

## Safety Data Sheet per OSHA HazCom 2012

Product name: 2-Bromo-4-(trifluoromethyl)aniline

	(Contd. of page 1)
4 First-aid measures	(contai or pago i)
Description of first aid measures	
After inhalation	
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. <b>After skin contact</b>	
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.	
After swallowing Seek medical treatment. Information for doctor	
Most important symptoms and effects, both acute and delayed Methemoglobinemia Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media	
Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture	
If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide	
Nitrogen oxides (NOx) Possibly Hydrogen cyanide (HCN)	
Possibly Hydrogen cyanide (HCN) Hydrogen bromide (HBr) Hydrogen fluoride (HF)	
Advice for firefighter's Protective equipment:	
Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures Personal precautions, protective equipment and emergency procedures	
Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up:	
Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation.	
Prevention of secondary hazards: No special measures required. Reference to other sections	
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.	
See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handling	
Precautions for safe handling Keep container tightly sealed.	
Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace.	
Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities	
Storage Requirements to be met by storerooms and receptacles: No special requirements.	
Information about storage in one common storage facility: Store away from oxidizing agents.	
Further information about storage conditions: Keep container tightly sealed. Store in seal dragonditions in well containers	
Store in cool, dry conditions in well sealed containers. <b>Specific end use(s)</b> No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters	
Components with limit values that require monitoring at the workplace: Not required. Additional information: No data	
Exposure controls	
Personal protective equipment General protective and hygienic measures	
The usual precautionary measures for handling chemicals should be followed.	
Reep away from boosturis, beverages and reed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Breathing equipment: Use suitable respirator when high concentrations are present.	
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment.	
Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. <b>Eve protection</b> : Safety classes	
Body protection: Protective work clothing.	
9 Physical and chemical properties	
Information on basic physical and chemical properties General Information	
Appearance: Form: Low melting solid	
	(Contd. on page 2)

Safety	Data	Sheet
per OSH	A HazC	om 2012

## Product name: 2-Bromo-4-(trifluoromethyl)aniline

		(Contd. of page 2)
Color: Odor: Odor threshold:	Pale yellow Not determined Not determined.	
pH-value:	Not applicable.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	28-33 °C (82-91 °F) 109-110 °C (228-230 °F) (10mm Hg) Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not applicable Not determined. Not determined Not determined Not determined.	
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.	
Lower: Upper:	Not determined Not determined	
Vapor pressure: Density at 20 °C (68 °F): Relative density	Not applicable. 1.7 g/cm³ (14.187 lbs/gal) Not determined.	
Vapor density Evaporation rate Solubility in / Miscibility with	Not applicable. Not applicable.	
Water: Partition coefficient (n-octanol/water	Insoluble ): Not determined.	
Viscosity: dynamic: kinematic:	Not applicable. Not applicable.	
Other information	No further relevant information available.	

### 10 Stability and reactivity

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Hazardoub encomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen bromide Hydrogen fluoride Possibly Hydrogen cyanide (HCN) 11 Toxicological information

Information on toxicological effects Acute toxicity: Harmful if inhaled. Harmful if swallowed. Harmful if swallowed. Toxic in contact with skin. Danger through skin absorption. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Garcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Subacute to chronic toxicity: Subacute to chronic toxicity: Absorption into the body may lead to the formation of methemoglobin, producing cyanosis, and marked fall in blood pressure leading to collapse, coma and possibly death. Onset may be delayed 2-4 hours or longer. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. 12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Avoid transfer into the environment. **Results of PBT and vPvB assessment PBT:** Not applicable. **vPvB:** Not applicable. **Other adverse effects** No further relevant information available.

#### 13 Disposal considerations

Waste treatment methods

Recommendation Consult state, local or national regulations to ensure proper disposal.

# Safety Data Sheet per OSHA HazCom 2012

# Product name: 2-Bromo-4-(trifluoromethyl)aniline

Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.

(Contd. of page 3)

<b>Recommendation:</b> Disposal must be made according to a	official regulations.	
14 Transport information		
UN-Number DOT, IMDG, IATA	UN2811	
UN proper shipping name DOT	Toxic solids, organic, n.o.s. (2-Bromo-4-(trifluoromethyl)aniline) TOXIC SOLID, ORGANIC, N.O.S. (2-Bromo-4-(trifluoromethyl)aniline)	
IMDG, IATA	TOXIC SOLID, ORGANIC, N.O.S. (2-Bromo-4-(trifluoromethyl)aniline)	
Transport hazard class(es) DOT		
Class	6.1 Toxic substances.	
Label Class	6.1 6.1 (T2) Toxic substances	
Label IMDG, IATA	6.1	
×		
Class	6.1 Toxic substances.	
Label	6.1	
Packing group DOT, IMDG, IATA	III	
Environmental hazards:	Not applicable.	
Special precautions for user	Warning: Toxic substances	
Transport in bulk according to Annex II of MARPOL73, Transport/Additional information:
