

Safety Data Sheet per OSHA HazCom 2012

1	Identification
	Product identifier Product name: Metoclopramide hydrochloride
	Stock number: J61545
	CAS Number: 54143-57-6 Relevant identified uses of the substance or mixture and uses advised against.
	Identified use: SU24 Scientific research and development
	Details of the supplier of the safety data sheet Manufacturer/Supplier:
	Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street
	Ward Hill, MA 01835-8099 Tel: 800-343-0660
	Fax: 800-322-4757 Email: tech@alfa.com
	www.alfa.com Information Department: Health, Safety and Environmental Department
	Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2	Hazard(s) identification
	Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) GHS07
	\diamond
	Acute Tox. 4 H302 Harmful if swallowed. Hazards not otherwise classified No information known.
	Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms
	GHS07
	Signal word Warning Hazard statements H302 Harmful if swallowed.
	Precautionary statements P264 Wash thoroughly after handling
	P270 Do not eat, drink or smoke when using this product. P301+P312 IF SWALLOWED: Call a POISON CENTER/doctor//if you feel unwell.
	P330 Rinse mouth. P501 Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification Not controlled
	Classification system
	HMIS ratings (scale 0-4) (Hazardous Materials Identification System)
	FIRE I Flammability = 1 Reactivity I Physical Hazard = 1
	Other hazards Results of PBT and vPvB assessment PDTs beta and the sector of the secto
	PB1: Not applicable. vPvB: Not applicable.
3	Composition/information on ingredients
	Chemical characterization: Substances CAS# Description: 51442 57 6 Network provide hydrochloride
_	54143-57-6 Metoclopramide hydrochloride
4	First-aid measures Description of first aid measures
	After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.
	Seek immediate medical advice. After skin contact Immediate webs with websr and seen and rises therewebly
	Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eve contact Rinse opened eve for several minutes under running water. Then consult a doctor
	After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor
	Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.
5	5 Fire-fighting measures
	Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
	Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:
	Carbon monoxide and carbon dioxide Hydrogen chloride (HCl) (Contd. on page 2)
	(Conta. on page 2)

Control devices for the and devices of the and device. Control devices for the and device devices of the minutes of the and devi	Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.					
Additional information about design of technical systems: Propely operating chemical lume hold designed to hazardous chemicals and having an average face velocity of at least 100 feet per minute. Components with limit values that require monitoring at the workplace: The product dees not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Response protective with limit values that require monitoring at the workplace: Response protective with limit protective with protective work local Keep away from foodstaffs, beverages and feed. Response of hands: Response of hands: Broketive and solied and contaminated Clubting immediately. Response of hands: Impervious glows Impervious glows Impervious glows Impervious glows Interview of gloves mat only depends on the material, but also on quality. Quality protection: Solied gloves not only depends on the material, but also on quality. Quality protection: Solied gloves not only depends on the material, but also on quality. Quality protection: Solied gloves not only depends on the material, but also on quality. Quality protection: Solied gloves not only depends on the material, but also on quality. Quality protection: Solied gloves solies	Handling Precautions for safe handling Keep container tightly sealed. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: Refrigerate Information about storage in one common storage facility: Store in the dark. Protect from heat. Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Protect from exposure to light. Refrigerate					
Information on basic physical and chemical properties General Information Appearance: Form: Crystalline solid Color: White to pale yellow Odor: Not determined Odor threshold: Not determined. pH-value: Not applicable. Change in condition	8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective equipment General protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protective of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eve protective: Safety classes

Solubility in / Miscibility with Water: Partly soluble Partition coefficient (n-octanol/water): Not determined. Viscosity: Not applicable. dynamic: Not applicable. kinematic: Not applicable. Other information No further relevant information available.	e				
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not oc Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Heat Light Hazardous decomposition products: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI)	cur if used and stored according to specifications.				
11 Toxicological information Information on toxicological effects Acute toxicity: Harmful if swallowed. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.					
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.					
13 Disposal considerations					
Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.
