

Safety Data Sheet per OSHA HazCom 2012

Product name: 4-Amino-3-methoxybenzoic acid (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses **Body protection:** Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Color: Powder Cream Odor: Not determined Odor threshold: Not determined pH-value: Not applicable Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: 186-188 °C (367-370 °F) Not determined Not determined Flash point: Not applicable Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Not determined. Not determined Not determined (Contd. on page 3)

Product name: A-Amino-3-methoxybonzoic acid

Reviewed on 04/30/2008		
Product name: 4-Amino-3-methoxy	/benzoic acid	!
		(Contd. of page 2)
Auto igniting:	Not determined.	
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.	1
Lower:	Not determined	I
Upper: Vapor pressure:	Not determined Not applicable.	I
Density: Relative density	Not determined Not determined.	1
Vapor density	Not applicable.	I
Evaporation rate Solubility in / Miscibility with	Not applicable.	1
Water:	Not determined	!
Partition coefficient (n-octanol/water, Viscosity:		ľ
dynamic: kinematic:	Not applicable. Not applicable.	1
Other information	Not applicable. No further relevant information available.	
10 Otability and reportivity		
10 Stability and reactivity Reactivity No information known.		
Chemical stability Stable under recom	mmended storage conditions. s to be avoided: Decomposition will not occur if used and stored according to specifications.	1
Thermal decomposition / conditions Possibility of hazardous reactions No	to be avoided: Decomposition will not occur it used and stored according to specifications. In dengerous reactions known	
Conditions to avoid No further relevan	ant information available.	
Incompatible materials: Oxidizing age Hazardous decomposition products:		
Carbon monoxide and carbon dioxide Nitrogen oxides		
-		
11 Toxicological information		
Information on toxicological effects Acute toxicity: No effects known.		1
LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s		
Eye irritation or corrosion: Causes se	serious eye irritation.	
Sensitization: No sensitizing effects kn Germ cell mutagenicity: No effects kn	rnown. nown.	
Carcinogenicity: No classification data	ta on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive toxicity: No effects know Specific target organ system toxicity	own. y - repeated exposure: No effects known.	,
Specific target organ system toxicity	y - single exposure: May cause respiratory irritation.	,
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect	ects known.	1
	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity		
Aquatic toxicity: No further relevant in Persistence and degradability No furt	rther relevant information available.	
Bioaccumulative potential No further	r relevant information available.	
Mobility in soil No further relevant info Additional ecological information:	ormation available.	
General notes:	o the environment without proper governmental permits.	
Do not allow undiluted product or large	o the environment without proper governmental permits. A quantities to reach ground water, water course or sewage system.	
Avoid transfer into the environment. Results of PBT and vPvB assessmen		
PBT: Not applicable. vPvB: Not applicable.		
Other adverse effects No further relev	vant information available.	
13 Disposal considerations		
Waste treatment methods		
	l or national regulations to ensure proper disposal.	
Recommendation: Disposal must be n	made according to official regulations.	
44 Transport information		
14 Transport information Not a hazardous material for transporta	ation.	
UN-Number DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA		
DOT, IMDG, IATA Transport hazard class(es)	None	
Transport hazard class(es) DOT, ADR, IMDG, IATA		
Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
	ex II of MARPOL73/78 and the IBC Code Not applicable.	
Transport/Additional information:	Not dangerous according to the above specifications.
