

Safety Data Sheet per OSHA HazCom 2012

(Contd. on page 2)

(Contd. of page 1)

| | (Contd. of page 1) |
|--|--------------------|
| 4 First-aid measures | |
| Description of first aid measures After inhalation | |
| Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. | |
| After skin contact Immediately wash with water and soap and rinse thoroughly. | |
| Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. | |
| After swallowing Seek medical treatment. Information for doctor | |
| Most important symptoms and effects, both acute and delayed No further relevant information available. | |
| Indication of any immediate medical attention and special treatment needed No further relevant information available. | |
| 5 Fire-fighting measures Extinguishing media | |
| Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. | |
| Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: | |
| Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) | |
| Nitrogen oxides (NOx) Advice for firefighters | |
| Protective equipment: Wear self-contained respirator. | |
| Wear fully protective impervious suit. | |
| 6 Accidental release measures Personal precautions, protective equipment and emergency procedures | |
| Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation | |
| Environmental precautions: Do not allow product to reach sewage system or any water course. | |
| Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. | |
| Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections | |
| See Section 7 for information on safe handling | |
| See Section 8 for information on personal protection equipment. See Section 13 for disposal information. | |
| 7 Handling and storage | |
| Handling | |
| Precautions for safe handling Keep container tightly sealed. | |
| Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. | |
| Conditions for safe storage, including any incompatibilities Storage | |
| Requirements to be met by storerooms and receptacles: Store in freezer (-20 °C). Information about storage in one common storage facility: | |
| Protect from heat. Store away from oxidizing agents. | |
| Further information about storage conditions: Keep container tightly sealed. Specific end use(s) No further relevant information available. | |
| 8 Exposure controls/personal protection | |
| Additional information about design of technical systems: | |
| Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. | |
| Control parameters Components with limit values that require monitoring at the workplace: | |
| The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data | |
| Exposure controls Personal protective equipment | |
| Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. | |
| Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. | |
| Wash hands before breaks and at the end of work. Avoid contact with the eves and skin | |
| Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use arresting equipment with the Pd(00 (USA) or PD (EU (14)) performed to the performed to the performed to the | |
| Recommended filter device for short term use: Use a respirator with two P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Pick assessment should be performed to d | otormino if air- |
| Use a respirator with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to d purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of bande: | eterrinine II all- |
| Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition | |
| Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. | |
| Eye protection: Safety glasses Body protection: Protective work clothing. | USA — |

| 9 Physical and chemical properties | | |
| Information on basic physical and che | | |
| General Information Appearance: | | |
| Éorm: Odor: | Solid Not determined | |
| Odor threshold: | Not determined. | |
| pH-value: | Not applicable. | |
| Change in condition | Net determined | |
| Melting point/Melting range: Boiling point/Boiling range: | Not determined Not determined | |
| Sublimation temperature / start: Flammability (solid, gaseous) | Not determined Not determined. | |
| Ignition temperature: | Not determined | |
| Decomposition temperature: Auto igniting: | Not determined Not determined. | |
| Danger of explosion: | Not determined. | |
| Explosion limits: Lower: | Not determined | |
| Upper: | Not determined | |
| Vapor pressure: Density: | Not applicable. Not determined | |
| Density: Relative density Vapor density | Not determined. Not applicable. | |
| Evaporation rate | Not applicable. | |
| Solubility in / Miscibility with Water: | Not determined | |
| Partition coefficient (n-octanol/water): | | |
| Viscosity: dynamic: | Not applicable. | |
| kinematic: Other information | Not applicable. No further relevant information available. | |
| | | |
| 10 Stability and reactivity | | |
| Thermal decomposition / conditions to Possibility of hazardous reactions Re- Conditions to avoid No further relevant Incompatible materials: Oxidizing agents Heat Hazardous decomposition products: Carbon monoxide and carbon dioxide Hydrogen fluoride Nitrogen oxides | nended storage conditions. o be avoided: Decomposition will not occur if used and stored according to specifications. acts with strong oxidizing agents information available. | |
| Reproductive toxicity: No effects know Specific target organ system toxicity Specific target organ system toxicity Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect Additional toxicological information: | in irritation. rious eye irritation. wm. on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. n. - repeated exposure: No effects known. - single exposure: May cause respiratory irritation. | |
| 12 Ecological information | | |
| Toxicity Aquatic toxicity: No further relevant infor Persistence and degradability No furth Bioaccumulative potential No further re Mobility in soil No further relevant inforn Additional ecological information: General notes: Do not allow undiluted product or large q Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further releva | er relevant information available. elevant information available. mation available. quantities to reach ground water, water course or sewage system. t | |
| | | |
| 13 Disposal considerations Waste treatment methods Recommendation Consult state, local o | or national regulations to ensure proper disposal. | |
