

Safety Data Sheet per OSHA HazCom 2012

Information for doctor

Product name: 2,6-Difluoro-3-methylbenzylamine

(Contd. of page 1)

Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes serious eve damage Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen cyanide (HCN) Hydrogen fluoride (HF) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. **Prevention of secondary hazards:** No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Reep container uging scares. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Store away from air. Further information about storage conditions: Store under dry inert gas. This product is air sensitive Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined Eye protection: Tightly sealed goggles Full face protection Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form:

Liquid

Product name: 2,6-Difluoro-3-methylbenzylamine

	(Contd. of pa
Color:	Colorless
Odor: Odor threshold:	Amine-like Not determined.
pH-value:	Not determined.
Change in condition	Not determined.
Melting point/Melting range:	Not determined
Boiling point/Boiling range:	Not determined
Sublimation temperature / start:	Not determined
Flash point: Flammability (solid, gaseous)	Not determined Not determined.
Ignition temperature:	Not determined
Decomposition temperature:	Not determined
Auto igniting:	Not determined.
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.
Lower:	Not determined
Upper: Vapor pressure:	Not determined Not determined
Density:	Not determined
Relative density	Not determined
Vapor density Evaporation rate	Not determined. Not determined.
Solubility in / Miscibility with	
Water: Partition coefficient (n-octanol/water	Not miscible or difficult to mix
Viscosity:). Not determined.
dynamic:	Not determined.
kinematic: Other information	Not determined. No further relevant information available.
Incompatible materials: Air Carbon dioxide Oxidizing agents Hazardous decomposition products. Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen fluoride Hydrogen cyanide	
1 Toxicological information	
LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s Eye irritation or corrosion: Causes s Sensitization: No sensitizing effects ki Germ cell mutagenicity: No effects ki Carcinogenicity: No classification data Reproductive toxicity: No effects kno Specific target organ system toxicity Specific target organ system toxicity Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects	severe skin burns. erious eye damage. nown. aown a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. wn. / - repeated exposure: No effects known. / - single exposure: No effects known.
12 Ecological information Toxicity	
Aquatic toxicity: No further relevant ir Persistence and degradability No fur Bioaccumulative potential No further Mobility in soil No further relevant info Additional ecological information: General notes:	relevant information available. ormation available. the environment without proper governmental permits. nt
13 Disposal considerations	
Waste treatment methods	or national regulations to ansure proper disposal
Uncleaned packagings:	or national regulations to ensure proper disposal.
Recommendation: Disposal must be r	nade according to official regulations.

Product name: 2,6-Difluoro-3-methylbenzylamine

	(Contd. of page 3)	
14 Transport information		
UN-Number DOT, IMDG, IATA	UN2735	
UN proper shipping name DOT	Amines, liquid, corrosive, n.o.s. (2,6-Difluoro-3-methylbenzylamine) AMINES, LIQUID, CORROSIVE, N.O.S. (2,6-Difluoro-3-methylbenzylamine)	
IMDG, IATA	AMINES, LIQUID, CORROSIVE, N.O.S. (2,6-Difluoro-3-methylbenzylamine)	
Transport hazard class(es) DOT		
Class	8 Corrosive substances.	
Label Class	8 8 (C7) Corrosive substances	
Label IMDG, IATA	8`´	
Class Label	8 Corrosive substances. 8	
Packing group DOT, IMDG, IATA	///	
Environmental hazards:	Not applicable.	
Special precautions for user Segregation groups	Warning: Corrosive substances Alkalis	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.		
Transport/Additional information:		
DOT Marine Pollutant (DOT):	No	
UN "Model Regulation":	UN2735, Amines, liquid, corrosive, n.o.s. (2,6-Difluoro-3-methylbenzylamine), 8, III	
Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms GHS05 Signal word Danger Hazard statements H314 Causes severe skin burns and eye damage. Precautionary statements P260 Do not breathe dust/tume/gas/mist/apours/spray. P303+P361+P353 IF on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P303+P361+P353 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P303+P361+P353 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P303+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P405 Store locked up. P406 Store locked up. P406 Store locked up. P400 Store locked up		
Chemical safety assessment: A Chemical Safety Assessment has not béen carried out. 16 Other information		
Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
