

Safety Data Sheet per OSHA HazCom 2012

1	1 Identification	
	Product identifier Product name: <b>N-Boc-L-alanine methyl ester</b>	
	Stock number: H62271	
	CAS Number: 28875-17-4 Polostic description of the substance on mixture and uses a duised ensingt	
	Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
	Details of the supplier of the safety data sheet Manufacturer/Supplier:	
	Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street	
	Ward Hill, MA 01835-8099	
	Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com	
	www.alfa.com Information Department: Health, Safety and Environmental Department	
	Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928	-0789.
2	2 Hazard(s) identification	
_	Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS).	
	Hazards not otherwise classified No information known.	
	Label elements GHS label elements Not applicable	
	Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable	
	WHMIS classification Not applicable Classification system	
	HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
	HEALTH I Health (acute effects) = 1	
	File     File       Image: State of the state of	
	Other hazards Results of PBT and vPvB assessment	
	PBT: Not applicable. vPvB: Not applicable.	
3	3 Composition/information on ingredients	
3	Chemical characterization: Substances CAS# Description:	
	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester	
	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures	
	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation	
	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact	
	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester <b>4 First-aid measures</b> <b>Description of first aid measures</b> After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.	
4	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
4	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures Extinguishing media	
4	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture	
4	Chemical characterization: Substances CA\$# Description: 28875-17-4 N-Boc-L-alanine methyl ester <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
4	Chemical characterization: Substances CA\$# Description: 28875-17-4 N-Boc-L-alanine methyl ester <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Notrogen oxides (NOx) Advice for lirefighters	
4	Chemical characterization: Subtances CASH Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator.	
4	Chemical characterization: Substances CASH Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After es vecontact finse opened eye for several minutes under running water. Then consult a doctor. After eye contact finse opened eye for several minutes under running water. Then consult a doctor. After eye contact finse opened eye for several minutes under running water. Then consult a doctor. After eye contact finse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. S Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
4	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boc-L-alanine methyl ester  4 First-aid measures Description of first aid measures After skin contact Immediate medical advice. Immediate medical advice. After skin contact Immediate medical advice. After skin portant symptoms and effects, both acute and delayed No further relevant information available. Imdication of any Immediate medical attention and special treatment needed No further relevant information available. Immediate medical advice or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with	
4	Chemical characterization: Substances CAS# Description: 28875-17-4 N-Boct-Jalanine methyl ester 4 First-aid measures Description of first aid measures After skin ari. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skinlowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any Immediate medical attention and special treatment needed No further relevant information available. Indication of any Immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxides and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adeuate veniliation	
4	Chemical characterization: Substances CASH Description: 28875-17-4 N-Boc-L-alanine methyl ester 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After se voltact Rinse opened eye for several minutes under running water. Then consult a doctor. After seventate Tinse opened eye for several minutes under running water. Then consult a doctor. After seve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After seve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After seve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After synalowing Seek medical treatment. Information for doctor. So period and the medical attention and special freatment needed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. So Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxide and carbon dioxide Nitrogen oxides (NOX) Advice for interlighters Protective equipment. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Ensure adequate ventilation Environmental precautions: No special depresons away. Ensure adequate ventilation Environmental precautions: No special measures Methy protective equipment and emergency procedures Methy protective equipment. Environmental precautions: No special measures required.	(Contd. on page 2)

## Product name: N-Boc-L-alanine methyl ester

See Section 13 for disposal information.

7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed.					
Store in cool, dry place in tightly closed containers.					
, ,	Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities				
Storage					
Information about storage in one con	Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents.				
Further information about storage conditions: Keep container tightly sealed.					
Store in cool, dry conditions in well sealed containers. <b>Specific end use(s)</b> No further relevant information available.					
8 Exposure controls/personal protection					
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.					
Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data					
Exposure controls					
Personal protective equipment General protective and hygienic measures					
The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed.					
Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work					
Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present.					
Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if a					
purifying respirators are appropriate. Or Protection of hands:	nly use equipment tested and approved under appropriate government standards.				
Thervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition.					
I he selection of suitable gloves not only	depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.				
Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing.					
9 Physical and chemical properties Information on basic physical and chemical properties					
General Information Appearance:					
Form: Color:	Powder White				
Odor: Odor threshold:	Not determined Not determined				
pH-value:	Not determined.				
Change in condition					
Melting point/Melting range: Boiling point/Boiling range:	32-35 °C (90-95 °F) Not determined				
Sublimation temperature / start: Flash point:	Not determined 113 ℃ (235 °F)				
Flammability (solid, gaseous)	Not determined.				
Ignition temperature: Decomposition temperature:	Not determined Not determined				
Auto igniting: Danger of explosion:	Not determined. Not determined.				
Explosion limits: Lower:	Not determined				
Upper:	Not determined				
Vapor pressure: Density at 20 °C (68 °F):	Not applicable. 1.03 g/cm <sup>3</sup> (8.595 lbs/gal)				
Relative density Vapor density	Not determined. Not applicable.				
Evaporation rate Solubility in / Miscibility with	Not applicable.				
Water: Partition coefficient (n-octanol/water)	Not determined : Not determined.				
Viscosity: dynamic:	Not applicable.				
kinematic: Other information	Not applicable. No further relevant information available.				
10 Stability and reactivity Reactivity No information known					

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents

(Contd. of page 1)

(Contd. on page 3) USA

Product name: N-Boc-L-alanine methyl ester				
Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides		(Contd. of page 2)		
Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effect Specific target organ system toxicity - single exposure: No effect Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known.	of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. effects known. ects known. ge the acute and chronic toxicity of this substance is not fully known.			
2 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. VPvB: Not applicable. Other adverse effects No further relevant information available.				
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.				
14 Transport information				
UN-Number DOT, ADN, IMDG, IATA	Not applicable			
UN proper shipping name				
DOT, ADN, IMDG, ĬATA Transport hazard class(es)	Not applicable			
DOT, ADR, ADN, IMDG, IATA Class	Not applicable			
Packing group DOT, IMDG, IATA	Not applicable			
Environmental hazards:	Not applicable.			
Special precautions for user	Not applicable.			
Transport in bulk according to Annex II of MARPOL73/78 and th	he IBC Code Not applicable.			
Transport/Additional information:				
DOT Marine Pollutant (DOT):	No			
UN "Model Regulation":	-			
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements Not applicable Hazard pictograms Not applicable Hazard statements Not applicable Hazard statements Not applicable National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. This product is not listed on the Canadian Domestic Substances List (DSL) or the Canadian Non-Domestic Substances List (NDSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed.				

Prop 65 - Developmental toxicity, tenale Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. Substance is not listed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. (Contd. on page 4)
