

#### Safety Data Sheet per OSHA HazCom 2012

## Product name: (S)-(+)-2-(6-Methoxy-2-naphthyl)propionic acid

(Contd. of page 1)

	(Contd. of page 1)
4 First-aid measures Description of first aid measures After inhalation	
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. <b>After skin contact</b> Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.	
Indication of any immediate medical attention and special freatment needed No further relevant information available. 5 Fire-fighting measures	
Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Protective equipment: Wear self-contained respirator.	
Wear fully protective impervious suit.	
6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Ensure adequate ventilation.	
<i>Prevention of secondary hazards:</i> No special measures required. <i>Reference to other sections</i> See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known.	
Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from strong bases. Store away from oxidizing agents.	
Store away from oxidizing agents. <i>Further information about storage conditions:</i> Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. <i>Specific end use(s)</i> No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data	
Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work.	
Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. <b>Breathing equipment:</b> Use suitable respirator when high concentrations are present. <b>Recommended filter device for short term use:</b> Use a respirator with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to de overfine reconstructor on operands.	
Professional appropriate. Only use equipment tested and approved under appropriate government standards.	etermine if air-
Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Material of gloves Nitrile rubber, NBR Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses	
Eye protection: Safety glasses Body protection: Protective work clothing.

## Product name: (S)-(+)-2-(6-Methoxy-2-naphthyl)propionic acid

		(Contd. of page 2)
9 Physical and chemical properties		
Information on basic physical and che General Information Appearance:		
Form: Color: Odor:	Powder White Odorless	
Odor threshold:	Not determined.	
pH-value: Change in condition	Not applicable.	
Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	154-156 °C (309-313 °F) Not determined Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not applicable Not determined. Not determined Not determined Not determined.	
Danger of explosion:	Product does not present an explosion hazard.	
Explosion limits: Lower:	Not determined	
Upper: Vapor pressure:	Not determined Not applicable. Not determined	
Relative density	Not determined Not determined.	
Vapor density Evaporation rate	Not applicable. Not applicable.	
Solubility in / Miscibility with Water:	Insoluble	
Partition coefficient (n-octanol/water): Viscosity:		
dynamic: kinematic:	Not applicable. Not applicable.	
Other information	No further relevant information available.	
Conditions to avoid No further relevant Incompatible materials: Oxidizing agents Bases Hazardous decomposition products: (		
11 Toxicological information Information on toxicological effects Acute toxicity:		
Toxic if swallowed.	al Substances (RTECS) contains acute toxicity data for this substance.	
LD/LC50 values that are relevant for c		
Oral LD50 248 mg/kg (rat) Skin irritation or corrosion: Causes ski	in irritation.	
Carcinogenicity: No classification data of Reproductive toxicity: The Registry of Specific target organ system toxicity -	wn. f Toxic Effects of Chemical Substances (RTECS) contains mutation data for this substance. on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Toxic Effects of Chemical Substances (RTECS) contains reproductive data for this substance.	
Subacute to chronic toxicity: The Regi	istry of Toxic Effects of Chemical Substances (RTECS) contains multiple dose toxicity data for this substa To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	nce.
12 Ecological information Toxicity Aquatic toxicity: No further relevant info Persistence and degradability No furth Bioaccumulative potential No further re Mobility in soil No further relevant inforr Additional ecological information: General notes: Do not allow material to be released to th Do not allow undiluted product or large q Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further releval	er relevant information available. elevant information available. nation available. ne environment without proper governmental permits. uantities to reach ground water, water course or sewage system.	
13 Disposal considerations Waste treatment methods Recommendation Consult state, local o	r national regulations to ensure proper disposal.	(Contd. on page 4)
