

Safety Data Sheet per OSHA HazCom 2012

# Product name: p-Xylylenebis(triphenylphosphonium bromide)

Information for doctor		(Contd. of page 1)	
Most important symptoms and effects	s, both acute and delayed No further relevant information available.		
Indication of any immediate medical attention and special freatment needed No further relevant information available.			
5 Fire-fighting measures			
Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.			
If this product is involved in a fire, the fo	Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:		
Carbon monoxide and carbon dioxide Phosphorus oxides			
Hydrogen bromide (HBr) Advice for firefighters			
Protective equipment: Wear self-contained respirator.			
Wear fully protective impervious suit.			
6 Accidental release measures			
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.			
Ensure adequate ventilation			
Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation.			
Prevention of secondary hazards: No Reference to other sections	special measures required.		
See Section 7 for information on safe has See Section 8 for information on person	andling al protection equipment.		
See Section 13 for disposal information.			
7 Handling and storage			
Handling Precautions for safe handling			
Keep container tightly sealed. Store in cool, dry place in tightly closed	containers		
Ensure good ventilation at the workplace.			
Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities			
Storage Requirements to be met by storeroon	ns and receptacles: No special requirements.		
Information about storage in one common storage facility: Store away from oxidizing agents.			
Store away from water/moisture.			
Further information about storage conditions: This product is hygroscopic.			
Keep container tightly sealed. Store in cool, dry conditions in well sealed.	Store under dry inert gas. Keep container tightly sealed.		
Protect from humidity and water.			
Specific end use(s) No further relevant information available.			
8 Exposure controls/personal prote			
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.			
Control parameters Components with limit values that require monitoring at the workplace: Not required.			
Additional information: No data Exposure controls			
Personal protective equipment	SUPAS		
General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed.			
Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately.			
Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.			
Maintain an ergonomically appropriate v Breathing equipment: Use suitable res	vorking environment. spirator when high concentrations are present.		
Protection of hands: Impervious gloves			
Check protective gloves prior to each us The selection of suitable gloves not only	se for their proper condition. / depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.		
Eye protection: Safety glasses Body protection: Protective work cloth			
9 Physical and chemical properties Information on basic physical and ch	Information on basic physical and chemical properties		
General Information Appearance:			
Form:	Powder		
Color: Odor:	White Odorless		
Odor threshold: pH-value:	Not determined. Not applicable.		
Change in condition			
Melting point/Melting range: Boiling point/Boiling range:	>300 °C (>572 °F) Not determined		
Sublimation temperature / start:	Not determined	(Contd. on page 3)	

(Contd. on page 3)

## Product name: p-Xylylenebis(triphenylphosphonium bromide)

Page 3/4 Printing date 11/24/2015 Reviewed on 01/27/2010

Product name: p-Xylylenebis(triphe	nylphosphonium bromide)		
	(Contd. of page 2)		
Flash point: Flammability (solid, gaseous)	Not applicable Not determined.		
Ignition temperature:	Not determined		
Decomposition temperature: Auto igniting:	Not determined Not determined.		
Danger of explosion:	Product does not present an explosion hazard.		
Explosion limits:			
Lower: Upper:	Not determined Not determined		
Vapor pressure: Density:	Not applicable. Not determined		
Relative density	Not determined.		
Vapor density Evaporation rate	Not applicable. Not applicable.		
Solubility in / Miscibility with			
Water: Partition coefficient (n-octanol/water,	Not determined ): Not determined.		
Viscosity:			
dynamic: kinematic:	Not applicable. Not applicable.		
Other information	No further relevant information available.		
10 Stability and reactivity			
Reactivity No information known.			
Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.			
Thermal decomposition / conditions Possibility of hazardous reactions No	to be avoided: Decomposition will not occur if used and stored according to specifications.		
Conditions to avoid No further relevan	nt information available.		
Incompatible materials: Oxidizing agents			
Oxidizing agents Water/moisture Hazardous decomposition products:			
Carbon monoxide and carbon dioxide			
Phosphorus oxides (e.g. P2O5) Hydrogen bromide			
11 Toxicological information			
Information on toxicological effects Acute toxicity: No effects known.			
LD/LC50 values that are relevant for			
Skin irritation or corrosion: Causes s			
Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known.			
Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.			
Reproductive toxicity: No effects known.			
Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation.			
Aspiration hazard: No effects known			
Subacute to chronic toxicity: Inorganic bromides may produce depression, emaciation and in severe cases, psychosis and mental deterioration. Bromoderma, a bromide rash, often occurs when			
Inorganic bromides may produce depression, emaciation and in severe cases, psychosis and mental deterioration. Bromoderma, a bromide rash, often occurs when bromide inhalation or administration is prolonged. This rash is usually found on the face and resembles acne and furunculosis. Subacute to chronic toxicity: No effects known.			
Subacute to chronic toxicity:			
Organic phosphorus compounds exhibit a wide range of toxicity. Most are skin and eye irritants with the more volatile also being respiratory irritants. Those exhibiting substantial water reactivity will have stronger irritating properties and may be corrosive enough to cause severe burns. Some organic phosphorus			
compounds are cholinesterase inhibitor can be highly paralytic.	exhibiting substantial water reactivity will have stronger irritating properties and may be corrosive enough to cause severe burns. Some organic phosphorus compounds are cholinesterase inhibitors. Symptoms associated with these include muscle twitching, convulsions, flaccid paralysis, coma, respiratory failure. They		
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.		
12 Ecological information			
Toxicity			
Aquatic toxicity: No further relevant information available			
Bioaccumulative potential No further	Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available.		
Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional conclosical information:			
Additional ecological information: General notes:			
Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system.			
Avoid transfer into the environment.			
Results of PBT and vPvB assessment PBT: Not applicable.			
vPvB: Not applicable. Other adverse effects No further relev.	vant information available		
13 Disposal considerations			
Waste treatment methods Recommendation Consult state, local	or national regulations to ensure proper disposal.		
Uncleaned packagings:			
Recommendation: Disposal must be n	nade according to official regulations.		
<b>14 Transport information</b> Not a hazardous material for transporta			
Not a hazardous material for transporta	tion. (Contd. on page 4)		

### Product name: p-Xylylenebis(triphenylphosphonium bromide)

	(Contd. of page 3	
UN-Number DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA	None	
Transport hazard class(es)		
DOT, ADR, IMDG, IATA Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.		
Transport/Additional information:	Not dangerous according to the above specifications.	
DOT Marine Pollutant (DOT):	No	

### 15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms

Signal word Warning Hazard statements

H315 Causes skin irritation. H319 Causes serious eye irritation

H335 May cause respiratory irritation. Precautionary statements

P280 Wear protective gloves. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 National regulations
 This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.
 SARA Section 313 (specific toxic chemical listings) Substance is not listed.
 California Proposition 65
 Prop 65 - Chemicals known to cause cancer Substance is not listed.
 Prop 65 - Developmental toxicity, female Substance is not listed.
 Prop 65 - Developmental toxicity, female Substance is not listed.
 Prop 65 - Developmental toxicity, male Substance is not listed.
 Prop 65 - Developmental toxicity, male Substance is not listed.
 Prop 65 - Developmental toxicity, male Substance is not listed.
 Prop 65 - Developmental toxicity, male Substance is not listed.
 Prop 65 - Developmental toxicity, formale Substance is not listed.
 Prop 65 - Developmental toxicity, formale Substance is not listed.
 Prop 65 - Developmental toxicity, formale Substance is not listed.
 Prop 65 - Developmental toxicity, formale Substance is not listed.
 Prop 65 - Developmental toxicity, formale Substance is not listed.
 Prop 65 - Developmental toxicity, formale Substance is not listed.
 Prop 65 - Developmental toxicity and the substance is not listed.
 Prop 65 - Developmental toxicity and the substance is not listed.
 Prop 65 - Developmental toxicity and the substance is not listed.
 Prop 65 - Developmen

market and use must be observed.

Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

### 16 Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
