

Safety Data Sheet per OSHA HazCom 2012

(Contd. of page 1) 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sulfur oxides (SOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. Extinguishing media 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. Personal precautions, protective equipment and emergency procedures 7 Handling and storage Handling Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses **Body protection:** Protective work clothing. 9 Physical and chemical properties	s	
Information on basic physical and ch General Information		
Appearance: Form:	Liquid	
Color:	Liquid Colorless	
Odor:	Unpleasant	
Odor threshold:	Not determined.	
pH-value:	Not determined.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	-83 °C (-117 °F) 137-138 °C (279-280 °F) Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	23 °C (73 °F) Not determined Not determined Not determined Not determined.	
Danger of explosion: Explosion limits: Lower: Upper:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible. 1.1 Vol % Not determined	
Vapor pressure at 25 °C (77 °F): Density at 20 °C (68 °F): Relative density Vapor density	12 hPa (9 mm Hg) 0.889 g/cm³ (7.419 lbs/gal) Not determined. Not determined.	
Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water) Viscosity:	Not determined. Not miscible or difficult to mix): Not determined.	
Viscosity: dynamic: kinematic: Other information	Not determined. Not determined. No further relevant information available.	
10 Stability and reactivity		
Reactivity No information known. Chemical stability Stable under recom Thermal decomposition / conditions Possibility of hazardous reactions No Conditions to avoid No further relevar Incompatible materials: Oxidizing age Hazardous decomposition products: Carbon monoxide and carbon dioxide Sulfur oxides (SOx)	to be avoided: Decomposition will not occur if used and stored according to specifications. Io dangerous reactions known nt information available. ents	
11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LDLC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes skin irritation. Germ cell mutagenicity: No effects known. Germ cell mutagenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Other information (about experimental toxicology): Mutagenic effects have been observed on tests with laboratory animals. Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) reports the following effects in laboratory animals: Behavioral - muscle contraction or spasticity. Lungs, Thorax, or Respiration - other changes. Nutritional and Gross Metabolic. Biochemical - Enzyme inhibition, induction, or change in blood or tissue levels - hepatic microsomal mixed oxidase. Biochemical - Enzyme inhibition, induction, or change in blood or tissue levels - other transferases. Liver - other changes. Liver - other changes. Reporting - Maternal Effects - breasts, lactation (prior to or during pregnancy) Turnorigenie - Facilitates action of known carcinogen Reporting - Maternal Effects - breasts, lactat		
12 Ecological information Toxicity Aquatic toxicity: No further relevant in Persistence and degradability No furt Bioaccumulative potential No further Mobility in soil No further relevant info Additional ecological information: General notes:	nformation available. ther relevant information available. relevant information available. ormation available. the environment without proper governmental permits.	
		(Contd. on page 4)

Product name: Diallyl sulfide

(Contd. of page 3)

VPvB: Not applicable. (Contd. of page			
Other adverse effects No further relevant information available.			
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.			
14 Transport information			
UN-Number DOT, IMDG, IATA	UN1993		
UN proper shipping name DOT IMDG. IATA	Flammable liquids, n.o.s. (Diallyl sulfide) FLAMMABLE LIQUID, N.O.S. (Diallyl sulfide)		
Transport hazard class(es) DOT			
Class Label	3 Flammable liquids. 3		
Class Label	3 (F1) Flammable liquids		
ĪMDG, IATA			
Class Label	3 Flammable liquids. 3		
Packing group DOT, IMDG, IATA	<i>III</i>		
Environmental hazards:	Not applicable.		
Special precautions for user EMS Number:	Warning: Flammable liquids F-E.S-E		
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.			
Transport/Additional information:			
DOT Marine Pollutant (DOT):	No		
UN "Model Regulation":	UN1993, Flammable liquids, n.o.s. (Diallyl sulfide), 3, III		
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms Image: Comparison of the substance or mixture GHS02 GHS07 Signal word Warning Hazard statements H226 Flammable liquid and vapour. H315 Causes skin initation. H335 May causes respiratory initation. Precentionary statements Precentionary statements P261 Avoid breathing dust/tume/gas/mist/vapours/spray. P264 Post P364 - P351+P331 Wear protective gloves. P364 - P351+P333 Wear protective gloves. P364 - P361+P334 Wear protective gloves. P364 - P361+P334 Wear protective gloves. P364 - P361 + P334 Wear protective gloves.			
Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.			
Chemical Salety assessment. A Chemical Salety Assessment has hot be	USA -
