3 Composition/information on ingredients Chemical characterization: Substances	I
CAS# Description: 33733-73-2 3-Bromothioanisole	
Concentration: ≤100% Identification number(s):	
EC number: 608-901-6	
4 First-aid measures	
Description of first aid measures	
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.	
Seek immediate medical advice. After skin contact	
Immediately wash with water and soap and rinse thoroughly.	Contd. on page 2)
	USA

(Contd. of page 1)

## Product name: 3-Bromothioanisole

Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Information for doctor Most important symptoms and effects, both acute and delayed Causes skin irritation. Causes serious eye irritation. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: If this product is involved in a fire, the Carbon monoxide and carbon dioxide Sulfur oxides (SOx) Hydrogen bromide (HBr) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. Protective Action Criteria for Chemicalo Protective Action Criteria for Chemicals **PAC-1:** Substance is not listed. **PAC-2:** Substance is not listed. PAC-3: Substance is not listed 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Exposure controls
Personal protective equipment
General protective and hygienic measures
The usual precautionary measures for handling chemicals should be followed.
Keep away from foodstuffs, beverages and feed.
Remove all solied and contaminated clothing immediately.
Wash hands before breaks and at the end of work.
Avoid contact with the eyes and skin.
Maintain an ergonomically appropriate working environment.
Breathing equipment: Use suitable respirator when high concentrations are present.
Recommended filter device for short term use:
Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if airpurifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards.
Protection of hands:
Impervious gloves Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses with side shields / NIOSH (US) or EN 166(EU) **Body protection:** Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Solid (Contd. on page 3)

## Product name: 3-Bromothioanisole

Odor:         Not determined.           pH-value:         Not determined.           pH-value:         Not determined.           Change in condition         Melting point/Boiling range:         Not determined.           Boiling point/Boiling range:         Not determined.         Not determined.           Sublimation temperature / start:         Not determined.         Not determined.           Flash point:         >:10 ° (C > 20 ° F)         Flash point:         Not determined.           gecomposition temperature:         Not determined.         Not determined.           Danger of explosion:         Product does not present an explosion hazard.         Explosion limits:           Lower:         Not determined.         Not determined.           Vapor:         Not determined.         Not determined.           Vapor density         Not determined.         Not determined.           Vapor density         Not determined. Vapor density       Not applicable.         Evaporation rate       Not applicable.         Evaporation rate       Not applicable.         Viscosity:       Insoluble         Partition coefficient (n-octanol/water): Not determined.         Viscosity:       Not applicable.         dynamic:       Not applicable.         dynamic:       Not applicable.         dynamic:       Not applicable.         other information       Not urther relevant information available.         Other information known.       Chemical stability Stable under recommended storage conditions.         Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.         Possibility of hazardous reactions Reacts with strong oxidizing agents         Conditions to avoid No further relevant information available.         Incompatible materials: Coxidizing agents         Hazardous decomposition products:         Carbon monoxide and carbon dioxide         Hy				
Partition coefficient (n-octanol/water): Not determined.         Viscosity:       Not applicable.         dynamic:       Not applicable.         Other information       No further relevant information available. <b>10 Stability and reactivity</b> Reactivity No information known.         Chemical stability Stable under recommended storage conditions.         Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.         Possibility of hazardous reactions Reacts with strong oxidizing agents         Conditions to avoid No further relevant information available.         Incompatible materials: Oxidizing agents         Hazardous decomposition products:         Carbon monoxide and carbon dioxide         Hydrogen bromide         Sulfur oxides (SOx) <b>11 Toxicological information</b> Information on toxicological effects         Acute toxicity: No effects known.         LD/L C50 values that are relevant for classification: No data         Skin irritation or corrosion: Irritant to skin and mucous membranes.         Eye irritation or corrosion: Irritant geffect.				
Kinematic:       Not applicable.         Other information       No further relevant information available.         10 Stability and reactivity         Reactivity No information known.         Chemical stability Stable under recommended storage conditions.         Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.         Possibility of hazardous reactions Reacts with strong oxidizing agents         Hazardous decomposition products:         Carbon monoxide and carbon dioxide         Hydrogen bromide         Sulfur oxides (SOx)         11 Toxicological information         Information on toxicological effects         Acute toxicity: No effects known.         LD/LC50 values that are relevant for classification: No data         Skin irritation or corrosion: Irritant to skin and mucous membranes.         Eye irritation or corrosion: Irritating effect.				
Reactivity No information known.         Chemical stability Stable under recommended storage conditions.         Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.         Possibility of hazardous reactions Reacts with strong oxidizing agents         Conditions to avoid No further relevant information available.         Incompatible materials: Oxidizing agents         Hazardous decomposition products:         Carbon monoxide and carbon dioxide         Hydrogen bromide         Sulfur oxides (SOx) <b>11 Toxicological information</b> Information on toxicological effects  Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Irritant to skin and mucous membranes. Eye irritation or corrosion: Irritating effect.				
Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Irritant to skin and mucous membranes. Eye irritation or corrosion: Irritating effect.	Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Hydrogen bromide			
Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.				
12 Ecological information				
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Avoid transfer into the environment.				
Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.				
<b>13 Disposal considerations</b> Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.

## 15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms

Signal word Warning Hazard statements

H315 Causes skin irritation. H319 Causes serious eye irritation.

# H335 May cause respiratory irritation. Precautionary statements

Precautionary statements P261 Avoid breathing dust/fume/gas/mist/vapors/spray P280 Wear protective gloves / eye protection / face protection. P305+P351+P388 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P405 Store locked up.

- P501
  - Dispose of contents/container in accordance with local/regional/national/international regulations.

**National regulations**. **National regulations** This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. This product is not listed on the Canadian Domestic Substances List (DSL) or the Canadian Non-Domestic Substances List (NDSL).

This product is not listed on the Canadian Domestic Substances List (DSL) or the Canadian Non-Domestic Substances List (NDSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. The conditions of restrictions according to Article of and Annex XVI of the Regulation (EQ) is market and use must be observed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

### 16 Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
