

1 Identification Product identifier Product name: 2-Aminoanthracene Stock number: L14269 CAS Number: 613-13-8 EC number: 210-330-9 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. Inerrito Fisher Scheman C. 30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech @alfa.com www.alfa.com Information Department: Product Safety Department Health, Safety and Environmental Department Teanin, Salety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789. 2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) GHS08 Health hazard Muta. 2 H341 Suspected of causing genetic defects. Hazards not otherwise classified No information known. Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms æ GHS08 

 Signal word Warning

 Hazard statements

 H341 Suspected of causing genetic defects.

 Precautionary statements

 P281
 Use personal protective equipment as required.

 P201
 Obtain special instructions before use.

 P202
 Do not handle until all safety precautions have been read and understood.

 P308+P313 IF exposed or concerned: Get medical advice/attention.

 P405
 Store locked up.

 P501
 Dispose of contents/container in accordance with local/regional/national/international regulations.

 WHMIS classification

 WHMIS classification D2B - Toxic material causing other toxic effects T Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System) 1 Health (acute effects) = 1Flammability = 1 Physical Hazard = 1 Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other hazards 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 613-13-8 2-Aminoanthracene Identification number(s): EC number: 210-330-9 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. (Contd. on page 2)

Product name: 2-Aminoanthracene			
After swallowing Seek medical treatme Information for doctor Most important symptoms and effects Indication of any immediate medical a	nt. <b>5, both acute and delayed</b> No further relevant information available. <b>Ittention and special treatment needed</b> No further relevant information available.	(Contd. of page 1)	
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear fully protective impervious suit.			
6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.			
7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.			
8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.			
Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data			
Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing.			
9 Physical and chemical properties			
Information on basic physical and che General Information Appearance: Form: Color: Odor: Odor threshold:	emical properties Powder Dark yellow Not determined Not determined.		
pH-value:	Not applicable.		
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	235-239 °C (455-462 °F) Not determined Not determined		
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature:	Not applicable Not determined. Not determined Not determined		
		(Contd. on page 3) USA	

## Product name: 2-Aminoanthracene

Product name: 2-Aminoanthracene		
		(Contd. of page 2)
Auto igniting:	Not determined.	
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.	
Lower: Upper:	Not determined Not determined	
Vapor pressure:	Not applicable.	
Density: Relative density	Not determined Not determined.	
Vapor density	Not applicable.	
Evaporation rate Solubility in / Miscibility with	Not applicable.	
Water:	Insoluble	
Partition coefficient (n-octanol/water Viscosity:	r): Not determined.	
dynamic:	Not applicable.	
kinematic: Other information	Not applicable. No further relevant information available.	
10 Stability and reactivity Reactivity No information known.		
Chemical stability Stability Stable under recon Thermal decomposition / conditions Possibility of hazardous reactions N Conditions to avoid No further releva Incompatible materials: Oxidizing ag Hazardous decomposition products	nt information available. ents	
Carbon monoxide and carbon dioxide		
Nitrogen oxides		
11 Toxicological information Information on toxicological effects		
Acute toxicity: No effects known.		
LD/LC50 values that are relevant for Skin irritation or corrosion: May cau	classification: No data se irritation	
Eve irritation or corrosion May caus	e irritation	
Sensitization: No sensitizing effects k Germ cell mutagenicity: Suspected o	nown. f causing genetic defects.	
Carcinodenicity: No classification dat	a on carcinogenic properties of this material is available from the EPA. IARC. NTP. USHA or ACGIH.	
Reproductive toxicity: No effects kno Specific target organ system toxicity	wn. <b>/ - repeated exposure:</b> No effects known.	
Specific target organ system toxicity	/ - single exposure: No effects known.	
Aspiration hazard: No effects known. Other information (about experimental toxicology):		
Tumorigenic effects have been observed on tests with laboratory animals.		
Reproductive effects have been observed on tests with laboratory animals. Mutagenic effects have been observed on tests with bacteria.		
Mutagenic effects have been observed on tests with insects.		
Mutagenic effects have been observed Mutagenic effects have been observed	l on tests with fush. I on tests with human lymphocytes.	
Mutagenic effects have been observed	l with human hela cells.	
Mutagenic effects have been observed Subacute to chronic toxicity:	on lesis with aboratory animals.	
The Registry of Toxic Effects of Chemi	cal Substances (RTECS) reports the following effects in laboratory animals:	
Biochemical - Enzyme inhibition, induc	t loss or decreased weight gain. tion, or change in blood or tissue levels - phosphatases.	
Biochemical - Enzyme inhibition, induc Related to Chronic Data - death.	tion, or change in blood or tissue levels - transaminases.	
Behavioral - food intake (animal).		
Gastrointestinal - changès in structure Endocrine - hyperglycemia.	or function of endocrine pancreas.	
Skin and Appendades - tumors.		
Liver - tumors. Reproductive - Effects on Newborn - a	erm cell effects (in offspring)	
Kidnev. Ureter. Bladder - tumors.		
Tumorigenic - carcinogenic by RTECS Tumorigenic - equivocal tumorigenic ag	gent by RTECS criteria.	
Tumorigenic - neoplastic by RTECS ch Tumorigenic - tumors at site of applicat	iteria.	
Additional toxicological information	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity		
Aquatic toxicity: No further relevant in Persistence and degradability No fur	ntormation available. ther relevant information available	
Bioaccumulative potential No further relevant information available.		
Mobility in soil No further relevant info Additional ecological information:	ormation available.	
General notes:	the applicament without proper applicated normite	
Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system.		
Avoid transfer into the environment.		
Results of PBT and vPvB assessme PBT: Not applicable.		
vPvB: Not applicable. Other adverse effects No further relev	vant information available	
13 Disposal considerations		
Waste treatment methods		

Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal.

	Reviewed on 10/13/2008	
Product name: 2-Aminoanthracene		
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	(Contd. of page 3)	
<b>14 Transport information</b> Not a hazardous material for transportation.		
UN-Number DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA	None	
Transport hazard class(es) DOT, ADR, IMDG, IATA		
Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards: Special precautions for user	Not applicable. Not applicable.	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	••	
Transport/Additional information:	Not dangerous according to the above specifications.	
DOT Marine Pollutant (DOT):	No	
Hazard pictograms         With the second s
