

Safety Data Sheet per OSHA HazCom 2012

Reviewed on 05/16/2014
1 Identification
Product identifier
Product name: L-Glutamine tert-butyl ester hydrochloride
Stock number: H63868 CAS Number: 39741-62-3
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.
30 Bond Street
Ward Hill, MA 01835-8099 Tel: 800-343-0660
Fax: 800-322-4757
Email: tech@alfa.com www.alfa.com Information Department: Health, Safety and Environmental Department
Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS).
Hazards not otherwise classified No information known.
Label elements GHS label elements Not applicable
GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable
Hazard statements Not applicable WHMIS classification Not controlled
Classification system
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)
HEALTH I Health (acute effects) = 1 FIRE I Flammability = 1
FIRE 1 Flammàbility = 1 REACTIVITY Physical Hazard = 1
Other hazards
Results of PBT and vPvB assessment PBT: Not applicable.
vPvB: Not applicable.
2 Common stitism for most is a second state
3 Composition/information on ingredients

Chemical characterization: Substances CAS# Description:
Chemical characterization: Substances CA\$# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhalation
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.
Chemical characterization: Substances CA\$# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.
Chemical characterization: Substances CA\$# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek inmediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride First-aid measures Description of first aid measures After shalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After seven contact Immediate medical advice. After seven contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Fire-fighting measures Extinguishing media
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Information of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wirtogen oxides (NOx)
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride A First-aid measures Description of first aid measures After rinhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Seeking the extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Mitrogen childre (HCI) Hydrogen childre (HCI)
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After rinhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skindlowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Secial hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Mitrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator.
Chemical characterization: Substances CAS# Description: 39741-62: A L-Glutamine tert-butyl ester hydrochloride
Chemical characterization: Substances CAS# Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After rinhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skindlowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Secial hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Mitrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator.
Chemical characterization: Substances CASH Description: 39741-62-3 L-Giutamine terl-butyl ester hydrochloride First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After eskin contact Immediately wash with water and scap and rinse thoroughly. Seek immediate medical advice. After escontact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Estinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special haracter article article artificient extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special haracter artificient extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special haracter artificient extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special haracter artificial terben dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Mittigen oxides of firefighters Mittigen oxides (NOA) Mittigen oxides of firefighters Water for firefighters Firefighters firefighters Meas fully protective impervious suit. Branchister firefighters Firefighters firefighters Firefighters firefighters Firefighters firefighters Firefighters firefighters Firefighters firefighters Firefighters firefighters Firefighters firefighters Firefighters firefight
Chemical characterization: Substances CASt Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and scap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most Important Symptoms and effects, both acute and delayed No further relevant information available. Information any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Mitogen chloride (HCI) Advice for Interfighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator. Wear rolle-contained respirator. W
Chemical characterization: Substances CASE Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After sy school and solve opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Information of any immedicate medical attention and special freatment needed No further relevant information available. Information of any immedicate medical attention and special freatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture This product is involved in a fire, the following can be released: Carbon monxide and carbon dioxide. Nitrogen oxides (NOX) Hydrogen chorate (HCI) Advice for firefighters Protective equipment. Wear soli-contained respirator. Wear soli-contained respirator. Wear soli-contained respirator. Wear soli-contained respirator. Hydrogen chorate release measures Mear protective equipment. Mear and contained respirator. Hydrogen chorate (HCI) Actices for the substance or severes Mear protective equipment. Mear fully protective equipment and energency procedures Mear fully protective equipment. Mear fully protective equipment. Mear fully protective equipmen
Chemical characterization: Substances GASH Description: 39741-52-51-Glutamine tert-butyl ester hydrochloride First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Immediately wash with water and scap and rinse thoroughly. After skin contact Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Therefighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture I'this product is involved in the substance or mixture I'this product is involved in a fire, the following can be released: Water fully protective impervious suit. Sectional release measures Protective equipment: Wear soll-contained respirator. Wear fully protective impervious suit. Sectional release measures Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for con
Chemical characterization: Substances CASE Description: 39741-62-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After skin decida in the first and the medical restment. Information for totor Information for totor Information for totor Information for any immediate medical attention and special freatment needed No further relevant information available. Define-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Carbon monoxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Carbon monoxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Carbon monoxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Carbon monoxide (NCN) Hydrogen chloride (ICI) Advice for fiefighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator. Wear relic-contained respirator. Wear protective equipment. Aeep unprotected persons away. Ensure adequipte mit. Keep unprotected persons away. Ensure adequipte ventilation Environmental precautions: Don to allow product to reak ways esystem or any water course. Environmental precautions: Don to allow product to reak ways esystem or any water course. Environmental precautions:
Chemical characterization: Substances CASE Description: 39741-82-3 L-Glutamine tert-butyl ester hydrochloride 4 First-aid measures Description of first aid measures After inhaldion Supply fresh, ar: mequired, provide artificial respiration. Keep patient warm. Supply fresh, ar: mequired, provide artificial respiration. Keep patient warm. Supply fresh, ar: mequired, provide artificial respiration. Keep patient warm. Supply fresh, ar: mequired, provide artificial respiration. Keep patient warm. Supply fresh, ar: mequired, provide artificial respiration. Keep patient warm. Supply fresh, ar: medialed week. After stein contact Immedialely wash with water and soap and rinse thoroughly. Seek immediale medical ardivice. After seq contact Rinse opened eye for several minutes under running water. Then consult a doctor. After seve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After seve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After sevel contact Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical tatention and special treatment needed No further relevant linformation available. String-fighting measures Extinguishing media Suitable extinguishing opents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide. Nitrogen oxides (NOA) Nitrogen oxide

Product name: L-Glutamine tert-butyl ester hydrochloride Heat Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen chloride (HCI) 11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Sensitization or corrosion: May cause initiation Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. 12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other advance of state National Additional ecological information: Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods **Recommendation** Consult state, local or national regulations to ensure proper disposal.

Recommendation: Disposal must be made according to official regulations.

14 Transport information **UN-Number** DOT, ADN, IMDG, IATA Not applicable UN proper shipping name DOT, ADN, IMDG, IATA Not applicable Transport hazard class(es) DOT, ADR, ADN, IMDG, IATA Class Not applicable Packing group DOT, IMDG, IATA Not applicable Environmental hazards: Not applicable Special precautions for user Not applicable. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable. Transport/Additional information: DOT Marine Pollutant (DOT): No UN "Model Regulation":
