

### Safety Data Sheet per OSHA HazCom 2012

	After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available.	(Contd. of page 1)
5	<i>Fire-fighting measures</i> <i>Extinguishing media</i> <i>Suitable extinguishing agents</i> CO2, sand, extinguishing powder. Do not use water. <i>Special hazards arising from the substance or mixture</i> If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI) Advice for firefighters <i>Protective equipment:</i> Wear self-contained respirator. Wear fully protective impervious suit.	
6	Accidental release measures	
	Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of containinated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7	' Handling and storage	
	Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents.	
	Store away from strong bases. Store away from water/moisture. Further information about storage conditions:	
	Store under drv inert gas.	
	This product is moisture sensitive. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
	Protect from humidity and water. <b>Specific end use(s)</b> No further relevant information available.	
8	Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required.	
	Additional information: No data	
	Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves	
	The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. <b>Penetration time of glove material (in minutes)</b> Not determined <b>Eye protection:</b> Tightly sealed goggles Full face protection	
	Fūll fàce protection	(Contd. on page 3)

(Contd. on page 3)

## Product name: 3-Methylvaleryl chloride

(Contd	of name	2

<b>Bedy protoction</b> , Drotoctivo work olath		(Contd. of page 2)				
Body protection: Protective work clothing.						
9 Physical and chemical properties						
Information on basic physical and ch General Information Appearance:						
Form: Color:	Liquid Colorless					
Odor: Odor threshold:	Pungent Not determined.					
pH-value:	Not determined.					
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined Not determined Not determined					
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not determined Not determined. Not determined Not determined Not determined.					
Danger of explosion: Explosion limits:	Not determined.					
Lower: Upper: Vapor pressure: Density: Relative density	Not determined Not determined Not determined Not determined.					
Vapor density Evaporation rate Solubility in / Miscibility with	Not determined. Not determined.					
Water: Partition coefficient (n-octanol/water)	Reacts : Not determined.					
Viscosity: dynamic:	Not determined.					
kinematic: Other information	Not determined. No further relevant information available.					
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.						
Inermal accomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Bases Water/moisture Hazardous decomposition products: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI)						
11 Toxicological information						
Information on toxicological effects Acute toxicity: Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes serious eye damage. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Reproductive toxicity: No effects known.						
Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.						
12 Ecological information						
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits.						
Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. <b>Results of PBT and vPvB assessment</b> <b>PBT:</b> Not applicable. <b>vPvB:</b> Not applicable. <b>Other adverse effects</b> No further relevant information available.						

13 Disposal considerations

Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal.

(Contd. on page 4)

# Product name: 3-Methylvaleryl chloride

(Contd. of page 3)

Uncleaned packagings: Recommendation: Disposal must be made according to official regulatio	ins.
14 Transport information	
UN-Number DOT, IMDG, IATA	UN2920
UN proper shipping name DOT IMDG, IATA	Corrosive liquids, flammable, n.o.s. (3-Methylvaleryl chloride) CORROSIVE LIQUID, FLAMMABLE, N.O.S. (3-Methylvaleryl chloride)
Transport hazard class(es)	
DOT 🎸	
Class	8 Corrosive substances.
Label Class Label IMDG, IATA	8+3 8 (CF1) Corrosive substances 8+3
ê 🄶	
Class Label	8 Corrosive substances. 8+3
Packing group DOT, IMDG, IATA	11
Environmental hazards:	Not applicable.
Special precautions for user	Warning: Corrosive substances
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Transport/Additional information:	<b>Code</b> Not applicable.
DOT	
Marine Pollutant (DOT):	No
UN "Model Regulation":	UN2920, Corrosive liquids, flammable, n.o.s. (3-Methylvaleryl chloride), 8 (3), II
<b>15 Regulatory information</b> Safety, health and environmental regulations/legislation specific for GHS label elements The product is classified and labeled in accordance Hazard pictograms GHS02 GHS05	<b>the substance or mixture</b> with 29 CFR 1910 (OSHA HCS)
National regulations	ion/face protection. inutes. Remove contact lenses, if present and easy to do. Continue rinsing. xic Substances Control Act Chemical Substance Inventory. Use of this product is restricted tly under the supervision of a technically qualified individual as defined by TSCA. This commercial purposes. listed.

Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

Conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
