

Safety Data Sheet per OSHA HazCom 2012

Product name: 3-(TrimethyIsilyI)propiolic acid (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Silicon oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Solid Color: Pale to dark yellow Odor: Not determined Odor threshold: Not determined pH-value: Not applicable. Change in condition 47-49 ℃ (117-120 °F) 105-110 ℃ (221-230 °F) (10mm Hg) Not determined Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: 96 °C (205 °F) Flash point: Flammability (solid, gaseous) Not dèterminéd Ignition temperature: Decomposition temperature: Not determined Not determined (Contd. on page 3)

Product name: 3-(Trimethylsilyl)propiolic acid

1 Toxicological information			
Information on toxicological effects			
Acute toxicity: No effects known. LD/LC50 values that are relevant for o	-lessification. No data		
Skin irritation or corrosion: Causes sl	skin irritation.		
Eye irritation or corrosion: Causes se	erious eye irritation.		
Sensitization: No sensitizing effects kn Germ cell mutagenicity: No effects kn	IOWN. IOWN		
Carcinogenicity: No classification data	nown. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.		
Specific target organ system toxicity	wn. / - repeated exposure: No effects known.		
Specific target organ system toxicity	<i>i single exposure:</i> May cause respiratory irritation.		
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect			
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.		
12 Ecological information			
Toxicity	e a uni		
Aquatic toxicity: No further relevant ini Persistence and degradability No furth	formation available. ther relevant information available.		
Persistence and degradability No furth Bioaccumulative potential No further I Mobility in soil No further relevant info	relevant information available.		
Mobility in soil No further relevant infor Additional ecological information:	rmation available.		
General notes:			
Do not allow material to be released to a	the environment without proper governmental permits. quantities to reach ground water, water course or sewage system.		
Avoid transfer into the environment.
