	Version 1
1 Identification	
Product identifier	
Product name: 2-Chloro-2-methylbutane	
Stock number: A11703, L12614 CAS Number:	
594-36-5 <b>EC number:</b>	
209-836-2 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar	
Thermo Fisher Scientific Chemicals, Inc.	
30 Bond Street Ward Hill MA 01835-8099	
Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757	
Email: tech@alfa.com	
www.alfa.com Information Department: Health, Safety and Environmental Department	
Emergency telephone number:	790
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-07	89.
2 Hazard(s) identification	
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	
GHS02 Flame	
Flam. Liq. 2 H225 Highly flammable liquid and vapor. Hazards not otherwise classified No information known.	
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms	
GHS02	
Signal word Danger Hazard statements H225 Highly flammable liquid and vapor. Precautionary statements P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P280 Wear protective gloves / eye protection / face protection. P280 Ground/bond container and receiving equipment. P241 Use explosion-proof electrical/ventilating/lighting/equipment. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.	
WHMIS classification B2 - Flammable liquid	
Classification system	
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
HEALTH       II       Health (acute effects) = 1         FIRE       II       Flammability = 3         Reactivity [I]       Physical Hazard = 1	
Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.	
3 Composition/information on ingredients Chemical characterization: Substances	
CAS# Description:	
594-36-5 2-Chloro-2-methylbutane Concentration: ≤100%	
Identification number(s): EC number: 209-836-2	
4 First-aid measures	
Description of first aid measures After inhalation	
After Innation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
After skin contact	
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.	
	(Contd. on page 2) USA

## Product name: 2-Chloro-2-methylbutane

## (Contd. of page 1)

After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dióxide Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. Protective Action Criteria for Chemicals PAC-1: Substance is not listed PAC-1: Substance is not listed. PAC-2: Substance is not listed. PAC-3: Substance is not listed. 7 Handling and storage Handling Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Storage Requirements to be met by storerooms and receptacles: Store in a cool location. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment Tersonal protective end hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with multi-purpose combination (US) or type ABEK (EN 14387) as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards such as NIOSH (USA) or CEN (EU). Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Material of glove Fluorocarbon rubber (Viton) Penetration time of glove material (in minutes) 480 Glove thickness: 0.7 mm Eye protection: Safety glasses with side shields / NIOSH (US) or EN 166(EU) Body protection: Protective work clothing.

9 Physical and chemical propertie	95
Information on basic physical and cl General Information Appearance:	
Form: Odor:	Liquid Not determined
Odor threshold: pH-value:	Not determined. Not determined.
Change in condition	
Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	-73 °C (-99 °F) 85-86 °C (185-187 °F) Not determined
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature:	-10 °C (14 °F) Not determined. Not determined Not determined
Auto igniting:	Not determined.
Danger of explosion: Explosion limits: Lower:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible. Not determined
Upper: Vapor pressure:	Not determined Not determined
Density at 20 °C (68 °F): Relative density	0.866 g/cm³ (7.227 lbs/gal) Not determined.
Vapor density Evaporation rate	Not determined. Not determined.
Solubility in / Miscibility with Water:	Not determined
Partition coefficient (n-octanol/water Viscosity:	
dynamic: kinematic: Other information	Not determined. Not determined. No further relevant information available.
Possibility of hazardous reactions R Conditions to avoid No further releva. Incompatible materials: Oxidizing age Hazardous decomposition products. Carbon monoxide and carbon dioxide Hydrogen chloride (HCI)	nt information available.
11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for Skin irritation or corrosion: May caus Eye irritation or corrosion: May caus Sensitization: No sensitizing effects ki Germ cell mutagenicity: No effects ki	se irritation e irritation
Reproductive toxicity: No effects kno	
	y - repeated exposure: No effects known.
Asniration hazard: No effects known	y - single exposure: No effects known.
Subacute to chronic toxicity: No effe Additional toxicological information	ects known. : To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
12 Ecological information	
Toxicity Aquatic toxicity: No further relevant ir Persistence and degradability No fur Bioaccumulative potential No further Mobility in soil No further relevant info Additional ecological information:	nformation available. ther relevant information available. relevant information available. ormation available.
General notes: Do not allow undiluted product or large Avoid transfer into the environment. Results of PBT and vPvB assessmen PBT: Not applicable. vPvB: Not applicable.	quantities to reach ground water, water course or sewage system. nt
Other adverse effects No further relev	
13 Disposal considerations	
	or national regulations to ensure proper disposal.
Uncleaned packagings: Recommendation: Disposal must be i	made according to official regulations.
