

1 Identification	
Product identifier	
Product name: <u>5-Acetyluracil</u> Stock number: 44378	
CAS Number: 6214-65-9	
Relevant identified uses of the substance or mixture and uses advised against.	
Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet	
Manufacturer/Supplier: Alfa Aesar	
Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street	
Ward Hill. MA 01835-8099	
Tel: 800-343-0660 Fax: 800-322-4757	
Email: tech@alfa.com www.alfa.com	
Information Department: Health, Safety and Environmental Department Emergency telephone number:	
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0	0789.
2 Hazard(s) identification	
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS).	
Hazards not otherwise classified No information known.	
Label elements GHS label elements Not applicable	
Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable	
Hazard statements Not applicable WHMIS classification Not controlled	
Classification system HMIS ratings (scale 0-4)	
(Hazardous Materials Identification System)	
HEALTH I Health (acute effects) = 1 FIRE I Flammability = 1	
REACTIVITY Physical Hazard = 1	
Other hazards Results of PBT and vPvB assessment	
PBT: Not applicable. vPvB: Not applicable.	
2 L'AMPAGITIAN/INTATMATIAN AN INGRAGIANTS	
3 Composition/information on ingredients Chemical characterization: Substances	
Chemical characterization: Substances	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures	
Chemical characterization: Substances CAS# Description: 62 14-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly.	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eve contact Rinse opened eve for several minutes under running water. Then consult a doctor.	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After sek inse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures Extinguishing media	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide.	
Chemical characterization: Substances         CAS# Description:         6214-65-9 5-Acetyluracil <b>4 First-aid measures</b> Description of first aid measures         Supply fresh air: If required, provide artificial respiration. Keep patient warm.         Seek immediate medical advice.         After skin contact         Immediately wash with water and soap and rinse thoroughly.         Seek immediate medical advice.         After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.         After swallowing Seek medical tréatment.         Information for doctor         Most important symptoms and effects, both acute and delayed No further relevant information available.         Indication of any immediate medical attention and special freatment needed No further relevant information available.         Indication of any immediate medical attention and special freatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture         If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide         Nitrogen oxides (NOX)         <	
Chemical characterization: Substances CAS# Description: 8214-65-9 5-Acetyluracil <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator.	
Chemical characterization: Substances CAS# Description: 8214-65-9 5-Acetyluracil <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. S Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment:	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracil <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. It required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Social hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures	
Chemical characterization: Substances CAS# Description: 6214-659 5-Acetyluracii         4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is inic, the following can be released: Carbon monxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator.         6 Accidental release measures Personal precautions, protective equipment and emergency procedures	
Chemical characterization: Substances CAS# Description: 6214-65-9 5-Acetyluracii 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Stringuishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NoX) Advice for firefighters Protoctive equipment. Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
Chemical characterization: Substances CAS# Description: B214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Finse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical adtention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Settinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear protective equipment. Keep unprotected persons away. Environmental preceutions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Environmental preceutions: Do not atlow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning us: Pick to mechanical without proper governmental permits.	
Chemical characterization: Substances CASH Description: EX14-65-9 5-Acetyluracil         4 First-aid measures Description of first aid measures After inhelation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin contact Immediate medical advice.         After skin contact Immediate medical advice.         After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor         Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting media Suitable extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Wear stell-contance respirator. Wear self-contance respirator. Wear protective equipment: Wear self-contance respirator. Wear protective equipment for contalced persons away. Ensure adequate ventilation Environmental precautions; Do not allow material to be released to the environment without proper governmental permits. Methods and material for contalenting up: Pick up mechanically. Prevention of secondary hazards: No special	
Chemical characterization: Substances CAST Description 2214-65-9 5-Acetyluracil 4 First-aid measures Description of first aid measures After inhalation Supply tresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek immedical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. S Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide. Nitrogen oxides (NOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator. Wear self-contained respirator. Wear self-contained respirator. Wear self-contained respirator. Devicemental precautions, protective equipment and emergency procedures Merger adequate ventilation Environmental precautions. Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required.	(Contd. on page 2)

## Product name: 5-Acetyluracil

See Section 13 for disposal information.

7 Handling and storage	7 Handling and storage				
Handling					
Precautions for safe handling Keep container tightly sealed.					
Store in cool, dry place in tightly closed	Store in cool, dry place in tightly closed containers. Information about protection against explosions and fires: No information known.				
Conditions for safe storage, includin					
Storage					
Requirements to be met by storeroon	ns and receptacles: No special requirements. nmon storage facility: Store away from oxidizing agents.				
Further information about storage co	inditions:				
Keep container tightly sealed. Store in cool, dry conditions in well seal	led containers				
Specific end use(s) No further relevan	t information available.				
8 Exposure controls/personal prot	ection				
Additional information about design					
Properly operating chemical fume hood	designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.				
Control parameters	aving manifesting of the worksloop. Not required				
Additional information: No data	quire monitoring at the workplace: Not required.				
Exposure controls					
Personal protective equipment General protective and hygienic mea	2011/2				
The usual precautionary measures for I	nandling chemicals should be followed.				
Keep away from foodstuffs, beverages Remove all soiled and contaminated clo	and feed. othing immediately.				
Wash hands before breaks and at the e	and of work.				
Maintain an ergonomically appropriate Breathing equipment: Use suitable re-	spirator when high concentrations are present.				
Protection of hands: Impervious gloves					
Check protective gloves prior to each u	se for their proper condition.				
The selection of suitable gloves not only <b>Eye protection:</b> Safety glasses	y depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.				
Body protection: Protective work cloth	ing.				
9 Physical and chemical properties	e				
Information on basic physical and ch					
General Information	iennical properties				
Appearance: Form:	Powder				
Color:	Off-white				
Odor: Odor threshold:	Not determined Not determined.				
pH-value:	Not applicable.				
Change in condition					
Melting point/Melting range: Boiling point/Boiling range:	>284 °C (>543 °F) (dec) Not determined				
Sublimation temperature / start:	Not determined				
Flash point:	Not applicable				
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined				
Decomposition temperature:	Not determined				
Auto igniting:	Not determined. Product does not present an explosion hazard.				
Danger of explosion: Explosion limits:					
Lower: Upper:	Not determined Not determined				
Vapor pressure:	Not applicable.				
Density: Relative density	Not determined Not determined.				
Vapor density	Not applicable.				
Evaporation rate Solubility in / Miscibility with	Not applicable.				
Water:	Not determined				
Partition coefficient (n-octanol/water) Viscosity:	r. Not determined.				
dynamic: kinematic:	Not applicable. Not applicable.				
Other information	No further relevant information available.				
10 Stability and reactivity					
Reactivity No information known. Chemical stability Stable under recommended storage conditions.					
Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.					
Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available.					
Incompatible materials: Oxidizing agents					
Hazardous decomposition products: Carbon monoxide and carbon dioxide					
Nitrogen oxides	USA				

Product name: 5-ACetyluraCil

11 Toxicological information		
Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this mate Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute	n.	
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available.		
Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes:		
Do not allow material to be released to the environment without proper governm Do not allow undiluted product or large quantities to reach ground water, water Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable.	nental permits. course or sewage system.	
<b>PB1</b> : Not applicable. <b>vPvB</b> : Not applicable. <b>Other adverse effects</b> No further relevant information available.		
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	disposal.	
14 Transport information		
Not a hazardous material for transportation. UN-Number		
DOT, IMDG, IATA UN proper shipping name	None	
DOT, IMDG, IÁTA Transport hazard class(es)	None	
DOT, ADR, IMDG, IATA Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Cod	e Not applicable.	
Transport/Additional information:	Not dangerous according to the above specifications.	
DOT Marine Pollutant (DOT):	No
