

Safety Data Sheet per OSHA HazCom 2012

Product name: 4-(1-Pyrrolidinyl)pyridine

(Contd. of page 1)

	(Contd. of page 1)
4 First-aid measures	
Description of first aid measures General information	
Immediately remove any clothing soiled by the product.	
In case of írregular breáthing or respiratory arrest provide artificial respiration. After inhalation	
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
After skin contact Immediately wash with water and soap and rinse thoroughly.	
Seek immédiate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Do not induce vomiting; immediately call for medical help.	
Information for doctor Most important symptoms and effects, both acute and delayed	
Causes severe skin burns. Causes serious eve damage.	
Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media	
Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
Carbon monoxide and carbon dioxide	
Nitrogen oxides (NOx) Advice for firefighters	
Protective equipment: Wear self-contained respirator.	
Wear fully protective impervious suit.	
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.	
Ensure adequate ventilation	
Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up:	
Use neutralizing agent. Dispose of contaminated material as waste according to section 13	
Ensure adequate ventilation. Prevention of secondary hazards: No special measures required.	
Reference to other sections	
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
7 Handling and storage	
Handling Precautions for safe handling	
Keep container tightly sealed.	
Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known.	
Conditions for safe storage, including any incompatibilities	
Storage	
Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents.	
Further information about storage conditions: Keep container tightly sealed.	
Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems:	
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace: Not required.	
Additional information: No data	
Exposure controls Personal protective equipment	
General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed.	
Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately.	
Wash hands before breaks and at the end of work	
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment.	
Dreating equipment. Ose suitable respirator when high concentrations are present. Protection of hands:	
Impervious gloves Check protective gloves prior to each use for their proper condition.	
The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection:	
Tightly sealed goggles Full face protection	
Body protection: Protective work clothing.	USA

9 Physical and chemical properties	S	
Information on basic physical and ch	nemical properties	
General Information Appearance:		
Form:	Crystalline	
Color: Odor:	Pale yellow Not determined	
Odor threshold:	Not determined.	
pH-value:	Not applicable.	
Change in condition		
Melting point/Melting range: Boiling point/Boiling range:	54-58 °C (129-136 °F) 171-173 °C (340-343 °F) (21mm Hg`)	
Sublimation temperature / start:	Not determined	
Flash point:	Not applicable	
Flammability (solid, gaseous)	Not determined.	
Ignition temperature: Decomposition temperature:	Not determined Not determined	
Auto igniting:	Not determined.	
Danger of explosion:	Product does not present an explosion hazard.	
Explosion limits: Lower:	Not determined	
Upper:	Not determined	
Vapor pressure: Density:	Not applicable. Not determined	
Relative density	Not determined.	
Vapor density Evaporation rate	Not applicable. Not applicable.	
Solubility in / Miscibility with		
Water at 20 °C (68 °F): Partition coefficient (n-octanol/water	3 g/l): Not determined	
Viscosity:		
dynamic: kinematic:	Not applicable. Not applicable.	
Other information	No further relevant information available.	
10 Stability and reactivity		
Reactivity No information known.		
Chemical stability Stable under recom Thermal decomposition / conditions	nmended storage conditions. to be avoided: Decomposition will not occur if used and stored according to specifications.	
Possibility of hazardous reactions N	o dangerous reactions known	
Possibility of hazardous reactions N Conditions to avoid No further relevan Incompatible materials: Oxidizing age	nt information available.	
Hazardous decomposition products:	1115	
Carbon monoxide and carbon dioxide Nitrogen oxides		
Nill ogen oxides		
11 Toxicological information		
Information on toxicological effects		
Acute toxicity: Fatal if swallowed.		
Swallowing will lead to a strong corrosiv	<i>ve effect on mouth and throat and to the danger of perforation of esophagus and stomach.</i> classification: No data	
LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s	classification: No data evere skin huras	
Eve irritation or corrosion: Causes se	erious eve damage	
Sensitization: No sensitizing effects kr Germ cell mutagenicity: No effects kn	nown.	
Carcinogenicity: No classification data	on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive toxicity: No effects know	wn. - repeated exposure: No effects known.	
Specific target organ system toxicity	- single exposure: No effects known.	
Specific target organ system toxicity Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect	ata known	
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity Aquatic toxicity: No further relevant in	formation available	
Persistence and degradability No further Bioaccumulative potential No further	ther relevant information available.	
Bioaccumulative potential No further Mobility in soil No further relevant info	relevant information available.	
Additional ecological information:		
General notes:	the environment without proper reversmental permits	
Do not allow undiluted product or large	the environment without proper governmental permits. quantities to reach ground water, water course or sewage system.	
Avoid transfer into the environment.		
Results of PBT and vPvB assessmer PBT: Not applicable.	n.	
vPvB: Not applicable.	ant information quallella	
Other adverse effects No further relev		
13 Disposal considerations		
Waste treatment methods		
	or national regulations to ensure proper disposal.	
Recommendation: Disposal must be n	nade according to official regulations.
