

## Safety Data Sheet per OSHA HazCom 2012

(Contd. of page 1)

	(Contd. of page 1)
4 First-aid measures	
Description of first aid measures	
After inhalation Supply fresh air. If required, provide artificial respiration, Keen nationt warm	
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
After skin contact Immediately wash with water and soap and rinse thoroughly.	
Seek immediate medical advice	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.	
Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media	
Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.	
Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
Carbon monoxide and carbon dioxide Advice for firefighters	
Protective equipment:	
Wear self-contained respirator. Wear fully protective impervious suit.	
	i
6 Accidental release measures Personal precautions, protective equipment and emergency procedures	
Wear protective equipment. Keep unprotected persons away.	
Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.	
Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13.	
Ensure adequate ventilation.	
Prevention of secondary hazards: No special measures required. Reference to other sections	
See Section 7 for information on safe handling	
See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handling	
Precautions for safe handling	
Keep container tightly sealed. Ensure good ventilation at the workplace.	
Open and handle container with care.	
Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities	
Storage	
Requirements to be met by storerooms and receptacles: Store in freezer (-20 °C). Information about storage in one common storage facility:	
Protect from heat. Store away from oxidizing agents.	
Further information about storage conditions: Keep container tightly sealed. Specific end use(s) No further relevant information available.	
Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems:	I
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters	
Components with limit values that require monitoring at the workplace:	
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data	I
Exposure controls	
Personal protective equipment General protective and hygienic measures	
The usual precautionary measures for handling chemicals should be followed.	
The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately.	
Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the eyes and skin.	
Avoid contact with the eyes and skin.	
Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present.	
Protection of hands:	
Impervious gloves Check protective gloves prior to each use for their proper condition.	
The viola gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Even protection: Safety classes	
Body protection: Protective work clothing.	
9 Physical and chemical properties	
Information on basic physical and chemical properties General Information	
Appearance:	
Form: Powder Color: Yellow-orange

# Safety Data Sheet per OSHA HazCom 2012

# Product name: 13-cis-Retinoic acid

		(Cantel of page 2)
O da m	National Annual	(Contd. of page 2)
Odor: Odor threshold:	Not determined Not determined.	
pH-value:	Not applicable.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	172-175 °C (342-347 °F) Not determined Not determined Not determined Not determined Not determined Not determined Not determined.	
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water) Viscosity: dynamic: kinematic: Other information	Not determined. Not determined Not determined Not applicable. Not determined. Not applicable. Not determined Not determined. Not determined. Not determined. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable.	
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Heat Hazardous decomposition products: Carbon monoxide and carbon dioxide		

#### 11 Toxicological information

Information on toxicological effects

Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data

Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known.

Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: May damage fertility or the unborn child. The Registry of Toxic Effects of Chemical Substances (RTECS) contains reproductive data for this substance. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

### 12 Ecological information

Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available.

Additional ecological information: General notes:

Do not allow material to be released to the environment without proper governmental permits.

Do not allow unditated to be released to the environment without proper governmental permits. Do not allow unditated product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. **Results of PBT and vPvB assessment PBT:** Not applicable. **vPvB:** Not applicable. **Other adverse effects** No further relevant information available.

13 Disposal considerations

Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.

14 Transport information

UN-Number DOT, ADN, IMDG, IATA UN proper shipping name DOT, ADN, IMDG, IATA

Not applicable

Not applicable

UN "Model Regulation":	-
15 Regulatory information	
Safety, health and environmental GHS label elements The product is	<b>regulations/legislation specific for the substance or mixture</b> s classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)
Hazard pictograms	
$\langle ! \rangle \langle ! \rangle$	
GHS07 GHS08	
<b>Signal word</b> Danger <b>Hazard statements</b>	
H315 Causes skin irritation.	
H319 Causes serious eye irritation. H360 May damage fertility or the un	born child.
H335 May cause respiratory irritatio Precautionary statements	n.
P261 Avoid breathing	dust/fume/gas/mist/vapours/sprav.
P280 Wear protective	gloves/protective clothing/eye protection/face protection.
P305+P351+P338 IF IN EYES: Rins	otective equipment as required. se cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P405 Store locked up. P501 Dispose of conte	ents/container in accordance with local/regional/national/international regulations.
National regulations	
All components of this product are li	isted in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory. isted on the Canadian Domestic Substances List (DSL).
SARA Section 313 (specific toxic California Proposition 65	chemical listings) Substance is not listed.
Prop 65 - Chemicals known to ca	u <b>se cancer</b> Substance is not listed.
Prop 65 - Developmental toxicity 4759-48-2 13-cis-Retinoic acid	
Prop 65 - Developmental toxicity	female Substance is not listed.
Prop 65 - Developmental toxicity,	e: For use only by technically qualified individuals.
Other regulations, limitations and	l prohibitive regulations
Substance of Very High Concern	l prohibitive regulations (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. cording to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the
market and use must be observed	d.
Substance is not listed. Annex XIV of the REACH Regulat	ions (requiring Authorisation for use) Substance is not listed.
Chemical safety assessment: A C	chemical Safety Assessment has not béen carried out.
16 Other information	
Employers should use this informati	ion only as a supplement to other information gathered by them, and should make independent judgement of suitability of this
conformance with this Material Safe	d protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in ty Data Sheet, or in combination with any other product or process, is the responsibility of the user.
