

Safety Data Sheet per OSHA HazCom 2012

Product name: 2,4,5-Tribromoimidazole

(Contd. of page 1)

	(Contd. of page 1)
4 First-aid measures	
Description of first aid measures General information	
Immediately remove any clothing soiled by the product. In case of irregular breathing or respiratory arrest provide artificial respiration.	
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
After skin contact Immediately wash with water and soap and rinse thoroughly.	
Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.	
After swallowing Do not induce vomiting; immediately call for medical help. Information for doctor	
Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx)	
Hydrogen bromide (HBr) Advice for firefighters	
Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.	
Ensure adequate vertilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13.	
Ensure adequate ventilation.	
Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling	
See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handling Precautions for safe handling	
Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace.	
Information about protection against explosions and fires: No information known.	
Conditions for safe storage, including any incompatibilities Storage	
Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents.	
Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data	
Exposure controls Personal protective equipment	
General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed.	
Remove all solled and contaminated clothing immediately.	
Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment.	
Protection of hands:	
Impervious gloves Check protective gloves prior to each use for their proper condition.	
The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection: Safety glasses	
Body protection: Protective work clothing.	USA (Contd. on page 3)

9 Physical and chemical properties			
Information on basic physical and chemical properties General Information			
Appearance:			
Form: Color:	Powder Tan		
Odor: Odor threshold:	Not determined Not determined.		
pH-value:	Not applicable.		
Change in condition			
Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	208-212 °C (406-414 °F) Not determined Not determined		
Flash point:	Not applicable		
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined		
Decomposition temperature: Auto igniting:	Not determined Not determined.		
Danger of explosion:	Product does not present an explosion hazard.		
Explosion limits: Lower:	Not determined		
Upper:	Not determined		
Vapor pressure: Density:	Not applicable. Not determined		
Relative density Vapor density	Not determined. Not applicable.		
Evaporation rate Solubility in / Miscibility with	Not applicable.		
Water:	Not determined		
Partition coefficient (n-octanol/water): Viscosity:	Not determined.		
dynamic: kinematic:	Not applicable. Not applicable.		
Other information	No further relevant information available.		
Conditions to avoid No further relevant Incompatible materials: Oxidizing agen Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen bromide			
11 Toxicological information Information on toxicological effects Acute toxicity: Fatal if swallowed.			
LD/LC50 values that are relevant for c	lassification:		
Oral LD50 >40 mg/kg (gerbil) 40 mg/kg (mouse)			
34 mg/kg (mouse) 34 mg/kg (rat)			
Skin irritation or corrosion: Causes sk Eye irritation or corrosion: Causes ser	in irritation.		
Sensitization: No sensitizing effects kno	wn.		
Germ cell mutagenicity: No effects kno Carcinogenicity: No classification data	on carcinogenic properties of this material is available from the EPA. IARC. NTP. OSHA or ACGIH.		
Reproductive toxicity: No effects know. Specific target organ system toxicity -	repeated exposure: No effects known.		
Specific target organ system toxicity -	single exposure: May cause respiratory irritation.		
The Registry of Toxic Effects of Chemica Behavioral - tremor.	I Substances (RTECS) reports the following effects in laboratory animals:		
Behavioral - somnolence (deneral depres	Behavioral - somnolence (general depressed activity).		
Lungs, Thorax, or Respiration - respirato Nutritional and Gross Metabolic - body te Additional toxicological information:	in perature increase. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.		
	a the sect of our informedge the dedice and enrolling to this dubitation to not fully known.		
12 Ecological information			
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available.			
Bioaccumulative potential No further relevant information available.			
Mobility in soil No further relevant information available. Additional ecological information:			
General notes: Do not allow material to be released to the environment without proper governmental permits.			
Do not allow undiluted product or large quantities to reach ground water, water course or sewage system.			
Avoid transfer into the environment. Results of PBT and vPvB assessment			
PBT: Not applicable. vPvB: Not applicable.			
Other adverse effects No further releva	nt information available.	USA
