

## Safety Data Sheet per OSHA HazCom 2012

(Contd. on page 2)

# (Contd. of page 1) 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI) Hydrogen fluoride (HF) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear sully protective impervious suit Extinguishing media Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing. Exposure controls

#### Product name: 2-Chloro-5-fluorotoluene

(Contd. of page 2)

	(Contd. of pa	age z)
9 Physical and chemical properties	s	
Information on basic physical and ch		
General Information	iennear properues	
Appearance:		
Form:	Liquid	
Color:	Colorless	
Odor: Odor threshold:	Aromatic Not determined.	
pH-value:	Not determined.	
Change in condition		
Melting point/Melting range: Boiling point/Boiling range:	Not determined	
Sublimation temperature / start:	156-157 °C (313-315 °F) Not determined	
-		
Flash point: Flammability (solid, gaseous)	51 °C (124 °F) Not determined.	
Ignition temperature:	Not determined	
Decomposition temperature:	Not determined	
Auto igniting:	Not determined.	
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible.	
Explosion limits:		
Lower: Upper:	Not determined Not determined	
Vapor pressure:	Not determined	
Vapor pressure: Density at 20 °C (68 °F):	1.2 g/cm <sup>3</sup> (10.014 lbs/gal)	
Relative density	Not determined.	
Vapor density Evaporation rate	Not determined. Not determined.	
Solubility in / Miscibility with	not dotominou.	
Water:	Not miscible or difficult to mix	
Partition coefficient (n-octanol/water)	): Not determined.	
Viscosity: dynamic:	Not determined.	
kinematic:	Not determined.	
Other information	No further relevant information available.	
Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI) Hydrogen filuoride		
11 Toxicological information Information on toxicological effects		
Acute toxicity: No effects known. LD/LC50 values that are relevant for Skin irritation or corrosion: Causes s Eye irritation or corrosion: Causes se Sensitization: No sensitizing effects kr Germ cell mutagenicity: No effects kno Carcinogenicity: No classification date Reproductive toxicity: No effects kno Specific target organ system toxicity Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects	skin irritation. erious eye irritation. nown. own. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
12 Ecological information		
Toxicity Aquatic toxicity: No further relevant in Persistence and degradability No furt Bioaccumulative potential No further Mobility in soil No further relevant info Additional ecological information: General notes:	ther relevant information available. relevant information available. rmation available. the environment without proper governmental permits. <b>nt</b>	
13 Disposal considerations Waste treatment methods		
Recommendation Consult state, local or national regulations to ensure proper disposal.		
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.		
Recommendation: Disposal must be n	nade according to official regulations.

14 Transport information		
UN-Number		
DOT, IMDG, IATA	UN1993	
UN proper shipping name DOT IMDG, IATA	Flammable liquids, n.o.s. (2-Chloro-5-fluorotoluene) FLAMMABLE LIQUID, N.O.S. (2-Chloro-5-fluorotoluene)	
Transport hazard class(es)		
DOT		
· 🔶		
Class	3 Flammable liquids.	
Label Class	3 3 (E1) Elammable liquids	
Label IMDG, IATA	3 (F1) Flammable liquids 3	
· 🔶		
Class Label	3 Flammable liquids. 3	
Packing group DOT, IMDG, IATA	III	
Environmental hazards:	Not applicable.	
Special precautions for user EMS Number:	Warning: Flammable liquids F-E.S-E	
EMS Number: Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.		
Transport/Additional information:		
DOT		
Marine Pollutant (DOT):	No	
UN "Model Regulation":	UN1993, Flammable liquids, n.o.s. (2-Chloro-5-fluorotoluene), 3, III	
Signal word Warning Hazard statements   H226 Flammable liquid and vapour.   H315 Causes skin irritation.   H315 Causes skin irritation.   H315 Causes skin irritation.   H316 Causes serious eye irritation.   H317 Causes serious eye irritation.   H318 Causes serious eye irritation.   H319 Causes respiratory irritation.   P261 Avoid breathing dust/fume/gas/mist/vapours/spray.   P280 Wear protective gloves.   P305+P351+P331 Fi IN EVES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.   National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for correctal purposes.   SARA Section 313 (specific toxic chemical listings) Substance is not listed.   Prop 65 - Chemicals known to cause cancer Substance is not listed.   Prop 65 - Developmental toxicity, famele Substance is not listed.   Prop 65 - Developmental toxicity, male Substance is not listed.   Prop 65 - Developmental toxicity, male Substance is not listed.   Prop 65 - Developmental toxicity, male Substance is		
Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out. 16 Other information
