

Safety Data Sheet per OSHA HazCom 2012

1	1 Identification	
	Product identifier Product name: N-Fmoc-S-benzyl-L-cysteine	
	Stock number: H63028	
	CAS Number: 53298-33-2	
	Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
	Details of the supplier of the safety data sheet	
	Manufacturer/Supplier: Alfa Aesar	
	Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Word U.W. MA 64005 2000	
	Ward Hill, MA 01835-8099 Tel: 800-343-0660	
	Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com	
	Information Department: Health, Safety and Environmental Department Emergency telephone number:	
	During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-	-0789.
2	2 Hazard(s) identification	
	Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS).	
	Hazards not otherwise classified No information known.	
	Label elements GHS label elements Not applicable	
	Hazard pictograms Not applicable Signal word Not applicable	
	Hazard statements Not applicable WHMIS classification Not controlled	
	Classification system HMIS ratings (scale 0-4)	
	(Hazardous Materials Identification System)	
	FRE IFlammability = 1 REACTIVITY Physical Hazard = 1	
	Other hazards	
	Results of PBT and vPvB assessment PBT: Not applicable.	
	vPvB: Not applicable.	
3	3 Composition/information on ingredients	
3	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description:	
	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine	
	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures	
	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.	
	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact	
	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
	3 Composition/information on ingredients Chemical characterization: Substances CA\$# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye located Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures	
4	 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Fire-fighting measures Extinguishing media Suitable Suitable	
4	 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: S3298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After sinc contact Immediate medical advice. After symmediate medical advice. After sy	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After seven contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Suitup Oxides (SOX)	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Emoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After shalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin contact Immediate medical advice. After skin contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skinlowing Seek medical advice. After skinlowing Seek medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Suifur oxides (SOX) Nitrogen oxides (NOX) Nitrogen oxides (NOX)	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures Extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxides (NOX) Nitrogen oxides (NOX) Nitr	
4	 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 53298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Fire-fighting measures Extinguishing media Subial exiting inform the substance or mixture If his product is involved in a fire, the following can be released: Carbon monovide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If his product is involved in a fire, the following can be released: Carbon monovide and carbon dioxide War self-contained respirator. Wear self-contained respirator. Wear self-contained respirator. Wear self-contained respirator. 	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: S3298-33-2 N-Fmoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After rinhalation Supply free medical advice. After skin contact Immediate medical advice. After skin eve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skindlowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Solutable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sulfur oxides (SOX) Nitrogen oxides (NOX) Advice for infirighters Protective equipment: Wear stilly protective impervious suit. 6 Accidental release measures	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: S3298-33-2 IN-Emoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After skin kontact Immediate medical advice. Stirtspinetar symptoms and effects, both acute and delayed No further relevant information available. Indication of a do y immediate medical attention and special freatment needed No further relevant information available. Stirtspinetary information available. Stirtspinetary is involved in a life, its following can be released: Carbon monoxide and arbon dioxide, extinguishing powder or water spray. Fight larger fires	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: Sizges.32: NF:moc-S-benzyl-L-cysteline 4 First-aid measures Description of first aid measures After inhibition Supply fresh all in required, provide artificial respiration. Keep patient warm. Sapply fresh all in required, provide artificial respiration. Keep patient warm. Sapply fresh all in required, provide artificial respiration. Keep patient warm. After skin contact and the endical advice. After skin contact and the optical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Seek immediate medical attention and special treatment needed No further relevant information available. Seecial treat symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Secial treat and the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxides and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxides and carbon dioxide. Suites (NOX) Advice for firefighters Protective equipment. Wear release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Kear fully protective emproved suit. Secial hazards arising there the substance of a way. Ensign adequate ventilation Environmental precautions: So not allow product to reach s	
4	Composition/information on ingredients Chemical characterization: Substances CAS# Description: Sizg08-33-VE-fmcc-S-benzyl-L-cysteine First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After symptomes and effects, both acute and delayed No further relevant information available. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment medded No further relevant information available. Sitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Suitable extinguishing and inside the following can be released: Carbon monoxide and carbon dioxide Suitable extinguishing media Suitable extinguishing the substance or mixture Wear fully protective impervious suit. Saccidental release measures Protective equipment: Wear fully protective equipment and emergency procedures Wear following contact or practed persons away. Ensure adequate wentilation Formediate medication and ellowing can be released: Suitable extinguishing to on and allowing extinguishing or on any water course. Fore-fighting reserves Protective equipment: Wear fully protective impervious suit. Saccidental release measures Protective equipment: Mear fully protective equipme	
4	3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: Sizge8.332 N-Emoc-S-benzyl-L-cysteine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After system contact Immediates opened eye for several minutes under running water. Then consult a doctor. After system contact lines opened eye for several minutes under running water. Then consult a doctor. After system contact lines opened eye for several minutes under running water. Then consult a doctor. After system contact lines opened eye for several minutes under running water. Then consult a doctor. After system contact lines opened eye for several minutes under running water. Then consult a doctor. After system contact lines opened eye for several minutes under running water. Then consult a doctor. After system contact lines opened eye for several minutes under running water. Then consult a doctor. After system contact lines opened eye for several minutes under running water. Then consult a doctor. After synaptions and effects, both acute and delayed No further relevant information available. Information of any immediate medical attention and special freatment needed No further relevant information available. Stringuishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards and in a fire, the following can be released: Carbon monoxide and carbon dioxide Suitur oxides (SOX) Nitrogen oxides (NOX) Advice for finelighters Proceal precautions, protective equipment and emergency procedures Wear protective impervious suit. Act	(Contd. on page 2)

10 Stability and reactivity

Oxidizing agents Heat

Product name: N-Fmoc-S-benzyl-L-cysteine

See Section 8 for information on personal protection equipment.

(Contd. of page 1)

(Contd. on page 3)

See Section 8 for information on persona See Section 13 for disposal information.	al protection equipment.			
7 Handling and storage				
Handling Precautions for safe handling Keep co Information about protection against (ntainer tightly sealed. explosions and fires: No information known.			
Conditions for safe storage, including Storage Requirements to be met by storeroom Information about storage in one com Protect from heat. Store away from oxidizing agents. Further information about storage cor	s and receptacles: Refrigerate mon storage facility:			
Keep container tightly sealed. Refrigerate Specific end use(s) No further relevant	information available.			
8 Exposure controls/personal prote Additional information about design o Properly operating chemical fume hood o				
Control parameters Components with limit values that req The product does not contain any releva. Additional information: No data	Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.			
Exposure controls Personal protective equipment General protective and hygienic meas The usual precautionary measures for ha Keep away from foodstuffs, beverages a Remove all soiled and contaminated clot	andling chemicals should be followed. nd feed.			
Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air- purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves				
Check protective gloves prior to each us The selection of suitable gloves not only Penetration time of glove material (in Eye protection: Safety glasses Body protection: Protective work clothin	e for their proper condition. depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. minutes) Not determined ng.			
9 Physical and chemical properties				
Information on basic physical and che General Information Appearance:	emical properties			
'Form: Odor: Odor threshold:	Solid Not determined Not determined.			
pH-value:	Not applicable.			
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not determined Not determined Not determined Not determined Not determined Not determined Not determined.			
Danger of explosion: Explosion limits:	Not determined.			
Lower: Upper: Vapor pressure:	Not determined Not determined Not applicable. Not determined			
Density: Relative density Vapor density Evaporation rate	Not determined Not determined. Not applicable. Not applicable.			
Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water): Viacocieu	Not determined Not determined.			
Viscosity: dynamic: kinematic: Other information	Not applicable. Not applicable. No further relevant information available.			

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Ovidizing agents

Product name: N-Fmoc-S-benzyl-L-cysteine			
Hazardous decomposition products:	(Contd. of page 2)		
Carbon monoxide and carbon dioxide Sulfur oxides (SOx) Nitrogen oxides			
11 Toxicological information			
Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known.			
Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.			
12 Ecological information			
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information:			
General notes: Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other edverge officiable.			
Other adverse effects No further relevant information available.			
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.			
14 Transport information			
UN-Number DOT, ADN, IMDG, IATA Not applicable			
UN proper shipping name DOT, ADN, IMDG, IATA Not applicable			
Transport hazard class(es)			
DOT, ADR, ADN, IMDG, IATA Class Not applicable			
Packing group DOT, IMDG, IATA Not applicable			
Environmental hazards: Not applicable.			
Special precautions for user Not applicable.			
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.			
Transport/Additional information:			
DOT Marine Pollutant (DOT): No			
UN "Model Regulation":			
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable Hazard statements Not applicable National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined I product must not be used for commercial purposes or in formulations for commercial purposes. This product is not listed on the Canadian Domestic Substances List (DSL) or the Canadian Non-Domestic Substances List (NDSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed.
