

Page 1/4 Printing date 06/23/2017 Revision date 06/21/2017 Version 1

1 Identification Product identifier
Product name: <u>Diisooctyl phthalate</u> Stock number: H60185
CAS Number: 27554-26-3 EC number: 248-523-5
Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar
Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Hill, MA 01835-8099
Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com
Information Department: Health, Safety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified as hazardous according to 29 CFR 1910 (OSHA GHS). Hazards not otherwise classified No information known.
Label elements GHS label elements Not applicable Hazard pictograms Not applicable
Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable WHMIS classification Not controlled Classification system
HMIS ratings (scale 0-4) (Hazardous Materials Identification System) HEALTH Health (acute effects) = 1
FIRE I REACTVITY Physical Hazard = 1
Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.
3 Composition/information on ingredients Chemical characterization: Substances
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description:
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate Concentration: ≤100% Identification number(s): EC number: 248-523-5 4 First-aid measures
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate Concentration: ≤100% Identification number(s): EC number: 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate Concentration: ≤100% Identification number(s): EC number: 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate Concentration: \$100% Identification number(s): EC number: 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate Concentration: ≤100% Identification number(s): EC number: 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediately wash with water and soap and rinse thoroughly.
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate Concentration: <100% Identification number(s): EC number: 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After exallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Disooctyl phthalate Concentration: \$100% Identification number(9): EC number: 248-253-5 4 First-aid measures Description of first aid measures After shire shari. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical reatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any Immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting media Sutable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Dissocityl phthalate Concentration: s100% Identification number(s): EC number: 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek Immediate medical advice. After shin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water running water event information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. S
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26-3 Diisooctyl phthalate Concentration: <100% Identification number(s): EC number: 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under event information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting media Suitable extinguishing ag
3 Composition/information on ingredients Chemical characterization: Substances CASH Description: 27554-26-3 Dissocity phthalate Concentration: S100% Identification number(s): EC number: 248-523-5 Personalistion number(s): Supply fresh air: If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin dowing Seek medical treatment. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant i
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 7 Code-22: Dissocry(b)(hthelate Vertification number(s): EC number 248-523-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek Immediate medical advice. After skin contact Meet inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek Immediate medical advice. After skin contact Meet skin work and the contact Meet skin c
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 27554-26.3 Dissoctly phthalate Concentration: s100% Usernition number(s): EC number: 248-23-3 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After swin contact Immediately wash with water and scap and rinse thoroughly. Seek immediate medical advice. After swin contact Immediate medical advice. After swin contact Immediately wash with water and scap and rinse thoroughly. Seek immediate medical advice. After swin contact Immediate medical advice. After swe contact Rhise opened eye for several minutes under running water. Then consult a doctor. After sweldowing Seek medical treatment. Information for doctor Immediate medical advice, After sweldowing Seek medical treatment. Information of any immediate medical attention and special freatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Sultable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a tire, the following can be released: Carbon moxite and carbon dioxide Advice for firefighters Protective equipment: Wear protective lengthment. Keen Unprotected persons away.

Product name: Diisooctyl phthalate

Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. Protective Action Criteria for Chemicals PAC-1: Substance is not listed. PAC-2: Substance is not listed. PAC-3: Substance is not listed.

7 Handling and storage

Handling Precautions for safe handling

Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Information about protection against explosions and fires: No information known.

Conditions for safe storage, including any incompatibilities

Storage

Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions:

Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Control parameters Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data

Exposure controls

Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment:

Maintain an eigenoment: Use suitable respirator when high concentrations are present. Use suitable respiratory protective device in case of insufficient ventilation. Recommended filter device for short term use: Use a respirator with multi-purpose combination (US) or type ABEK (EN 14387) as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards such as NIOSH (USA) or CEN (FL) CEN (EU). Protection of hands:

Impervious gloves Check protection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses with side shields / NIOSH (US) or EN 166(EU) **Body protection:** Protective work clothing.

9 Physical and chemical properties

3 i nysicai and chennical properties		
Information on basic physical and ch General Information Appearance:	nemical properties	
Form:	Liquid	
Odor:	Not determined	
Odor threshold:	Not determined.	
pH-value:	Not determined.	
pn-value.	Not determined.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not determined Not determined Not determined 390 °C (734 °F) Not determined Not determined	
	Not determined	
Danger of explosion:	Not determined.	
Explosion limits:		
Lower:	0.26 Vol %	
Upper:	2.7 Vol %	
Vapor pressure:	Not determined	
Density at 20 °C (68 °F):	0.983 g/cm³ (8.203 lbs/gal)	
Relative density	Not determined.	
Vapor density	Not determined.	
Evaporation rate	Not determined.	
Solubility in / Miscibility with		
Water:	Not determined	
Partition coefficient (n-octanol/water)		
Viscosity:		
dynamic:	Not determined.	
kinematic:	Not determined.

11 Toxicological information Information on toxicological effects Acute toxicity: The Registry of Toxic Effects of Chemical Substances LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects Aspiration hazard: No effects known.	f this material is available from the EPA, IARC, NTP, OSHA or ACGIH. fects known.	
Aspiration nazard. No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge	" I have a finite of this substance is not fully known	
 12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Mobility in soil No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without prope Do not allow undiluted product or large quantities to reach ground wat Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. VPvB: Not applicable. Other adverse effects No further relevant information available. 13 Disposal considerations 	er governmental permits.	
Waste treatment methods Recommendation Consult state, local or national regulations to ensu Uncleaned packagings: Recommendation: Disposal must be made according to official regul
