

Safety Data Sheet per OSHA HazCom 2012

(Contd. on page 2)

Product name: (3,3,3-Trifluoropropyl)trichlorosilane

(Contd. of page 1)

	(Contd. of page 1)
4 First-aid measures	
Description of first aid measures General information Immediately remove any clothing soiled by the product.	
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
After skin contact Immediately wash with water and soap and rinse thoroughly.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.	
After swallowing Seek medical treatment. Information for doctor	
Most important symptoms and effects, both acute and delayed Causes severe skin burns.	
Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media Extinguishing media Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water. For safety reasons unsuitable extinguishing agents Water Special hazards arising from the substance or mixture Reacts violently with water	
If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Silicon oxide	
Hydrogen fluoride (HF) Hydrogen chloride (HCl) Advise far finsfishtera	
Advice for firefighters Protective equipment: Wear self-contained respirator.	
Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.	
Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits	
Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keen away from ignition sources	
Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent.	
Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation.	
Do not flush with water or aqueous cleansing agents Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections	
Reference to other sections See Section 7 for information on safe handling	
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handling Precautions for safe handling	
Handle under dry protective gas. Keep container tightly sealed.	
Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace.	
Information about protection against explosions and fires: Protect against electrostatic charges.	
Fumes căn combine with air to form an explosive mixture. Keep ignition sources away.	
Conditions for safe storage, including any incompatibilities Storage	
Requirements to be met by storerooms and receptacles: Store in a cool location. Information about storage in one common storage facility:	
Store away from oxidizing agents. Store away from water/moisture.	
<i>Further information about storage conditions:</i> Store under dry inert gas.	
This product is moisture sensitive. Protect from humidity and water.	
Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data	
Exposure controls Personal protective equipment	
General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed.	

The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately.

(Contd. on page 3)

Product name: (3,3,3-Trifluoropropy	l)trichlorosilane		
Wash hands before breaks and at the er Avoid contact with the eyes and skin. Maintain an ergonomically appropriate w Breathing equipment : Use suitable res	nd of work. rorking environment. pirator when high concentrations are present.	(Contd. of page 2)	
Protection of hands: Impervious gloves Check protective gloves prior to each us	e for their proper condition. depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. minutes) Not determined		
9 Physical and chemical properties			
Information on basic physical and che General Information Appearance:			
Form: Color: Odor: Odor threshold:	Liquid Colorless to pale yellow Not determined Not determined.		
pH-value:	Not determined.		
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined 113-114 °C (235-237 °F) Not determined		
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature:	15 °C (59 °F) Not determined. Not determined Not determined		
Auto igniting: Danger of explosion:	Not determined. Product is not explosive. However, formation of explosive air/vapor mixtures is possible.		
Explosion limits: Lower: Upper: Vapor pressure: Density at 20 °C (68 °F): Relative density Vapor density	Not determined Not determined Not determined 1.395 g/cm³ (11.641 lbs/gal) Not determined. Not determined.		
Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water):	Not determined. Reacts violently : Not determined.		
Viscosity: dynamic: kinematic: Other information	Not determined. Not determined. No further relevant information available.		
10 Stability and reactivity Reactivity Reacts violently with water. Chemical stability Stable under recomr Thermal decomposition / conditions t Possibility of hazardous reactions Re Conditions to avoid No further relevant Incompatible materials: Oxidizing agents Water/moisture Hazardous decomposition products: Carbon monoxide and carbon dioxide Silicon oxide Hydrogen fluoride Hydrogen chloride (HCI)	nended storage conditions. o be avoided: Decomposition will not occur if used and stored according to specifications. acts violently with water t information available.		
11 Toxicological information Information on toxicological effects Acute toxicity: Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes severe skin burns. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Subacute to chronic toxicity: No effects known. Subacute to chronic toxicity: No effects known. Specific target organ system toxicity - single exposure: No effects known. Subacute to chronic toxicity: No effects known. Subacute t			
12 Ecological information Toxicity Aquatic toxicity: No further relevant info Persistence and degradability No furth Bioaccumulative potential No further re Mobility in soil No further relevant inform	elevant information available.	(Contd. on page 4) USA	

Safety Data Sheet per OSHA HazCom 2012

	Reviewed on 01/)5/2009
Product name: (3,3,3-Trifluoropropyl)trichlorosilane		
Additional ecological information: General notes: Do not allow material to be released to the environment without proper gover Do not allow undiluted product or large quantities to reach ground water, wat Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.	(Contd. o rnmental permits. ter course or sewage system.	fpage 3)
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure prop Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.		
14 Transport information		
UN-Number DOT, IMDG, IATA	UN2985	
UN proper shipping name		
DOT I III G IMDG, IATA	Chlorosilanes, flammable, corrosive, n.o.s. CHLOROSILANES, FLAMMABLE, CORROSIVE, N.O.S.	
Transport hazard class(es) DOT Class Label Class Label IMDG, IATA Class	3 Flammable liquids. 3+8 3 (FC) Flammable liquids 3+8 2 Flammable liquids	
Class Label	3 Flammable liquids. 3+8	
Packing group DOT, IMDG, IATA	11	
Environmental hazards:	Not applicable.	
Special precautions for user Segregation groups	Warning: Flammable liquids Acids	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC C		
Transport/Additional information:		
DOT Marine Pollutant (DOT):	No

15 Regulatory information Safety, health and environmental regulations/legislation specific for the GHS label elements The product is classified and labeled in accordance with Hazard pictograms GHS02 GHS05 Signal word Danger	e substance or mixture th 29 CFR 1910 (OSHA HCS)	

 GFISU2 GFISUS

 Signal word Danger Hazard statements

 H225 Highly flammable liquid and vapor.

 H314 Causes severe skin burns and eye damage.

 Precautionary statements

 P210
 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

 P205
 Do not breathe dust/fume/gas/mist/vapours/spray.

 P303+P361+P333 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

 P405
 Store locked up.

 P501
 Dispose of contents/container in accordance with local/regional/national/international regulations.

 National regulations
 All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory.

 All components of this product are listed on the Canadian Non-Domestic Substances List (NDSL).

 SARA Section 313 (specific toxic chemical listings) Substance is not listed.

 Prop 65
 Developmental toxicity, female Substance is not listed.

 Prop 65
 Developmental toxicity, male Substance is not listed.

 Prop 65
 Developmental toxicity, mela Substance is not listed.

 Prop 65
 Developmental toxicity, mela Substance is not listed.

 Prop 65<

USA

Product name: (3,3,3-Trifluoropropyl)trichlorosilane

(Contd. of page 4) The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed.

Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user. Conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
