

# Safety Data Sheet per OSHA HazCom 2012

1	l Identification Product identifier	
	Product name: <u>Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine</u> Stock number: H62268	
	CAS Number: 2480-93-5	
	Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
	Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar	
	Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street	
	Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757	
	Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com	
	Information Department: Health, Safety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0 During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660.	0789.
2	? Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	
	Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS). Hazards not otherwise classified No information known.	
	Label elements GHS label elements Not applicable Hazard nictograms Not applicable	
	Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable	
	WHMIS classification Not controlled Classification system	
	HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
	Image: International product of the constraint of the	
	Other hazards Results of PBT and vPvB assessment	
	PBT: Not applicable. vPvB: Not applicable.	
3	3 Composition/information on ingredients Chemical characterization: Substances	
3		
	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures	
	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation	
	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly.	
	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.	
	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.	
4	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
4	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Fire-fighting measures Extinguishing media	
4	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
4	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine <b>First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Information of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide	
4	Chemical characterization: Subtances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply firsh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After shin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Secial hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator.	
4	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After sys contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Situes extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator.	
4	Chemical characterization:       Substances         CAS# Description:       2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine         IFirst-aid measures       Description of first aid measures         After skin char.       If required, provide artificial respiration. Keep patient warm.         Stepk immediate medical advice.       After skin contact         Immediate medical advice.       After skin skin.         After skin contact       Rinse opened eye for several minutes under running water. Then consult a doctor.         After skindlowing Seek medical treatment.       Information of doctor         Most important symptoms and effects, both acute and delayed No further relevant information available.       Indication of any immediate medical attention and special treatment needed No further relevant information available.         Fire-fighting measures       Extinguishing media         Extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture       If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide       Referestinghers         Probective equipment:	
4	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical advice. After swallowing Seek medical treatment. Information for doctor. Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Secting inspirating media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxide and carbon dioxide Nitrogen oxides (NOx) Advice for firefighters Protective equipment. Wear fully protective impervious suit. Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course.	
4	Chemical characterization: Substances CAS# Description: 2400-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special Aractor arbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special Aractor arbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special Aractor arbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special Aractor arbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Wear fully protective impervious suit. Acticental release measures Protective equipment: Wear sole-contained respirator. Wear offiction espirator. Wear fully protective eight protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventiliation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures	
4	Chemical characterization: Substances CAS# Description: 2480-93-5 Ndelta-Benzyloxycarbonyl-Nalpha-Boc-L-ornithine I First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After synchastic orthock is opened eye for several minutes under running water. Then consult a doctor. After synchastic orthock is opened eye for several minutes under running water. Then consult a doctor. After synchastic orthock is opened eye for several minutes under running water. Then consult a doctor. After synchastic orthock is opened eye for several minutes under running water. Then consult a doctor. After synchastic orthock is opened eye for several minutes under running water. Then consult a doctor. After synchastic orthock is opened eye for several minutes under running water. Then consult a doctor. After synchastic of any immediate medical attention and special treatment needed No further relevant information available. Information of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in fire, the following can be released: Carbon moxide and carbon dioxide. Nitrogen oxides (NOX) Avidee for printerity frees Wear fully protective impervious suit. Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprolected persons away. Ensure adequate venitiation Environmenta	(Contd. on page 2)

See Section	13 for dispos	al information.

See Section 13 for disposal information.		(Conta: or page 1)			
7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.					
Additional information about design Properly operating chemical fume hood Control parameters Components with limit values that re The product does not contain any releva	<b>Components with limit values that require monitoring at the workplace:</b> The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.				
Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eve protection: Protection: Protective work clothing.					
9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Solid Odor: Not determined					
Odor threshold:	Not determined.				
pH-value: Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not applicable. Not determined Not determined Not determined. Not determined Not determined Not determined. Not determined.				
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water:	Not determined Not determined Not applicable. Not applicable. Not determined Not determined. Not applicable. Not applicable. Not determined				
Partition coefficient (n-octanol/water) Viscosity: dynamic: kinematic: Other information	Not determined Not applicable. Not applicable. No further relevant information available.				
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recom Thermal decomposition / conditions s Possibility of hazardous reactions Re Conditions to avoid No further relevan Incompatible materials: Oxidizing age Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides	t information available.	(Contd on page 3)

11 Toxicological information	
Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Germ cell mutagenicity: No effects known. Garcinogenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known	
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable.	
vPvB: Not applicable. Other adverse effects No further relevant information available.	
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	
14 Transport information	
UN-Number	
DOT, ADN, IMDG, IATA Not applicable	
UN proper shipping name DOT, ADN, IMDG, IATA Not applicable	
Transport hazard class(es)	
DOT, ADR, ADN, IMDG, IATA Class Not applicable	
Packing group DOT, IMDG, IATA Not applicable	
Environmental hazards: Not applicable.	
Special precautions for user Not applicable.	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.	
Transport/Additional information:	
DOT	
Marine Pollutant (DOT): No	
UN "Model Regulation": -	
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. U to research and development only. This product must be used by or directly under the supervision of a technically qualified individual a product must not be used for commercial purposes or in formulations for commercial purposes. This product is not listed on the Canadian Domestic Substances List (DSL) or the Canadian Non-Domestic Substances List (NDSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed.
