

	011 Uale 06/24/2010
1 Identification	
Product identifier	
Product name: <u>7-Benzyloxyindole</u> Stock number: H25776	
CAS Number:	
20289-27-4 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Details of the supplier of the safety data sheet Manufacturer/Supplier:	
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street	
Ward Hill, MA 01835-8099 Tel: 800-343-0660	
Fax: 800-342-4757 Email: tech@alfa.com	
www.alfa.com	
Information Department: Health, Safety and Environmental Department Emergency telephone number: During neurol business hours, (Mendou Friday, Sam Zam EST), coll (200) 242,0660, After normal business hours, coll Correspond 24 of (266) 228	0700
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-	0789.
2 Hazard(s) identification	
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified as hazardous according to 29 CFR 1910 (OSHA GHS).	
Hazards not otherwise classified No information known.    Label elements	
GHS label elements Not applicable	
Hazard pictograms Not applicable Signal word Not applicable	
Hazard statements' Not applicable WHMIS classification Not controlled	
Classification system HMIS ratings (scale 0-4)	
(Hazardous Materials Identification System)	
HEALTH I Health (acute effects) = 1 FIRE I Flammability = 1	
REACTIVITY Physical Házard = 1 Other hazards	
Results of PBT and vPvB assessment PBT: Not applicable.	
vPvB: Not applicable.	
3 Composition/information on ingredients	
Chemical characterization: Substances	
CAS# Description: 20289-27-4 7-Benzyloxyindole	
4 First-aid measures	
Description of first aid measures After inhalation	
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
After skin contact	
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.	
Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.	
Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
Carbon monoxide and carbon dioxide Nitrogen oxides (NOx)	
Advice for firefighters Protective equipment:	
Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures Personal precautions, protective equipment and emergency procedures	
Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
<b>Environmental precautions:</b> Do not allow material to be released to the environment without proper governmental permits.	
Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required. Procession of a other continuous and the second se

See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.	(Contd. on page 2)

### Product name: 7-Benzyloxyindole

See Section 13 for disposal information.

## 7 Handling and storage

Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from air. Store away from oxidizing agents. **Further information about storage conditions:** 

Store under dry inert gas. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.

### 8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

### Control parameters

Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data

### Exposure controls

Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves

### Impervious gloves

Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined

Eye protection: Safety glasses Body protection: Protective work clothing.

### 9 Physical and chemical properties

Information on basic physical and chemical properties General Information Appearance: Form: Crystalline powder Odor: Not determined. pH-value: Not applicable. Change in condition Metling point/Metling range: 70-74 °C (158-165 °F) Boiling point/Boiling range: Not determined Sublimation temperature / start: Not determined Flash point: Not applicable. Flash point: Not applicable Flash point: Not applicable Flash point: Not applicable Jecomposition temperature / start: Not determined Jecomposition temperature / start: Not determined Jecomposition temperature / start: Not determined Jecomposition temperature: Not determined Auto igniting: Not determined Jecomposition temperature: Not determined Auto igniting: Not determined Lower: Not determined Vot determined Vot determined Vot determined Vot determined Vot determined Vot determined Vot determined Vot determined Not determined Not determined Sublimation temperature: Not determined Auto igniting: Not determined Vot determined Vot gamined Vot gamined Vot applicable. ### 10 Stability and reactivity

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents

Product name: 7-Benzyloxyindole	
<b>Conditions to avoid</b> No further relevant information available. Incompatible materials: Oxidizing agents Air Hazardous decomposition products: Nitrogen oxides Carbon monoxide and carbon dioxide	(Contd. of page 2
11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and Carcinogenic categories	d chronic toxicity of this substance is not fully known.
OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed	d
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper government Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.	tal permits.
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disp	posal.
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.
