

Product name: N-Fmoc-L-beta-homophenylalanine

Possibly Hydrogen cyanide (HCN)	(Contd. of page 2)	
11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this mate. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute	n.	
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governm Do not allow undiluted product or large quantities to reach ground water, water of Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.	nental permits. course or sewage system.	
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	disposal.	
14 Transport information Not a hazardous material for transportation.		
UN-Number DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA	None	
Transport hazard class(es)		
DOT, ADR, IMDG, IATA Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	e Not applicable.	
Transport/Additional information:	Not dangerous according to the above specifications.	
DOT Marine Pollutant (DOT):	No	
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements Not applicable Hazard pictograms Not applicable Hazard statements Not applicable Hazard statements Not applicable National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial Jurposes or in formulations for commercial purposes. SARA Section 313 (specific toxic chemical listings) Substance is not listed. Prop 65 - Obvelopmental toxicity, substance is not listed. Prop 65 - Developmental toxicity, substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Prop 65 - Developmental toxicity and Substance is not listed. Information about limitations of use: For use only by technically qu		

market and use must be observed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

Product name: N-Fmoc-L-beta-homophenylalanine
