

#### Safety Data Sheet per OSHA HazCom 2012

# Product name: 2-Aminomethyl-1-Boc-piperidine

	After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	(Contd. of page 1)			
	Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.				
5	Fire-fighting measures				
	Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.				
6	Accidental release measures				
	<b>Personal precautions, protective equipment and emergency procedures</b> Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation <b>Environmental precautions:</b> Do not allow material to be released to the environment without proper governmental permits. <b>Methods and material for containment and cleaning up:</b>				
	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation.				
	Prevention of secondary hazards: No special measures required. Reference to other sections				
	See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.				
7	See Section 13 for disposal information.				
	Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities				
	Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.				
8	Exposure controls/personal protection				
	Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters				
	<b>Components with limit values that require monitoring at the workplace:</b> The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. <b>Additional information:</b> No data				
	Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Contributed work of content in the end of work.				
	Do not inhale dust / smoke / mist. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves				
	Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. <b>Penetration time of glove material (in minutes)</b> Not determined <b>Eye protection:</b> Safety glasses <b>Body protection:</b> Protective work clothing.				
9 Physical and chemical properties					
	Information on basic physical and chemical properties General Information Appearance: Form: Liquid				
	Color: Cólorless to yellow				
	Odor threshold: Not determined.				
	pH-value: Not determined.	(0, ( )			

Page 3/5 Printing date 11/24/2015 Reviewed on 05/21/2012

Change in condition	N				
Melting point/Melting range:	Not determined				
Boiling point/Boiling range:	Not determined				
Sublimation temperature / start:	Not determined				
Elash point:	> 110 °C (> 230 °F)				
Flammability (solid, gaseous)	Not determined.				
gnition temperature:	Not determined				
Decomposition temperature:	Not determined				
Auto igniting:	Not determined.				
Danger of explosion:	Not determined.				
Explosion limits:					
Lower:	Not determined				
Upper:	Not determined				
Vapor pressure:	Not determined				
Density at 20 °C (68 °F):	1.012 g/cm³ (8.445 lbs/gal)				
Relative density	Not determined.				
Vapor density	Not determined.				
Evaporation rate	Not determined.				
Solubility in / Miscibility with					
Water:	Not determined				
Partition coefficient (n-octanol/water	): Not determined.				
Viscosity:					
dynamic:	Not determined.				
kinematic:	Not determined.				
Other information	No further relevant information available.				
10 Stability and reactivity					
Reactivity No information known.					
Chemical stability Stable under recommended storage conditions.					
<b>Thermal decomposition / conditions to be avoided:</b> Decomposition will not occur if used and stored according to specifications.					
Possibility of hazardous reactions Reacts with strong oxidizing agents					
	Caulo Will Shully University and the				

Condutions to avoid No further relevant in Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides

### 11 Toxicological information

Information on toxicological effects Acute toxicity: Toxic if swallowed. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. 12 Ecological information

Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Ecotoxical effects: Remark: Very toxic for aquatic organisms Additional ecological information: General notes: Do not allow product to reach ground water, water course or sewage system. Do not allow material to be released to the environment without proper governmental permits. Danger to drinking water if even small quantities leak into the ground. Also poisonous for fish and plankton in water bodies. Avoid transfer into the environment. Very toxic for aquatic organisms Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.			
<b>13 Disposal considerations</b> <b>Waste treatment methods</b> <b>Recommendation</b> Consult state, local or national regulations to ensure proper disposal. <b>Uncleaned packagings:</b> <b>Recommendation:</b> Disposal must be made according to official regulations.
